Egypt. Maşlahat al-Āthār, Georges Daressy

luxor museum abeer el shahawy,2005 The Luxor Museum houses a fine collection of Egyptian antiquities that is beautifully exhibited. This illustrated volume highlights some of the masterpieces found in ancient Thebes. There are glorious examples of ancient artifacts from tombs and temples in Karnak and Luxor, and the Deir al-Bahari mummy cache. Middle Kingdom statues depict the pharaohs who made Thebes their political capital and Amun the king of the gods. The New Kingdom brings statues and artifacts from the time of the great pharaohs such as Ahmose, Hatshepsut, and Thutmose III. Akhenaten and the revolutionary Amarna art, and the famous boy king Tutankhamun, are present too.

Cairo, Luxor, Aswan Michael Haag,2000 While Egypt has always been a popular tourist destination, the volume of visitors there has grown a great deal in recent years. Most travelers take The Classic Egypt Tour -- the subject of this guide -- from Cairo and the Pyramids at Giza and Saqqara, down the Nile to the temples of Abydos and Dendera, Luxor, Karnak and the Necropolis of Thebes; and, finally, on to the great Aswan Dam. Building on the success of Cadogan's comprehensive guide to the whole country by the same author, this new book contains 20% more information on some of the most important monuments to civilization in the world.

The Facade, Portals, Upper Register Scenes, Columns, Marginalia, and Statuary in the Colonnade Hall ,1998 The second volume of the Epigraphic Survey's series on Luxor Temple is devoted to the in situ reliefs and inscriptions of Tutankhamun's Colonnade Hall that were not documented in the first of the series, The Festival Procession of Opet in the Colonnade Hall (OIP 112). Included in this volume are reconstructions of the Eighteenth Dynasty facade of the hall, the northern and southern doorjamb reliefs, the upper register scenes, the decoration of the columns and their architraves, the dedicatory bandeau texts of the New Kingdom, graffiti from the later periods, and the three colossal statues that still stand in the northern end of the hall. The plates are accompanied by a booklet of translations and commentary on the iconographic and textual additions and revisions that were made by a long succession of Egyptian rulers and reflect the complex history of the monument.

El Templo en el Hombre R. A. Schwaller de Lubicz,2007-09-11 Este libro tiene como objeto el estudio del singular templo de Luxor, uno de los monumentos más hermosos de la antigua Tebas debido a su fascinante arquitectura, y a él Schwaller de Lubicz dedicó su obra más conocida. Efectivamente, El templo en el hombre, libro que aquí presentamos, es la obra cumbre de este hermetista y estudioso alsaciano. Verdadero Fulcanelli de la egiptología, Schwaller de Lubicz cuenta con una trayectoria tan extraña como fascinante dentro del mundo de la investigación de la cultura faraónica. Este libro es el resultado de casi quince años de investigación a pie de campo en el templo de Luxor. Publicado en el año 1949 de forma independiente, en poco tiempo se convirtió en un libro de culto, obligando su difusión a gran escala. El libro de Schwaller de Lubicz llama la atención sobre la lectura simbólica que debemos hacer en los monumentos egipcios. Lejos de ser simples edificios de piedra con una finalidad meramente práctica, el investigador alsaciano señala que los templos son entes vivos, y que como tales cuentan con una serie de estructuras orgánicas. A pesar de su trasfondo hermético y simbólico, no es extraño encontrar las obras de Schwaller de Lubicz citadas en publicaciones de corte más académico, lo que lo ha convertido en un referente obligado en temáticas de simbología e interpretación iconográfica. Como es lógico, al poco de aparecer El templo en el hombre, las críticas llovieron sobre el francés y sus arriesgados razonamientos. Sin embargo, hubo algunos egiptólogos de los denominados ortodoxos que abrazaron con entusiasmo sus ideas. El objetivo de este libro es presentar la prueba irrefutable de que existía una disposición simbólica en la arquitectura del templo de Luxor.
