Bulletproof Web Design Dan Cederholm,2007-08-09 No matter how visually appealing or content-packed a Web site may be, if it's not adaptable to a variety of situations and reaching the widest possible audience, it isn't really succeeding. In *Bulletproof Web Design*, author and Web designer extraordinaire, Dan Cederholm outlines standards-based strategies for building designs that provide flexibility, readability, and user control--key components of every successful site. Each chapter starts out with an example of an unbulletproof site one that employs a traditional HTML-based approach which Dan then deconstructs, pointing out its limitations. He then gives the site a make-over using XHTML and Cascading Style Sheets (CSS), so you can see how to replace bloated code with lean markup and CSS for fast-loading sites that are accessible to all users. Finally, he covers several popular fluid and elastic-width layout techniques and pieces together all of the page components discussed in prior chapters into a single-page template.

More Than Our Pain Beth Hinderliter,Steve Peraza,2021-04-01 Confronted by a crisis in black American leadership, state-sanctioned violence against black communities, and colorblind laws that trap black Americans in a racial caste system, Black Lives Matter activists and the artists inspired by them have devised new forms of political and cultural resistance. *More Than Our Pain* explores how affect and emotion can drive collective political and cultural action in the face of a new nadir in race relations in the United States. This foregrounding of affect and emotion marks a clear break from civil rights-era activists, who were often trained to counter false narratives about protesters as thugs and criminals by presenting themselves as impeccably groomed and disciplined young black Americans. In contrast, the Black Lives Matter movement in the early twenty-first century makes no qualms about rejecting the politics of respectability. Affect and emotion has moved from the margin to the center of this new human rights movement, and by examining righteous rage, black joy, as well as grief and fatigue among other emotions, the contributors celebrate the vitality of black life while documenting those who have harmed it. They also criticize the ways in which journalism has commercialized and sold black affect during coverage of the Black Lives Matter movement and point to strategies and modes-of-being needed to overcome the fatigue surrounding conversations of race and racism in the United States.
