Dog Training Guide Monty Witt, 2014-04-28 Dog training tips and advice that will help you turn a difficult dog into an obedient pet. Most dogs are good at heart and capable of learning exactly how to behave. This app helps you learn the teaching method that works for them and helps you be consistent in how you approach their issues. Obedience training is one of the most important aspects of raising a dog. In fact, a well trained dog is much happier because a trained dog requires fewer restrictions and gets more freedom. For example, many stores and businesses that normally won't allow pets on their premises will make an exception for a puppy or a dog that will heel nicely by his owner's side, or will do a sit-stay or down-stay without hesitation. When company arrives in your home, there's no need to send a well-behaved family member to another room for fear that he will be a nuisance. A well-mannered, obedience-trained dog is both appreciated and welcome; he receives more attention and interaction from family members, visitors, and people passing by.

Cat Puzzles Monty Witt, 2009-11-30 Cat Puzzles is a crossword puzzle book about cats. Cat Puzzles is full of crossword puzzles on the subject of cats. These are crossword puzzles about cat breeds and the terms used when breeders, veterinarians, and serious cat people use when talking about cats. The crossword puzzles cover all of the current major cat breeds. I also tried to add any term that you might use when talking about cats. You will find the puzzles in the front of the book. The answers to the puzzles are in the back of the book.

Magic and Misdirection Monty Witt, 1914-06-15 Misdirection in it's simplest sense is diverting an audience members attention away from the secret action. Any magician can improve their magic and overall effectiveness by learning the principles of misdirection. What you will learn ... why magicians use misdirection. ... when to use misdirection. ... the principles of misdirection. ... the

different types of misdirection used by magicians. ... how to use misdirection with different types of magic. ... the correct timing for misdirection. ... why misdirection works. Misdirection is a form of deception in which the attention of an audience is focused on one thing in order to distract its attention from another. Managing the audience's attention is the aim of all magicians. Misdirection is used by magicians to manipulate the audience's perceptions. This leads them to draw false conclusions. Misdirection is about making sure that your spectators do not see things you do not want them to see.
