Rise Up Russ Stoddard, 2017-09-19 Rise Up is essential reading for entrepreneurs who want to start their own purpose-driven businesses, as well as senior business executives who aspire to lead their organizations to become more socially conscious. - Foreword Reviews A new breed of socially conscious companies is changing how consumers shop, where employees work, and the way in which the world does business. Rise Up: How to Build a Socially Conscious Business sets the stage for this optimistic business trend where companies create financial profit for stakeholders through products, services, and business models that create social impact and public benefit. With more than 25 years of experience running a Certified B Corporation (earned by meeting rigorous standards of social and environmental performance, accountability, and transparency) that has always had social responsibility at its core, Russ Stoddard offers insights and guidance on how to create a socially conscious business, as well as encouraging words for social entrepreneurs of every generation.

**Why Don't the Poor Rise Up?** Ajamu Nangwaya, Michael Truscello, 2017-07-17 Each of these essays is a sharpened weapon for the battles looming large on the horizon. -George Ciccariello-Maher, author of Building the Commune Combining the most creative thought from the global North and South, Why Don't the Poor Rise Up? promises to be an indispensable resource for understanding why the new revolutionary movement of the 21st century will emerge from the ranks of the most marginalized by capitalism and colonialism. -Ajamu Baraka, editor of Black Agenda Report Even mainstream media like the New York Times and The Economist have recently posed the question: Why don't the poor rise up?, uneasily amazed that

capitalism hasn't met with greater resistance. In the context of unparalleled global wealth disparity, ecological catastrophe, and myriad forms of structural oppression, this vibrant collection offers a reassessment of contemporary obstacles to mass mobilization, as well as examples from around the world of poor people overcoming those obstacles in inspiring and instructive new ways. With contributions from Idle No More cofounder Alex Wilson, noted Italian theorist Franco Bifo Berardi, and nineteen other scholars and activists from around the world, *Why Don't the Poor Rise Up?* presents a truly global range of perspectives that explore the question of revolution, its objective and subjective prerequisites, and its increasing likelihood in our time. Ajamu Nangwaya, Ph.D., is an educator at Seneca College with over twenty-five years of experience in community organizing and advocacy. Michael Truscello, Ph.D., is an educator at Mount Royal University and author of the forthcoming book- *The Infrastructure Society*.

### **Videogames in the Indian Subcontinent Souvik**

Mukherjee, 2022-09-30 *Videogames in the Indian Subcontinent: Development, Culture(s) and Representations* explores the gaming culture of one of the most culturally diverse and populous regions of the world-the Indian subcontinent. Building on the author's earlier work on videogame culture in India, this book addresses issues of how discussions of equality and diversity sit within videogame studies, particularly in connection with the subcontinent, thereby presenting pioneering research on the videogame cultures of the region. Drawing on a series of player and developer interviews and surveys conducted over the last five years, including some recent ones, this book provides a sense of how games have become a part of the culture of the region despite its huge diversity and plurality and opens up

avenues for further study through vignettes and snapshots of the diverse gaming culture. It addresses the rapid rise of videogames as an entertainment medium in South Asia and, as such, also tries to better understand the recent controversies connected to gaming in the region. In the process, it aims to make a larger connection between the development of videogames and player culture, in the subcontinent and globally, thus opening up channels for collaboration between the industry and academic research, local and global.

*To the Digital Age* Ross Knox Bassett, 2007-02-22 The metal-oxide-semiconductor (MOS) transistor is the fundamental element of digital electronics. The tens of millions of transistors in a typical home -- in personal computers, automobiles, appliances, and toys -- are almost all derive from MOS transistors. *To the Digital Age* examines for the first time the history of this remarkable device, which overthrew the previously dominant bipolar transistor and made digital electronics ubiquitous. Combining technological with corporate history, *To the Digital Age* examines the breakthroughs of individual innovators as well as the research and development power (and problems) of large companies such as IBM, Intel, and Fairchild. Bassett discusses how the MOS transistor was invented but spurned at Bell Labs, and then how, in the early 1960s, spurred on by the possibilities of integrated circuits, RCA, Fairchild, and IBM all launched substantial MOS R & D programs. The development of the MOS transistor involved an industry-wide effort, and Bassett emphasizes how communication among researchers from different firms played a critical role in advancing the new technology. Bassett sheds substantial new light on the development of the integrated circuit, Moore's Law, the success of Silicon Valley start-ups as compared to vertically integrated East Coast firms, the development of the microprocessor, and IBM's multi-

billion-dollar losses in the early 1990s. To the Digital Age offers a captivating account of the intricate R & D process behind a technological device that transformed modern society.

**How to Sleep Like a Baby, Wake Up Refreshed, and Get More Out of Life** Dianne Hales, 2011-03-30 EVERY DAY STARTS WITH A GOOD NIGHT'S SLEEP Did you just suppress a yawn? Are you one of the walking weary—the 100 million Americans who suffer from occasional or chronic sleep problems? If so, you know how serious the problem can be: troubled sleepers can lead troubled lives. On an average, we spend one third of our lives sleeping—and how we sleep can make the difference between feeling tired all of the time and facing each day with a fresh, energetic attitude. This practical guide to healthy sleep by sleep expert Dianne Hales can help you get the rest you need to get the most out of life. It covers the latest discoveries of “sleep scientists”—whose probing of the mysteries of sleep has led to breakthroughs in treating sleep problems—and includes: • 101 mental maneuvers for putting yourself to sleep • New treatments for age-old complaints like snoring and sleepwalking • Effective methods for overcoming sleep rhythm disorders caused by jet lag or shift changes • New insights into how dreams can help you solve daytime problems • Simple self-tests to determine if you need professional help—and where to turn if you do Your sleep problem is not insurmountable. You, too, can sleep like a baby and wake up ready for a healthy, active life.

**Rising Up and Rising Down** William T. Vollmann, 2003

Asian Scientists on the Move Anju Mary Paul, 2021-12-09 The growing scientific research output from Asia has been making headlines since the start of the twenty-first century. But behind this science story, there is a migration story. The elite scientists who are pursuing cutting-edge research in Asia are rarely 'homegrown' talent but were typically born in Asia, trained in the West, and then returned to work in Asia. *Asian Scientists on the Move* explores why more and more Asian scientists are choosing to return to Asia, and what happens after their return, when these scientists set up labs in Asia and start training the next generation of Asian scientists. Drawing on evocative firsthand accounts from 119 Western-trained Asian scientists about their migration decisions and experiences, and in-depth analysis of the scientific field in four country case studies - China, India, Singapore and Taiwan - the book reveals the growing complexity of the Asian scientist migration system.

**Get Up, Stand Up** Bruce E. Levine, 2011 The situation, however, is not truly hopeless. *Get Up, Stand UP* describes how we can recover dignity, energy, and unity in order to wrest power away from the corporatocracy. In other countries and during other periods of American history people have successfully resisted domination. *Get Up, Stand Up* details those, strategies and tactics that oppressed peoples have employed to gain power and put that power back in the hands of

We the People.

*Beyond Measure: The Hidden History of Measurement from Cubits to Quantum Constants* James Vincent, 2022-11-01 A vibrant account of how measurement has invisibly shaped our world, from ancient civilizations to the modern day. From the cubit to the kilogram, the humble inch to the speed of light, measurement is a powerful tool that humans invented to make sense of the world. In this revelatory work of science and social history, James Vincent dives into its hidden world, taking readers from ancient Egypt, where measuring the annual depth of the Nile was an essential task, to the intellectual origins of the metric system in the French Revolution, and from the surprisingly animated rivalry between metric and imperial, to our current age of the “quantified self.” At every turn, Vincent is keenly attuned to the political consequences of measurement, exploring how it has also been used as a tool for oppression and control. *Beyond Measure* reveals how measurement is not only deeply entwined with our experience of the world, but also how its history encompasses and shapes the human quest for knowledge.

**Rise Up!** Jo Rippon, 2020 *RISE UP!* encourages young people to engage in peaceful protest and stand up for freedom. *Lizard Tales* Bayard H. Brattstrom, 2018-01-09 “*Lizard Tales, People and Events in the Life of a Naturalist*” consists of stories that I told in my ecology, evolution, ornithology, herpetology, natural

history, and general biology classes or around campfires, and includes many that have never been told to anyone until now. The book is autobiographical and geographic: Chicago, Hollywood, San Diego, UCLA, Cal. Tech., New York, Arizona and also Australia, Mexico, and Central America. The stories are about animals, fieldwork, people, and weird or exciting events. Because I have met and interacted with many people, there are personal stories about Debbie Reynolds, Natalie Wood, John Steinbeck, Margaret Meade, Cellist Gregory Piatagorsky, Charles Richter (Earthquake Scale), U.S. Grant IV, The Emperor of Japan, and artist Charles Russell! Some of the fun stories include: Playing badminton with the world's champion, Cobras getting loose at UCLA, Nobel Laureates in my class, How I invented the stent, Origin of the first elephant race in human history, Why salamanders helped Custer lose the Battle of Little Big Horn, The girl that peed with rattlesnakes, Sliding off the side of a whale, Drinking beer with the Emperor of Japan, Can lizards predict earthquakes, Three gringos and a dead horse (Costa Rica), and Attempted murder using a rattlesnake.

Rise Up and Walk! Rachel Wilfong, 1999 Miracles still happen and Rachel Wilfong is proof! After 15 years in a wheelchair, she was miraculously healed of Muscular Dystrophy. A message of hope, inspiration and God's power.

A Spiritual Renegade's Guide to the Good Life Lama Marut, 2012-06-05 For Buddhists and non-Buddhists alike, a guide of insightful lessons, meditations, and exercises designed for happiness and the good life. Incorporates Microsoft tags within each chapter to give the reader bonus video material, as well as action plans designed for unpackaged happiness.

**Rise of the Resistance** Niranjana K, In a world on edge, where

secrets lurk in the shadows and allegiances are tested, Nolan finds himself thrust into the heart of a dangerous game. As the State tightens its grip and the Resistance reels from devastating blows, casualties rise, and Nolan becomes an unwilling spy. But even as he navigates treacherous waters, a sinister revelation shakes the very foundation of his existence. As the fire of rebellion burns hotter than ever, Alexander is pulled deeper into its embrace. With whispers of a leak within their midst, suspicion falls on Nolan, threatening to tear their makeshift family apart. And when an unexpected threat looms over the one person he holds dearest, Alexander is left with no choice but to confront the cold truth: the time for secrets is past, and sacrifices must be made. With the Resistance teetering on the edge of collapse, Nolan must embark on a perilous journey of redemption. But as he laments his past mistakes and seeks a foothold for his newfound purpose, Alexander faces a dangerous dilemma—how far can he go without exposing his true allegiances and risking everything he holds dear? As they grapple with the weight of their choices, the world around them spins into chaos. Time is slipping away, and the clock is ticking relentlessly. With each passing moment, the line between friend and foe blurs, and survival becomes an increasingly elusive goal. In this gripping second installment of *The Elite and the Rogue Series*, *Rise of the Resistance* propels you into a pulse-pounding narrative of suspense, packed with morally gray characters, found families, and an AI with a biting wit. Set against a backdrop reminiscent of George Orwell's timeless classic, *1984*, and evoking the spirit of beloved series like *Firefly* and *Serenity*, this thrilling science fiction adventure will leave you breathless. Prepare to be captivated by a diverse cast of characters and enthralled by a storyline brimming with the tension of *V for Vendetta*. Don't miss your chance to join the

revolution. The time has come to choose a side.

### **The Gates Foundation's Rise to Power** Adam Moe

Fejerskov,2018-05-11 The Bill and Melinda Gates Foundation has established itself as one of the most powerful private forces in global politics, shaping the trajectories of international policy-making. Driven by fierce confidence and immense expectations about its ability to change the world through its normative and material power, the foundation advances an agenda of social and economic change through technological innovation. And it does so while forming part of a movement that refocuses efforts towards private influence on, and delivery of, societal progress. The Gates Foundation's Rise to Power is an urgent exploration of one of the world's most influential but also notoriously sealed organizations. As the first book to take us inside the walls of the foundation, it tells a story of dramatic organizational change, of diverging interests and influences, and of choices with consequences beyond the expected. Based on extensive fieldwork inside and around the foundation, the book explores how the foundation has established itself as a major political power, how it exercises this power, but also how it has been deeply shaped by the strong norms, ideas, organizations, and expectations from the field of global development. The book will be of interest to scholars and students of global development, international relations, philanthropy and organizational theory.

Rise Up Women! Diane Atkinson, 2018-02-08 Marking the centenary of female suffrage, this definitive history charts women's fight for the vote through the lives of those who took part, in a timely celebration of an extraordinary struggle An Observer Pick of 2018 A Telegraph Book of 2018 A New Statesman Book of 2018 Between the death of Queen Victoria and the outbreak of the First World War, while the patriarchs of the Liberal and Tory parties vied for supremacy in parliament, the campaign for women's suffrage was fought with great flair and imagination in the public arena. Led by Emmeline Pankhurst and her daughters Christabel and Sylvia, the suffragettes and their actions would come to define protest movements for generations to come. From their marches on Parliament and 10 Downing Street, to the selling of their paper, Votes for Women, through to the more militant activities of the Women's Social and Political Union, whose slogan 'Deeds Not Words!' resided over bombed pillar-boxes, acts of arson and the slashing of great works of art, the women who participated in the movement endured police brutality, assault, imprisonment and force-feeding, all in the relentless pursuit of one goal: the right to vote. A hundred years on, Diane Atkinson celebrates the lives of the women who answered the call to 'Rise Up'; a richly diverse group that spanned the divides of class and country, women of all ages who were determined to fight for what had been so long denied. Actresses to mill-workers, teachers to doctors, seamstresses to scientists, clerks, boot-makers and sweated workers, Irish, Welsh, Scottish and English; a wealth of women's lives are

brought together for the first time, in this meticulously researched, vividly rendered and truly defining biography of a movement.

*Crime Lab Report* John M. Collins, 2019-09-17 *Crime Lab Report* compiles the most relevant and popular articles that appeared in this ongoing periodical between 2007 and 2017. Articles have been categorized by theme to serve as chapters, with an introduction at the beginning of each chapter and a description of the events that inspired each article.
