Eliza Calvert Hall Lynn E. Niedermeier,2021-12-14 In 1907, author, poet, essayist, and folk art historian Eliza Calvert Hall (1856–1935) published Aunt Jane of Kentucky, a collection of stories about rural life infused with the spirit and gentle good humor of its elderly narrator, Aunt Jane. The book and several sequels achieved wide popularity, reaching an estimated one million readers in her lifetime, and placed Hall in the front ranks of local color fiction writers of her time. Eliza Calvert Hall's life and work unfolded during a time of restlessness and change for American women. Born Eliza Lida Calvert in Bowling Green, Kentucky, Hall experienced the upheaval of both the Civil War and family scandal. Forced to help support her mother and four siblings by teaching school, she became a published poet, adopting her grandmother's name, Hall, as her pseudonym. At twenty-nine, she married William A. Obenchain, and in the space of eight years gave birth to four children. As Hall struggled to balance her writing career with the duties of a nineteenth-century wife and mother, suffragist Laura Clay was lobbying for every woman's right to vote. Hall joined the battle, writing fearlessly in support of suffrage and equality. While her passionate essays served as a direct appeal for this cause, her creative writing also carried a feminist spirit, celebrating the strength, humor, love, and art of the common woman. In Eliza Calvert Hal: Kentucky Author and Suffragistl, Lynn E. Niedermeier tells the story of this remarkable Kentuckian for the first time. Hall's challenge was to balance the artist's creative ambitions with the crusader's passion for achieving the goal of political equality for American women. Her successes did not stem from privilege or leisure; although she was an acclaimed writer, Hall was an ordinary woman, a wife and mother of moderate economic means. Through the power of her words, she challenged others to match her courage, independence, intellectual energy, and loyalty to her sex.

Rise Up! Amalia Dache,Stephen John Quay,Chris Linder,Keon M. McGuire,2019-09-01 We live at a time when the need for resistance has come front and center to international consciousness. Rise Up! Activism as Education works to advance theory and practice-oriented understandings of multiple forms of and relationships between racial justice activism and diverse and transnational educational contexts. Here contributors provide detailed accounts and examinations—historical and contemporary, local and international—of active resistance efforts aimed at transforming individuals, institutions, and communities to dismantle systems of racial domination. They explore the ways in which racial justice activism serves as public education and consciousness-raising and a form of education and resistance from those engaged in the activism. The text makes a case for activism as an educational concept that enables organizers and observers to gain important learning outcomes from on-the-ground perspectives as it explores racial justice activism, specifically in the context of community and campus activism, intersectional activism, and Black diasporic liberation. This volume is an essential handbook for preparing both students and activists to effectively resist.

Postcoloniality - Decoloniality - Black Critique Sabine Broeck,Sabine Bröck-Sallah,Carsten Junker,2014-11-06 How can Western Modernity be analyzed and critiqued through the lens of enslavement and colonial history? The volume maps out answers to this question from the fields of Postcolonial, Decolonial, and Black Studies, delineating converging and diverging positions, approaches, and trajectories. It assembles contributions by renowned scholars of the respective fields, intervening in History, Sociology, Political Sciences, Gender Studies, Cultural and Literary Studies, and Philosophy.

#RhodesMustFall Nyamnjoh, Francis B.,2016-04-18 This book on rights, entitlements and citizenship in post-apartheid South Africa shows how the playing field has not been as levelled as presumed by some and how racism and its benefits persist. Through everyday interactions and experiences of university students and professors, it explores the question of race in a context still plagued by remnants of apartheid, inequality and perceptions of inferiority and inadequacy among the majority black population. In education, black voices and concerns go largely unheard, as circles of privilege are continually regenerated and added onto a layered and deep history of cultivation of black pain. These issues are examined against the backdrop of organised student protests sweeping through the country's universities with a renewed clamour for transformation around a rallying cry of 'Black Lives Matter'. The nuanced complexity of this insightful analysis of the Rhodes Must Fall movement elicits compelling questions about the attractions and dangers of exclusionary articulations of belonging. What could a grand imperialist like the stripling Uitlander or foreigner of yesteryear, Sir Cecil John Rhodes, possibly have in common with the present-day nimble-footed makwerekwere from Africa north of the Limpopo? The answer, Nyamnjoh suggests, is to be found in how human mobility relentlessly tests the boundaries of citizenship.

The World the Sixties Made Van Gosse,Richard R. Moser,2008 How can we make sense of the fact that after decades of right-wing political mobilizing the major social changes wrought by the Sixties are more than ever part of American life? The World the Sixties Made, the first academic collection to treat the last quarter of the twentieth century as a distinct period of U.S. history, rebuts popular accounts that emphasize a conservative ascendancy. The essays in this volume survey a vast historical terrain to tease out the meaning of the not-so-long ago. They trace the ways in which recent U.S. culture and politics continue to be shaped by the legacy of the New Left's social movements, from feminism to gay liberation to black power. Together these essays demonstrate that the America that emerged in the 1970s was a nation profoundly, even radically democratized.

Self-Devouring Growth Julie Livingston,2019-09-20 Under capitalism, economic growth is seen as the key to collective well-being. In Self-Devouring Growth Julie Livingston upends this notion, showing that while consumption-driven growth may seem to benefit a particular locale, it produces a number of unacknowledged, negative consequences that ripple throughout the wider world. Structuring the book as a parable in which the example of Botswana has lessons for the rest of the globe, Livingston shows how fundamental needs for water, food, and transportation become harnessed to what she calls self-devouring growth: an unchecked and unsustainable global pursuit of economic growth that threatens catastrophic environmental destruction. As Livingston notes, improved technology alone cannot stave off such destruction; what is required is a greater accounting of the web of relationships between humans, nonhuman beings, plants, and minerals that growth entails. Livingston contends that by failing to understand these relationships and the consequences of self-devouring growth, we may be unknowingly consuming our future.

A History of Popular Women's Magazines in the United States, 1792-1995 Mary Ellen Zuckerman,1998-07-30 Throughout their history, women's mass circulation journals have played a major role in the lives of millions of American women. Yet the women's magazines of the early 20th century were quite different from those perused by women today. This book looks at changes that occurred in these journals and offers insight into these changes. Business forces formed a key shaping mechanism, tempered by individual editors, readers, advertisers, technology, and cultural and social forces. Founded in the second half of the 19th century, six titles became the largest circulators—Ladies Home Journal, Good Housekeeping, McCall's, Pictorial Review, Woman's Home Companion, and Delineator. Capturing the interest of readers and advertisers, these journals published reliable service departments, fiction, and investigative reporting; however, competition eventually bred editorial caution. This, coupled with the depression of the 1930s, led to a narrowing of content and the beginning of Betty Friedan's feminine mystique. After World War II, the journals faced competition from television. The women's liberation movement and women's entry into the work force also brought changes.

Machine Translation and Foreign Language Learning Kizito Tekwa,2024-01-02 The book investigates how machine translation (MT) provides opportunities and increases the willingness to communicate in a foreign language. It is informed by a mixed methods methodological approach that analyzes quantitative and qualitative data of questionnaires and real-time instant messages (IM). The book is unique because it contains tables, figures, and screenshots of actual real-time IM exchanges. It is innovative in discussing IM translation, a novel form of MT, and demonstrates how the technology offers English foreign language learners, in this case, Chinese college students, communication opportunities while increasing their willingness to communicate. The study provides an interesting insight into IM user profiles, clients, and usages. Smartphone screenshots are the locale of the study whose findings have far-reaching implications for students, language and translation instructors, and curriculum designers.
