**Monika B. Ich bin nicht mehr eure Tochter** Karin Jäckel,2022-10-25 Monika ist ein echtes Wunschkind. Sie soll die gutbürgerliche Familie komplettieren. Doch hinter der heilen Fassade spielt sich Unfassbares ab. Von Anfang an wird Monikas Leben von sexuellen Übergriffen bestimmt. Was der Großvater an dem Kleinkind begeht, setzt sich in jahrelangen Vergewaltigungen durch den Vater und die älteren Brüder fort. Erst nach dem Freitod ihres jüngeren Bruders Georg, der nicht weiter mit ansehen kann, was mit seiner geliebten Schwester geschieht, gelingt es Monika, sich aus dieser Hölle zu befreien.

*The Inklings and Culture* Monika B. Hilder,Sara L. Pearson,Laura N. Van Dyke,2020-11-24 How did five twentieth-century British authors, C. S. Lewis, J. R. R. Tolkien, Charles Williams, Owen Barfield, and Dorothy L. Sayers, along with their mentors George MacDonald and G. K. Chesterton, come to contribute more to the intellect and imagination of millions than many of their literary contemporaries put together? How do their achievements continue to inform and potentially transform us in the twenty-first century? In this first collection of its kind, addressing the entire famous group of seven authors, the twenty-seven chapters in *The Inklings and Culture* explore the legacy of their diverse literary art—inspired by the Christian faith—art that continues to speak hope into a hurting and deeply divided world.

**Architecture, Ritual and Cosmology in China** Xuemei Li,2023-05-31 Drawing on the author's extensive fieldwork in the Dong areas in southwest China, this book presents a detailed picture of the Dong's buildings and techniques, with new insights into the Dong's cosmology and rituals of everyday life meshed with the architecture, and the symbolic meanings. It examines how the buildings and techniques of the Dong are ordered and influenced by the local culture and context. The timber bridges and drum towers are the Dong's most prominent architectural monuments. Usually built elaborately with multiple roofs, these bridges and drum towers were designed and maintained by the local carpenters who also built the village suspended houses, in an oral tradition carried down from father to son or to apprentice. They were funded entirely by the local people, and the bridges tend to be built in places without great pressure of traffic or another bridge already existing close by. Why does such great expense go into the Dong's buildings with elaboration? How were they built? And what do they mean to their users and builders? This book is an anthropological study on the Dong's architecture and technique, and it aims to contribute a discourse on the interdisciplinary research area. It is suitable for graduate and postgraduate readers.

Recent Trends in Environmental Hydraulics Monika B. Kalinowska,Magdalena M. Mrokowska,Paweł M. Rowiński,2020-02-18 This book presents an overview of current research problems and advances in theoretical and applied aspects of environmental hydraulics. The rapid development of this branch of water studies in recent years has contributed to our fundamental understanding of processes in natural aquatic systems and helped provide solutions for civil engineering and water resources management. The book features comprehensively reviewed versions of invited lectures and regular presentations given at the 38th International School of Hydraulics, held May 21–24, 2019, in Łódź, Poland. With papers by leading international experts as well as young researchers from around the globe, it covers recent findings from laboratory and field studies, numerical modeling related to sediment and pollutant transport processes in rivers, fluvial morphodynamics, flow in vegetated channels and hydraulic structures in rivers and estuaries.

Ritual and Belief David Hicks,2010-03-15 *Ritual and Belief: Readings in the Anthropology of Religion* is a collection of 41 readings in religion, magic, and witchcraft. The choice of readings is eclectic: no single anthropological approach or theoretical perspective dominates the text. Theoretical significance, scholarly eminence of the author, and inherent interest provide the principal criteria, and each reading complements its companion chapters, which are pedagogically coherent rather than ad hoc assemblages. Included among the theoretical perspectives are structural-functionalism, structuralism, Malinowskian functionalism, cultural materialism, and cultural evolutionism; also included are the synchronic and diachronic approaches. The book offers a mixture of classic readings and more recent contributions, and the 'world religions' are included along with examples from the religions of traditionally non-literate cultures. As diverse a range of religious traditions as possible has been embraced, from various ethnic groups, traditions, and places.

Free Surface Flows and Transport Processes Monika B. Kalinowska,Magdalena Maria Mrokowska,Paweł Mariusz Rowiński,2018-01-28 This book contains the written, thoroughly reviewed versions of both invited lectures and regular presentations given at the 36th International School of Hydraulics, held at Jachranka in Poland on May 23–26, 2017. The contributions cover recent findings in the areas of mathematical modeling as well as experimental investigations related to free surface flows and pollution, sediment and heat transport processes in rivers. Better understanding of environmental flows requires cognition of physical, chemical and biological attributes of flowing water and therefore hydraulic research becomes strongly interdisciplinary field of science. The authors also realize that fundamental knowledge of environmental hydraulics problems is absolutely essential for planning and design of systems to manage water resources. Nowadays the readers face a rapid development of hydraulic research due to a boom in the computer sciences and measurement techniques and

this is what this book is about. Eminent world leading experts in this field and young researchers from sixteen countries from all over the world contributed to this book.

**The Rites of Passage** Arnold van Gennep,2019-05-24 This classic work of anthropology explores the transitional stages of an individual's life and the societal rituals involved. Arnold van Gennep's masterwork, *The Rites of Passage*, has been a staple of anthropological education for more than a century. First published in French in 1909, and translated into English by the University of Chicago Press in 1960, this landmark book explores how the life of an individual in any society can be understood as a succession of transitions: birth, puberty, marriage, parenthood, old age, and, finally, death. Van Gennep's great insight was discerning a common structure in each of these seemingly different transitions, involving rituals of separation, liminality, and incorporation. With compelling precision, he set out the terms that would both define twentieth-century ritual theory and become a part of our everyday lexicon. This new edition of his work demonstrates how we can still make use of its enduring critical tools to understand our own social, religious, and political worlds, and even our personal and professional lives. In his new introduction, Pulitzer Prize-winning historian and anthropologist David I. Kertzer sheds new light on van Gennep, on the battles he fought, and on the huge impact the book has had since publication of the first English edition. With a new introduction by Pulitzer Prize-winner David I. Kertzer

*Women and C.S. Lewis* Carolyn Curtis, Mary Pomroy Key, 2016-06-17 Sexism in Narnia? Or Screwtape? Or amongst the Inklings? Many critics have labelled C.S. Lewis a sexist, even a misogynist. Did the life and writing of the hugely popular author and professor betray attitudes that today are unacceptable, even deplorable? The younger Lewis was criticized for a mysterious living arrangement with a woman, but his later marriage to an American poet, Joy Davidman, became a celebrated love story. As a writer he, along with J.R.R. Tolkien, formed a legendary literary group, the Inklings - but without women. In this collection of short essays, opinion pieces, and interviews, academics and writers come together to investigate these accusations. They include Alister McGrath, Randy Alcorn, Monika Hilder, Don W. King, Kathy Keller, Colin Duriez, Crystal Hurd, Jeanette Sears, David C. Downing, Malcolm Guite, and Holly Ordway. The resulting work, *Women and C.S. Lewis*, provides broad and satisfying answers.

**Chicana Traditions** Norma E. Cantú, Olga Nájera-Ramírez, 2002 The first anthology to focus specifically on the topic of Chicana expressive culture, *Chicana Traditions* features the work of native scholars: Chicanas engaged in careers as professors and students, performing artists and folklorists, archivists and museum coordinators, and community activists. Blending narratives of personal experience with more formal, scholarly discussions, *Chicana Traditions* tells the insider story of a professional woman mariachi performer and traces the creation and evolution of the escaramuza charra (all-female precision riding team) within the male-dominated charreada, or Mexican rodeo. Other essays cover the ranchera (country or rural) music of the transnational performer Lydia Mendoza, the complex crossover of Selena's Tejano music, and the bottle cap and jar lid art of Goldie Garcia. Framed by the Chicana feminist concept of the borderlands, a formative space where cultures and identities converge, *Chicana Traditions* offers a lively commentary on how women continue to invent, reshape, and transcend their traditional culture.

*Performance: pt. 1. Foundations and definitions* Philip Auslander, 2003 This collection reflects not only the multidisciplinary nature of current thinking about performance, but also the complex and contested nature of the concept itself.
