Kompakt-Wörterbuch KFZ-Technik Ingo Stüben,2022-10-17 Dieses Wörterbuch dient zur Erleichterung der Arbeit für den Personenkreis, der mit englischen bzw. deutschen Fachausdrücken aus dem Bereich der KFZ-Technik konfrontiert wird. Falls nötig, werden zu den einzelnen Begriffen Hintergrundinformationen, Beispiele sowie umgangssprachliche Hinweise geliefert. Als zusätzliche Informationsebene sind nach Gruppen aufgeteilte schematische Darstellungen integriert, womit die Terminologie typischer Systeme erfasst und visualisiert ist. Bei dem vorliegenden Nachschlagewerk mit seinen circa 40.000 Stichworteintragungen handelt es sich nicht um ein Wörterbuch im üblichen Sinne, sondern um ein weit darüberhinausgehendes lexikonähnliches Fachwörterbuch. The purpose of this dictionary is to facilitate the work of persons who are confronted with English or German technical terms from the field of automotive engineering. In cases where it is necessary, background information, examples and colloquial references are provided for the individual terms. Additionally, this book includes information on schematic representations and divides them into groups, which means that it covers and visualizes terminology of typical systems. This reference work, with its approximately 40,000 keyword entries, is not a dictionary in the usual sense, but rather a technical dictionary that goes far beyond the scope of a lexicon.

Legal Traditions of the World H. Patrick Glenn,2014 Legal Traditions of the World places national laws in the broader context of major legal traditions, those of chthonic (or indigenous) law, talmudic law, civil law, Islamic law, common law, Hindu law and Confucian law. Each tradition is examined in terms of its institutions and substantive law, its founding concepts and methods, its attitude towards the concept of change and its teaching on relations with other traditions and peoples. The concept of legal tradition is explained as non-conflict in character and compatible with new and inclusive forms of logic.

The Unity of Linguistic Meaning John Collins,2011-09-29 John Collins presents an analysis of the problem of the unity of the proposition - how propositions can be both single things and complexes at the same time. He surveys previous investigations of the problem and offers his own solution, which is defended from both philosophical and linguistic perspectives.

Kinship and the Social Order. Meyer Fortes,2013-11-05 Originally published in the UK in 1970. The central argument of this book is that the structuralist theory and method developed by British and American anthropologists in the study of kinship and social organization are the direct descendants of the researches of Lewis Henry Morgan. Re-examining Morgan's work, the book demonstrates how a tradition of mis-interpretation has disguised the true import of Morgan's discoveries and ideas for Rivers and Radcliffe-Brown and the generation of anthropologists inspired by them.

Early Modernism Christopher Butler,1994 Early Modernism is a uniquely integrated introduction to the great avant-garde movements in European literature, music, and painting at the beginning of this century, from the advent of Fauvism to the development of Dada. In contrast to the overly literary focus of previous studies of modernism, this book highlights the interaction between the arts in this period. It traces the fundamental and interlinked re-examination of the languages of the arts brought about by Matisse, Picasso, Schoenberg, Eliot, Apollinaire, Marinetti, Ben, and many others, which led to radically new techniques, such as atonality, cubism, and collage. These changes are set in the context both of the art that preceded them and of a new and profound shift in ideas. Theories of the unconscious, the association of ideas, primitivism, and reliance upon an expressionist intuition led to a reshaped conception of personal identity, and Butler examines the representation of the modernist self in the work of figures including Mann, Joyce, Conrad, and Stravinsky. Accessible and wide-ranging, the book is lavishly illustrated with over sixty illustrations, many in color. It provides an elegant and incisive guide to a momentous period in the history of European art.
