Tattva Gyan - Elements of Knowledge (eBook)
Gurushree Vidushii Luthra, 2015-01-01 In this book of elements, the mystic value attached to various symbols in Hindu culture and in nature has been deeply expounded by Gurushree Vidushii. The entire creation is self-filled and all elements in Srishti are fragments of a single elementary truth you call soul or the spirit. The voiceless sound of that infinite transcendental spirit which is

the essence of all life and living beings will help you go beyond the perception of the senses and make you see the unseen background behind the objects of the world. Realize the inner you by observing the universality in the nature of the world.

The Eastern Mysteries David Allen Hulse, 2000
UNLOCK THE MEANING OF EASTERN MAGICK In scope and clarity, there is no book that can compare to The Eastern Mysteries. This reissue of David Allen Hulse's landmark work is the one book all students of the occult must own. It catalogs and distills, in hundreds of tables of secret symbolism, the true import of each ancient Eastern magickal tradition. Each chapter is a key that unlocks the meaning behind one of the magickal languages. Through painstaking research and analysis, Hulse has accomplished an unprecedented feat -- that of reconstructing the basic underlying systems that form the vast legacy of mystery traditions. The real genius of this accomplishment is that it is presented in a way that is immediately understandable and usable. Although the book deals with many foreign scripts, ancient tongues, and lost symbols, it is designed for the beginning student. Included is a wealth of cross references, excellent introductory material and overviews, an extensive annotated bibliography, and -- new to this edition -- a complete index.

Guru Tattva , 2012-02-02

Hindu Mission, Christian Mission Reid B. Locklin, 2024-05-01 For some four hundred years, Hindus and Christians have been engaged in a public controversy about conversion and missionary proselytization, especially in India and the Hindu diaspora. Hindu Mission, Christian Mission reframes this controversy by shifting attention from conversion to a wider, interreligious study of mission as a category of thought and practice. Comparative theologian Reid B. Locklin traces the

emergence of the nondualist Hindu teaching of Advaita Vedānta as a missionary tradition, from the eighth century to the present day, and draws this tradition into dialogue with contemporary proposals in Christian missiology. As a descriptive study of the Chinmaya Mission, the Ramakrishna Mission, and other leading Advaita mission movements, Hindu Mission, Christian Mission contributes to a growing body of scholarship on transnational Hinduism. As a speculative work of Christian comparative theology, it develops key themes from this engagement for a new, interreligious theology of mission and conversion for the twenty-first century and beyond.

Tattva 2 S.B. Keshava Swami, 2023-07-29 [tuht-tvah]: a principle or truth that underpins our experience of universal reality The Vedas are the oldest body of spiritual literature known to humankind. There, tucked away in mystical Sanskrit sutras, are profound insights into the self, the universe and the deeper purpose behind existence. Those 'old words' are known as tattva - essential truths and principles which underpin universal reality. Tattva stands true in all times, places and circumstances, transcending sectarian belief. Deep comprehension of those truths empowers one to unravel any existential mystery and upgrade themselves on every conceivable level - physically, emotionally, socially and most importantly, spiritually. Read on, pause for thought, let the simple but powerful philosophy enter your heart, and see if these 'old words' open 'new worlds' of spiritual opportunity.

Shri Guru Tattva Namavali Swami
Tejomayananda, 2022-12-01 The one infinite Truth (tattva) itself, is God, Guru and the Self. The Sadguru leads us to the Guru tattva within and the grand Realisation of the Truth. Swami
Tejomayananda has picked up 108 ever fresh flowers

from the spring-time garden of the Scriptures and strung them into a beautiful garland of names - Shri Guru Tattva Namavali - as an offering in praise of the Guru tattva. The commentary on them makes its chanting and offering in worship, meaningful and joyful, and its reflection and meditation, subtle and Blissful. It is sure to invoke the grace of Guru in our lives.

Vedic Dharma and the Varnasrama System Tattva Vicara Publications, 2012-01-11

Tattva Bodha By Shankaracharya Shraddhesh Chaturvedi, 2019-10-19 In this short book, Shankaracharya has explained the fundamental building blocks of all the entities as outlined in Vedic philosophy. This diverse world which consists of innumerable living and non-living entities, is nothing but an aggregate of these building blocks. Same observation holds for our bodies and its parts. He discusses the creation, composition and characteristics of our mind, intellect, memory and ego. He talks about the three different type of bodies we possess during waking, dreams and sound sleep. Along the way, he shows that which is not created is what we actually are. Our reality is beyond is beyond all bodies and definitions. Why we are not able to identify with this uncreated and timeless reality now and how can we know it is the next set of important questions which he answers. And, then he answers the questions like what happens when we know the reality ourselves and how is it intrinsically different from the perception of reality of an ordinary person. It can serve as a concise, excellent and essential reference on Vedic philosophy which can help in understanding

other Vedic texts. Clarity of basic concepts leads to swift and sound progress towards our non-dual reality. In this eternal oneness, there is no distress and delusion but the bliss and knowledge abound. We are this reality now but unaware of it due to our lack of focus. Once we understand it, it shines forth as if the sun has just come out of dark clouds of ignorance.

Tattva-Viveka Bhaktivinode Thakura, 2011-07-01
The fundamental mysteries of the Vedic philosophical conclusions are unlocked for the first time in this English rendition of Srila Bhaktivinode Thakur's concise treatise on the Absolute Truth, *Tattva-viveka*. It consists of two chapters. In the book, he points out that the conditioned soul espouses and is subjected to a great variety of speculative explanations concerning the ontological truths of existence. All of these are flawed, and the Thakur points out just how they are so. However, this *Tattva-viveka* gives us real hope that the Absolute Truth can indeed be realized by any sincere and serious person in this lifetime. As a representative of that Supreme Reality, Thakur Bhaktivinode, a fully self-realized and God-realized soul, briefly touches upon the philosophies of the West. He starts with the prominent Greek thinkers, and includes the Roman poet-philosopher, Lucretius. He then skips to the Age of Enlightenment and discusses Hume and Von Holbach, along with others. He culminates this review with an analysis of modern-day philosophers and philosophies, such as Huxley, Schopenhauer, Mill, and Auguste Comte. He goes into special detail in relation to Positivism. In *Tattva-viveka*, Bhaktivinode Thakur also discusses, sometimes in detail, Eastern philosophies such as Sankhya, Nyaya, Vaisheshika, Karma-mimamsa, and Patanjala-Yoga. There are expositions on Buddhism, Jainism, Zoroastrianism, and Christianity, as well. Finally, the Monist

philosophy is considered. In the second chapter, Srila Bhaktivinode Thakur's sums up everything by explaining the Absolute Truth from the perspective of the realized souls, who, wherever they are living in time and space—either on this planet, this universe, or in the spiritual world itself—are always in complete and perfect agreement.
