The authors explore various facets of the media and cultural industries—looking beyond social media to news broadcasting and the music industry—and look at the policy and regulations behind this shifting technological advancement. This book will appeal to students and scholars working on media industries, digital media, platform studies, information and technology studies, Korean and East Asian media studies, and the creative and cultural industries.

Digitalization and Firm Performance Milena Ratajczak-Mrozek,Paweł Marszałek,2021-12-02 This book explores how digitalization and digital technologies influence markets, firms, financial institutions and organizations. Drawing on examples from Canada, Poland, France, Albania, Africa and Turkey this book takes a truly international perspective. It explores the technical aspects of digitalization, with chapters examining topics like how digitization creates value in a small company, how digital-driven business drives innovation, how import-exporting firms can increase productivity within the digital economy and how financial systems and institutions evolve due to new technologies. However, the book goes beyond this and, by adopting a holistic view, examines the social impact of digitalization, with the authors discussing how trade unions and employers present Industry 4.0 to employees and the general public. This book will be of interest to anyone studying digital innovation, digital management, digital strategy, Fin Tech, firm management, and Industry 4.0. Transnational Communities in the Smartphone Age Dae Young Kim,2017-12-20 Transnational Communities in the Smartphone Age: The Korean Community in the Nation's Capital examines the durable ties immigrants maintain with the home country and focuses in particular on their transnational cultural activities. In light of changing technologies, especially information and communication technologies (ICTs), which enable a faster, easier, and greater social and cultural engagement with the home country, this book argues that middle-class immigrants, such as Korean immigrants in the Washington-Baltimore region, sustain more regular connections with the homeland through cultural, rather than economic or political, transnational activities. Though not as conspicuous and contentious as other forms of transnational participation, cultural transnational activities may prove to be more lasting and also serve as a backbone for maintaining longer-lasting connections and identities with the home country.

Korean Digital Diaspora Hojeong Lee,2020-12-10 Through a critical examination of the Korean diaspora in transnational contexts as a case study, Korean Digital Diaspora: Transnational Social Movements and Diaspora Identity unmasks the process of how people of the diaspora have built social interactions and communication with others online, how they have orchestrated social movements, and finally, how they have narrated and reshaped their diaspora identities in their everyday lives. Utilizing an ethnographical approach, including in-depth interviews, participant observation, and a field study in New York City and Philadelphia, Hojeong Lee delineates how digital media technology has expanded into a new form of diaspora, digital diaspora, within the Korean diaspora community, and how it has mobilized the social movements of Korean diaspora members. Accordingly, Korean diaspora members have begun to imagine their community as a transnational global diaspora. Korean Digital Diaspora concludes with an analysis of how the changed attitudes of diaspora members have also influenced how they define themselves and how they are reshaping their diaspora identities. This multi-site, three-year study reveals the nexus of media, individuals, and society, highlighting the transnational social movements of diaspora members.

Media Governance Sarah Anne Ganter,Hanan Badr,2022-11-30 The book offers a critical map to navigate the field of media governance. A thread of cosmopolitan critique connects the fourteen chapters to enhance media governance literature beyond the West and regional foci. The first part addresses the epistemological and ontological flaws in the use and adaptation of media governance. The second part opens pathways for critique and provides a thorough understanding of the ambivalences that scholars encounter when addressing media governance as a field of study. The third part highlights shortcomings like geographical narrowness and tensions in the use of media governance concepts. The scholarly contributions show that media governance as a field of study is far from being established: its conceptualizations are in flux and need scholarly self-reflection, and ongoing discussions need to leave behind universalist conceptualizations and methods of analysis. The chapters reflect on hegemony, power, sovereignty, and identity as conceptual center points in media governance research. The book uniquely breaks with self-referential Western academia and is part of ongoing collaborative scholarly efforts towards epistemic transformation through dialogue.

Panduan Lengkap Kakao T. Wahyudi,T.R. Panggabean,Pujiyanto,2017-11-02 Pohon kakao merupakan tumbuhan asli benua Amerika, tepatnya di kaki pegunungan Andes di basin sungai Amazon dan Orinoco, Amerika Selatan. Meski demikian, kemungkinan pohon kakao pernah tersebar luas hingga ke Amerika Tengah. Sebuah kerajinan tangan dari tanah liat bertanggal 1400-1500 SM yang ditemukan di lokasi penggalian situs arkeologi terdapat residu endapan yang memperkuat hal tersebut. Selain itu, daging buah coklat (pulp) yang manis difermentasikan untuk membuat semacam minuman. Biji coklat juga menjadi mata uang ketika itu. Tumbuhan coklat lalu dibawa dan dibudidayakan ke wilayah jajahan bangsa Eropa seperti Asia Tenggara dan Afrika Barat. Biji kakao atau biji coklat adalah biji buah pohon kakao (*Theobroma cacao*) yang telah melalui proses fermentasi dan pengeringan dan siap diolah. Biji kakao merupakan bahan dasar dari pembuatan coklat dan masakan tradisional Mesoamerika seperti tejate. Buah kakao memiliki kulit yang tebal, sekitar 3 cm. Daging buahnya yang disebut pulp tidak dimanfaatkan. Pulp ini mengandung gula dan membantu proses fermentasi biji kakao. Setiap buah kakao mengandung biji sebanyak 30-50 biji. Warna biji sebelum proses fermentasi dan pengeringan adalah putih, dan lalu berubah menjadi keunguan atau merah kecoklatan. Kecuali satu varietas dari Peru yang warna bijinya tetap putih meski telah melalui proses fermentasi dan pengeringan. Pohon kakao dapat dibudidayakan di dalam hutan sehingga menjadikan biji kakao sebagai hasil hutan non-kayu. Entrepreneurship in Korea Martin Hemmert,Jae-Jin Kim,2021-06-28 Entrepreneurship in Korea offers a fresh perspective on entrepreneurship in Korea by combining a historical review of the achievements of Korean entrepreneurs at each stage of economic development with an analysis of the activities of current entrepreneurs who are at the forefront of the new Korean age. It discusses the crucial role of business entrepreneurship in each stage of Korea’s transformation from an underdeveloped East Asian backwater to a global manufacturing and technology powerhouse throughout the last 100 years. Furthermore, it provides an up-to-date analysis of contemporary start-up entrepreneurship in Korea and discusses its unique characteristics, strengths and weaknesses. Authors identify specific features of entrepreneurship in Korea, why and how business entrepreneurs have been so successful and effective, how their entrepreneurial styles and activities have changed over time, which challenges Korean start-up entrepreneurs are currently facing, and how these challenges may be addressed.

Understanding Korean Webtoon Culture Dal Yong Jin,2023-11-20 Webtoons—a form of comic that are typically published digitally in chapter form—are the latest manifestation of the Korean Wave of popular culture that has increasingly caught on across the globe, especially among youth. Originally distributed via the Internet, they are now increasingly distributed through smartphones to ravenous readers in Korea and around the world. The rise of webtoons has fundamentally altered the Korean cultural market due to the growth of transmedia storytelling—the flow of a story from the original text to various other media platforms, such as films, television, and digital games—and the convergence of cultural content and digital technologies. Fans can enjoy this content anytime and anywhere, either purely as webtoons or as webtoon-based big-screen culture. Understanding Korean Webtoon Culture analyzes webtoons through the lens of emerging digital cultures and discusses relevant cultural perspectives by combining two different, yet connected approaches, political economy and cultural studies. The book demonstrates the dynamics between structural forces and textual engagement in global media flows, and it illuminates snack-culture and binge-reading as two new forms of digital culture that webtoon platforms capitalize on to capture people’s shifting media consumption.

Effects of Ecosystem Services Provided by Birds and Bats in Smallholder Cacao Plantations of Central Sulawesi Bea Maas,Teja Tschardt,Aiyen Tjoa,Shahabuddin Saleh,Nur Edy,Alam Anshary,M. Mahfudz,Muhammad Basir,2018 Cacao agroforestry systems are common in Indonesia, but differences in local management affect biodiversity and related ecosystem services. Importantly, birds and bats alike strongly contribute to biological pest control in cacao, thereby promoting yields and sustainable farming. Our findings from many years of ecological field research, in close collaboration with Indonesian cacao farmers, are summarized and discussed in this bilingual book, written in both English and Indonesian. It is designed to communicate scientific information as well as to facilitate transdisciplinary discussions and more biodiversity-friendly management in tropical agroforestry systems. We consider this book as a tool to improve the collaboration of local communities, farmers and scientists, as well as to improve the application of scientific knowledge in agricultural practice - particularly in tropical land use areas. Bea Maas, the first author of this book, is postdoctoral researcher at the University of Vienna (Austria), working in the fields of biology, ecology and conservation. She conducted the research and workshops presented here in close collaboration and with support from the University of Göttingen (Germany) and the University of Tadulako (Indonesia).

Transnational Convergence of East Asian Pop Culture Seok-Kyeong Hong,Dal Yong Jin,2021-03-08 This book observes and analyzes transnational interactions of East Asian pop culture and current cultural practices, comparing them to the production and consumption of Western popular culture and providing a theoretical discussion regarding the specific paradigm of East Asian pop culture. Drawing on innovative theoretical perspectives and grounded empirical research, an international team of authors consider the history of transnational flows within pop culture and then systematically address pop culture,digital technologies, and the media industry. Chapters cover the Hallyu—or Korean Wave—phenomenon, as well as Japanese and Chinese cultural industries. Throughout the book, the authors address the convergence of the once-separated practical, industrial, and business aspects of popular culture under the influence of digital culture. They further coherently synthesize a vast collection of research to examine the specific realities and practices of consumers that exist beyond regional boundaries, shared cultural identities, and historical constructs. This book will be of interest to academic researchers, undergraduates, and graduate students of Asian media, media studies, communication studies, cultural studies, transcultural communication, or sociology.
