Mother Nature's Daughters Paula vW. Dáil,2016-10-12 Nearly half of all farmland in the U.S. is owned by women--295,000 of them. In an enterprise traditionally dominated by men, they are taking a lead role in overhauling a complex, often dysfunctional food system. This book features eight stories of

women farmers who persevere despite treacherous weather and erratic commodities markets. Smart, independent, hard-working and politically astute, they explain in their own words how and why they chose, and continue to choose, farming.

Mother, Nature Jedidiah Jenkins,2023-11-07 From New York Times bestselling author of *To Shake the Sleeping Self*. “Exquisitely written and completely compelling . . . As Jedidiah Jenkins traces a 5,000-mile route with his wildly entertaining mother, Barb, he begins to untangle the live wires of a parent-child bond and to wrestle with a love that hurts.”—Suleika Jaouad, author of *Between Two Kingdoms* When his mother, Barbara, turns seventy, Jedidiah Jenkins is reminded of a sobering truth: Our parents won’t live forever. For years, he and Barbara have talked about taking a trip together, just the two of them. They disagree about politics, about God, about the project of society—disagreements

that hurt. But they love thrift stores, they love eating at diners, they love true crime, and they love each other. Jedidiah wants to step into Barbara's world and get to know her in a way that occasional visits haven't allowed. They land on an idea: to retrace the thousands of miles Barbara trekked with Jedidiah's father, travel writer Peter Jenkins, as part of the Walk Across America book trilogy that became a sensation in the 1970s. Beginning in New Orleans, they set off for the Oregon coast, listening to podcasts about outlaws and cult leaders—the only media they can agree on—while reliving the journey that changed Barbara's life. Jedidiah discovers who Barbara was as a thirty-year-old writer walking across America and who she is now, as a parent who loves her son yet holds on to a version of faith that sees his sexuality as a sin. Along the way, he peels back the layers of questions millions are asking today: How do we stay in relationship when it hurts? When do boundaries turn into separation? When do we stand up for ourselves, and when do we let it go? Tender, smart, and profound, *Mother, Nature* is a story of a remarkable mother-son bond and a moving meditation on the complexities of love.

Best iPad Apps Peter Meyers, 2010-12-08 What really wows iPad fans is when their touchscreen does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. *Best iPad Apps* guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find apps as magical as the iPad itself. Flip through the book for app suggestions, or head directly to one of several categories we've loaded up with best of selections to help you: Get work done Manipulate photos Make movies Create comics Browse the Web better Take notes Outline ideas Track your health Explore the world No matter how you use your iPad, *Best iPad Apps* will help you find the real gems among the rubble -- so you make the most of your glossy gadget.
