Sermo Iuris: Rechtssprache und Recht in der augusteischen Dichtung Ulrich C.J. Gebhardt, 2009-08-31 This book is concerned with legal language in non-legal Latin literature. Examining the use of legal discourse as a poetical means, it provides fresh vistas on Augustan poetry and explores the potential for the poetic transformation of a technical language. Dieses Buch untersucht den Gebrauch der römischen Rechtssprache in nichtfachsprachlichen Texten. Indem sie die Rechtssprache als poetisches Ausdrucksmittel betrachtet, eröffnet die vorliegende Arbeit einen neuen Zugang zur augusteischen Dichtung und lotet grundsätzliche Möglichkeiten der poetischen Transformation einer Fachsprache aus.

New Testament Textual Criticism: The Application of Thoroughgoing Principles James Keith Elliott, 2010-12-17 A collection of 57 essays by J.K. Littere Baronum Theodore Evergates, 2003-12-15 The cartulary of 1211 is the oldest surviving register produced by the chancery of the counts of Champagne. This first edition of the cartulary contains 121 letters received from the barons and prelates of the county during the rule of Count Thibaut III (1198-1201) and the first decade of the regency of his widow, Countess Blanche (1201-22). They deal primarily with feudal matters—homage, tenure, the construction and rendering of castles—and lordship over property and rural communities. Since only one-third of the original letters survive, the cartulary copies are particularly valuable in capturing the range of written records entering the chancery of a major French principality around 1200. The introduction to the volume traces the evolution of aristocratic letters patent from the 1140s and argues that they were far more important in the twelfth century, both for transactions between laymen and for transactions with religious houses, than historians of medieval diplomacy have allowed. The introduction goes on to discuss the evolution of the chancery in the twelfth century, the creation of a formal chancery archive in the 1190s, and the organization and contents of the cartulary compiled in 1211.

Studies on the Derveni Papyrus, volume II Glenn W. Most, 2022-09-01 Studies on the Derveni Papyrus, volume II brings together two new editions of the first fragmentarily extant columns of the Derveni Papyrus and seven scholarly articles devoted to their interpretation. The Derveni Papyrus is by far the most important textual discovery of the 20th century regarding early Greek philosophy, religion, exegetical theory and practice, linguistic ideas, and a host of other areas and issues. But the editorial and interpretative history of this extraordinary document has been very checkered. While the interpretation of the better

preserved later columns is still highly controversial in many regards, at least the text of those columns has by and large found a scholarly consensus; but the editorial and interpretative situation with the worse preserved first columns is quite different. This volume offers not one but two editions of the first columns, by Richard Janko and by Valeria Piano, given that it is not currently possible to agree upon a single edition; and it explains clearly and in detail the papyrological problems and doubts that lead to these two editions, making it possible for readers (even non-papyrologists) to form their own informed judgment about the most likely readings to be adopted. Furthermore, it contains a number of articles by leading scholars on the Derveni Papyrus, above all offering original solutions to the question of the relation between the earlier and the later columns, but also providing analysis and interpretation of other, related problems.

Houses and Domestic Space in Seventeenth and Eighteenth Century Hospitaller Malta George A. Said-Zammit, 2020-12-29 Houses and Domestic Space in Seventeenth and Eighteenth Century Hospitaller Malta is a study concerned with a wide spectrum of early modern dwellings in Malta, ranging from palazzi and affluent residences to peasant dwellings, troglodyte houses, and hovels. The multifaceted approach adopted in this book allows houses and domestic

networks to be studied not only in terms of architecture and construction materials, but also as places of human habitation where house dwellers act, react and interact in different contexts and circumstances. Dwellings are places that permit different social and economic activities, whilst providing shelter and security to the household members. Through the available sources, the houses of Hospitaller Malta are analysed in terms of their spatial properties and how they generate privacy, interaction and communication, identity, accessibility, security, visibility, movement and encounters, and, equally important, how domestic space relates to gender roles, status, and class. This work, therefore, seeks to reach a deep and nuanced understanding of domestic space and how it relates to the islands' history and the development of their society during the seventeenth and eighteenth centuries.
