**Teklife, Ghettoville, Eski** Dhanveer Singh Brar, 2021-04-27 How black electronic dance music makes it possible to reorganize life within the contemporary city. Teklife, Ghettoville, Eski argues that Black electronic dance music produces sonic ecologies of Blackness that expose and reorder the contemporary racialization of the urban--ecologies that can never simply be reduced to their geographical and racial context. Dhanveer Singh Brar makes the case for Black electronic dance music as the cutting-edge aesthetic project of the diaspora, which due to the music's class character makes it possible to reorganize life within the contemporary city. Closely analysing the Footwork scene in South and West Chicago, the Grime scene in East London, and the output of the South London producer Actress, Brar pays attention to the way each of these critically acclaimed musical projects experiment with aesthetic form through an experimentation of the social. Through explicitly theoretical means, Teklife, Ghettoville, Eski foregrounds the sonic specificity of 12 records, EPs, albums, radio broadcasts, and recorded performances to make the case that Footwork, Grime, and Actress dissolve racialized spatial constraints that are thought to surround Black social life. Pushing the critical debates concerning the phonic materiality of blackness, undercommons, and aesthetic sociality in new directions, Teklife, Ghettoville, Eski rethinks these concepts through concrete examples of contemporary black electronic dance music production that allows for a

**Moocs and Open Education** Mimi Miyoung Lee,Curtis J. Bonk,Thomas H. Reynolds,2015-07 In April of 2001, the president of MIT, Charles Vest, announced the establishment of a project for placing MIT course contents on the Web for free access by anyone with an Internet connection. In effect, this announcement started the OpenCourseWare (OCW) movement. Since that time, open educational resources (OER) and more recently massive open online courses (MOOCs) have proliferated. A flurry of research reports, books, programs, announcements, debates, and conferences related to MOOCs and open education have encouraged educators to reflect on how these new forms of educational delivery might enhance or even transform education. As part of this global movement, the four editors of this special issue, Mimi Lee, Curt Bonk, Tom Reynolds, and Tom Reeves, organized a one-day preconference symposium on this topic at the International E-Learn Conference in Las Vegas in October 2013. One direct result of that event is this special issue of the International Journal on E-Learning (IJEL), which contains highly informative and important papers related to the present and future of MOOCs and Open

Education around the globe.

*MOOCs and Open Education Around the World* Curtis J. Bonk,Mimi M. Lee,Thomas C. Reeves,Thomas H. Reynolds,2015-06-12 As new digital forms of formal and informal learning proliferate, there is an increasing need to better understand how people in different regions of the world are implementing massive open online courses (MOOCs) and other forms of open educational resources (OERs). Educators, researchers, politicians, and numerous other stakeholders want to grasp what the outcomes of these initiatives are and how they can be improved. Ongoing e-learning developments related to both technology and pedagogy have pushed institutions and organizations to grapple with issues of accreditation, credentialing, quality standards, innovative assessment, and learner motivation and attrition, among other areas of concern. In response, *MOOCs and Open Education Around the World* explores and illuminates unique implementations of MOOCs and open education across regions and nations. The book also focuses on the various opportunities as well as the dilemmas presented in this rapidly evolving age of technology-enabled learning. What are the different delivery formats, interaction possibilities, assessment schemes, and business models? What are the key controversies or issues that must be discussed and addressed? This edited collection explains MOOCs and open education trends and issues in a variety of contexts, shares key research findings, and provides practical suggestions and recommendations

for the near future.

**Beefy's Tune (Dean Blunt Edit)** Dhanveer Singh Brar, 2020 Dean Blunt is the most important British artist of the current century because he fundamentally does not care about Britain. His importance makes it shocking that such little critical attention has been paid to his work. His indifference explains it. Dhanveer Singh Brar's Beefy's Tune (Dean Blunt Edit) looks to initiate a conversation that needs to be had about Dean Blunt, about Britain (through Blunt's indifference to it), and about Blackness in Britain (through the depth and complexity of Blunt's feeling for it). Using the 2016 album 'BBF Hosted By DJ Escrow' as a means of navigation, Brar hears Blunt in order to access the long contested dream of Britain's disappearance that was conducted under the name of Black British Arts. Partial (in the sense of his relation to Blunt) and partial (in the sense of unfinished), Beefy's Tune (Dean Blunt Edit) sees Dhanveer Singh Brar give the dream a grammar, if not a name. To encounter BBF Hosted by DJ Escrow through Dhanveer Brar's ears is to see Babylon through his eyes, and to sense Britain -- to uncover with 'accuracy, brutality and beauty' the complexities of its meaning -- through the social music, social vision and social feel of those who refuse the Britishness that is withheld from them. Brar discerns Dean Blunt's rightful place in a cultural field where critical discourse and sonic dream are fundaments of a dub university curriculum whose various approaches show the absolute necessity and generativity of stealth, flaw and the resistance to

category. Blunt's love letter to the blackness of Hackney deserves the most rigorous, gentle, erudite attention. Happily, Dhanveer Brar is here to provide it. - Fred Moten

**The Hacienda** Peter Hook, 2009-10-01 Legendary musician Peter Hook tells the whole story - the fun, the music, the vast loss of money, the legacy - of Manchester's most iconic nightclub Peter Hook, as co-founder of Joy Division and New Order, has been shaping the course of popular music for thirty years. He provided the propulsive bass guitar melodies of 'Love Will Tear Us Apart' and the bestselling 12-inch single ever, 'Blue Monday' among many other songs. As co-owner of Manchester's Hacienda club, Hook propelled the rise of acid house in the late 1980s, then suffered through its violent fall in the 1990s as gangs, drugs, greed and a hostile police force destroyed everything he and his friends had created. This is his memory of that era and 'it's far sadder, funnier, scarier and stranger' than anyone has imagined. As young and naive musicians, the members of New Order were thrilled when their record label Factory opened a club. Yet as their career escalated, they toured the world and had top ten hits, their royalties were being ploughed into the Hacienda and they were only being paid £20 per week. Peter Hook looked back at that exciting and hilarious time to write HACIENDA. All the main characters appear - Tony Wilson, Barney, Shaun Ryder - and Hook tells it like it was - a rollercoaster of success, money, confusion and true faith.
