The Interlopers, sinister invaders from another dimension, live among us. She's determined to expose these beings and their horrific plans. But to the rest of the world, Denny and her team are just another group of crackpots and raving lunatics. When reclusive media mogul Sir Charles Lanier offers her a job, Denny and her partner Frankie leap at the chance to prove their theories. But they soon discover they are trapped in a deadly conspiracy, with origins far beyond this world. The interlopers have a new queen, a powerful hybrid named Cassandra. And Cassandra is determined to silence the two reporters once and for all. On Lanier's private island off the coast of Wales, Denny and her partner are subjected to a horrifying ordeal. Denny must battle for control over her mind and body after she is infected by an alien symbiont. She and Frankie soon find themselves on the run, hunted across the island by Cassandra's underlings. The Scary Truth Denny Magic,2019-10-25 What really happened in Roswell, New Mexico in 1947? Was it one UFO or three UFO's? What about survivors? Was the whole incident a fairy tale, a myth, a lie? Did we actually have a live Alien; that was moved to Groom Lake Military Base? Before the Roswell Crash, I had absolutely no interest in UFOs. Then I met Veada, a reptilian Alien. She was uncooperative and somewhat hostile in the beginning, as I attempted to probe her mind for useful information for my government. But my chief engineer Bob Lazar was anxious to find out what made her flying saucer tick. And he was beside himself, when she reluctantly decided to help us 'reverse engineer' her craft. Once she started to assist us, everything changed.This was the most important thing to have ever happened in my entire military career, and I was prevented from telling the world what I would find out.

Video Night Adam Cesare,2017-01-24 Who better to repel a body-snatching alien invasion than a group of teenage horror nerds? Billy and Tom are best friends, but each knows that at the end of the school year they'll be moving in different directions. But why not go out with a bang and throw one last video night? They can invite some girls over, order a pizza, then maybe try and fight the alien infection that's taken hold over their suburban town. It's The Breakfast Club meets The Night of the Creeps in this slime-drenched '80s horror romp. Hit that first chapter. It'll hook you, and the next time you look up, you'll have swallowed the book. It'll be nesting inside you like a seed, like an egg, like an invasion. -Stephen Graham Jones, author of Mongrels The momentum keeps building. The

stakes keep escalating. The monsters just keep getting worse and worse, the catastrophic mayhem more juicy and hopeless. Best of all, the writing moves like a greased torpedo, compulsively readable as it rockets through your brain. -Fangoria If you put together the gore, action, monsters, and sense of excitement that made '80s horror movies so great, you'll only have about half of what makes Video Night a must-read tome for horror fans. - Horrortalk
