The Curse of Nemur Ticio Escobar, 2007-01-01 The Tomárahó, a subgroup of the Ishir (Chamacoco) of Paraguay, are one of the few remaining indigenous populations who have managed to keep both their language and spiritual beliefs intact. They have lived for many years in a remote region of the Gran Chaco, having limited contact with European or Latin American cultures. The survival of the Tomárahó has been tenuous at best; at the time of this writing there were only eighty-seven surviving members. Ticio Escobar, who lived extensively among the Tomárahó, draws on his acquired knowledge of Ishir beliefs to confront them with his own Western ideology, and records a unique dialogue between cultures that counters traditional anthropological interpretation. The Curse of Nemur-- which is part field diary, part art critique, and part cultural anthropology-- offers us a view of the world from an entirely new perspective, that of the Ishir. We acquire deep insights into their powerful and enigmatic narrative myths, which find expression in the forms of body painting, feather decoration, dream songs, shamanism, and ritual. Through dramatic photographs, native drawings, extensive examination of color and its importance in Ishir art, and Escobar's lucid observation, The Curse of Nemur illuminates the seamless connection of religious practice and art in Ishir culture. It

offers a glimpse of an aesthetic other, and in so doing, causes us to reexamine Western perspectives on the interpretation of art, belief, and Native American culture.

Site, Symbol and Cultural Landscape Almantas Samalavičius, 2021-10-19 This volume explores the relationship between sites, architectural symbols and cultural landscapes, and discusses a variety of issues related to the central themes of the book, providing insights into the history, as well as the present development, of cultural landscapes. Contributors to this book—architects, architectural historians and theorists—reconsider the notion of genius loci and its importance in shaping historical landscapes in the eastern part of Europe. Despite being focused on Lithuanian historical and architectural contexts, these essays will be of interest to anyone who approaches architectural and urban legacies as part of general culture. Transcending local realities, and providing insights into the making and destruction of cultural landscapes, the book will be useful to architects and architectural historians, as well as scholars dealing with urban and landscape issues not only in Europe, but also in other parts of the globe.

Plutarch on Literature, Graeco-Roman Religion, Jews and Christians Frederick E. Brenk, 2023-05-08

The present book includes sixteen studies by Professor Frederick E. Brenk on Plutarch on Literature, Graeco-Roman Religion, Jews and Christians. Of them, thirteen were published earlier in different venues and three appear here for the first time. Written between 2009 and 2022, these studies not only provide an excellent example of Professor Brenk's incisiveness and deep knowledge of Plutarch; they also provide an excellent overview of Plutarchan studies of the last years on a variety of themes. Indeed, one of the most salient characteristics of Brenk's scholarship is his constant interaction and conversation with the most recent scholarly literature.
