Concentration Camps on the Home Front John

Howard, 2009-05-15 Without trial and without due process, the United States government locked up nearly all of those citizens and longtime residents who were of Japanese descent during World War II. Ten concentration camps were set up across the country to confine over 120,000 inmates. Almost 20,000 of them were shipped to the only two camps in the segregated South—Jerome and Rohwer in Arkansas—locations that put them right in the heart of a much older, long-festering system of racist oppression. The first history of these Arkansas camps, *Concentration Camps on the Home Front* is an eye-opening account of the inmates' experiences and a searing examination of American imperialism and racist hysteria. While the basic facts of Japanese-American incarceration are well known, John Howard's extensive research gives voice to those whose stories have been forgotten or ignored. He highlights the roles of women, first-generation immigrants, and those who forcefully resisted their incarceration by speaking out against dangerous working conditions and white racism. In addition to this overlooked history of dissent, Howard also exposes the government's aggressive campaign to Americanize the inmates

and even convert them to Christianity. After the war ended, this movement culminated in the dispersal of the prisoners across the nation in a calculated effort to break up ethnic enclaves. Howard's re-creation of life in the camps is powerful, provocative, and disturbing. *Concentration Camps on the Home Front* rewrites a notorious chapter in American history—a shameful story that nonetheless speaks to the strength of human resilience in the face of even the most grievous injustices.

Far East, Down South Raymond A. Mohl,John E. Van Sant,Chizuru Saeki,2016-10-25 *Far East, Down South: Asians in the American South* offers a collection of ten insightful essays that illuminate the little-known history and increasing presence of Asian immigrants in the American southeast. In sharp contrast to the “melting pot” reputation of the United States, the American South—with its history of slavery, Jim Crow, and the civil rights movement—has been perceived in stark and simplistic demographic terms. In *Far East, Down South*, editors Raymond A. Mohl, John E. Van Sant, and Chizuru Saeki provide a collection of essential

essays that restores and explores an overlooked part of the South's story—that of Asian immigration to the region. These essays form a comprehensive overview of key episodes and issues in the history of Asian immigrants to the South. During Reconstruction, southern entrepreneurs experimented with the replacement of slave labor with Chinese workers. As in the West, Chinese laborers played a role in the development of railroads. Japanese farmers also played a more widespread role than is usually believed. Filipino sailors recruited by the US Navy in the early decades of the twentieth century often settled with their families in the vicinity of naval ports such as Corpus Christi, Biloxi, and Pensacola. Internment camps brought Japanese Americans to Arkansas. Marriages between American servicemen and Japanese, Korean, Filipina, Vietnamese, and nationals in other theaters of war created many thousands of blended families in the South. In recent decades, the South is the destination of internal immigration as Asian Americans spread out from immigrant enclaves in West Coast and Northeast urban areas. Taken together, the book's essays document numerous fascinating themes: the historic presence of Asians in the South dating back to the mid-nineteenth century; the sources of numerous waves of contemporary Asian

immigration to the South; and the steady spread of Asians out from the coastal port cities. *Far East, Down South* adds a vital new dimension to popular understanding of southern history.

Green Frog Gina Chung, 2024-03-12 From the author of *Sea Change* comes a short story collection that explores Korean American womanhood, bodies, animals, and transformation as a means of survival. The stories hit, each one, and land with such seeming perfection. Chung's book sits next to my all-time favorite story collections by masters of the craft: Karen Russell, Nana Kwame Adjei-Brenyah, George Saunders, and Ted Chiang.—Morgan Talty, award-winning author of *Night of the Living Rez* Equal parts fantastical—a pair of talking dolls help twins escape a stifling home, a heart boils on the stove as part of an elaborate cure for melancholy, a fox demon contemplates avenging her sister's death—and true to life—a mother and daughter try to heal their rift when the daughter falls unexpectedly pregnant, a woman reexamines her father's legacy after his death—the stories in this collection are hopeful and heartbreaking, full of danger and full of joy. Chung is a master at capturing emotion, and her

characters—human and otherwise—will claw their way into your heart and make themselves at home.
