In the Middle of the Journey Robert Shanks, 2011-06-14

In from the Middle-West, Harold Crist Gardner, known as Harry, is a good and talented man who has it all in New York City. Glamorous, fast-track Manhattan; financial independence; success in creative and challenging work; a beautiful, funny, sensuous working wife; two , soon-to-be three children (in private school); a trophy apartment on Central Park West; a house in Easthampton and bright, brittle, witty and ambitious friends. But Harry has come to a dark wood in himself. He loses his way. He is falling apart. In psychological panic, he seeks himself in alcohol and other women, lots of other women. In scenes so vivid and visceral, a reader is sure to feel intoxicated too and ready to not just break, but to shatter the Seventh Commandment. In this modern day Odyssey, a Dublin night in the city that never sleeps, Harry struggles against his furies in a riveting, sharply-funny, murderous (literally) combat. His self-inflicted, nearly-fatal actions endanger his now-disintegrating beautiful world. His soul, in spiritual pain, weighs in the balance and it writhes to find a way home. Pages turn swiftly, the tension increases, as Harry's ambivalent journey is propelled toward its destination. Richard Houdek, Critic and Arts Editor, Berkshire HomeStyle Magazine

Non-Ferrous Metal Ores Julius Rubinstein, 2002-08-15

This volume presents information on mineral resources of non-ferrous metals, with a particular emphasis on practices in the former USSR. The author reviews the geographical distribution, geology, mining and ore processing plants of the former Soviet Union. Non-ferrous metal ores are classified in the text, and mineral processing technologies are described. Those technologies include gravitation, flotation, magnetic separation, leaching and other types.

Non-Ferrous Metal Ores reviews the developments in Russia's mineral processing technology. A range of scientists and industry professionals can benefit from this text, including geologists, mineralogists, mining engineers and specialists in mineral processing and ore treatment.

Dust of Dreams Steven Erikson, 2010-01-19 In war everyone loses. This brutal truth can be seen in the eyes of every soldier in every world... In Letherii, the exiled Malazan army commanded by Adjunct Tavore begins its march into the eastern Wastelands, to fight for an unknown cause against an enemy it has never seen. And in these same Wastelands, others gather to confront their destinies. The warlike Barghast, thwarted in their vengeance against the Tiste Edur, seek new enemies beyond the border and Onos Toolan, once immortal T'lan Imass now mortal commander of the White Face clan, faces insurrection. To the south, the Perish Grey Helms parlay passage through the treacherous kingdom of Bolkando. Their intention is to rendezvous with the Bonehunters but their vow of allegiance to the Malazans will be sorely tested. And ancient enclaves of an Elder Race are in search of salvation—not among their own kind, but among humans—as an old enemy draws ever closer to the last surviving bastion of the K'Chain Che'Malle. So this last great army of the Malazan Empire is resolved to make one final defiant, heroic stand in the name of redemption. But can deeds be heroic when there is no one to witness them? And can that which is not witnessed forever change the world? Destinies are rarely simple, truths never clear but one certainty is that time is on no one's side. For the Deck of Dragons has been read, unleashing a dread power that none can comprehend... In a faraway land and beneath indifferent skies, the final chapter of 'The Malazan Book of the Fallen' has begun...
