The International Who's Who in Popular Music 2002 Andy Gregory, 2002 The International Who's Who in Popular Music 2002 offers comprehensive biographical information covering the leading names on all aspects of popular music. It brings together the prominent names in pop music as well as the many emerging personalities in the industry, providing full biographical details on pop, rock, folk, jazz, dance, world and country artists. Over 5,000 biographical entries include major career details, concerts, recordings and compositions, honors and contact addresses. Wherever possible, information is obtained directly from the entrants to ensure accuracy and reliability. Appendices include details of record companies, management companies, agents and promoters. The reference also details publishers, festivals and events and other organizations involved with music.

Broadcasting in Japan Hitoshi Mitomo, Mikio Kimura, 2022-11-14 This book provides an analysis of the various challenges and opportunities facing the Japanese broadcasting industry. It is the first book in English that explores how Japanese broadcasting, especially commercial broadcasting, fulfills its social mission under the threat of the increased popularity of Internet-based media services as it reexamines the role and nature of broadcasting. During a series of disasters and the spread of the new coronavirus in Japan, while varied media connected people and supported socio-economic activities, broadcasting continued to be the most trusted. However, as Internet media attract increasing attention, the trend in broadcast viewership is downward. Commercial broadcasting, in particular, will be strongly affected by that trend and the impact of the shrinking population. Recognizing that such dramatic technological and environmental changes are under way, in addition to the eleven researchers participating in the visiting researcher committee at the Research Institute of the Japan Commercial Broadcasters Association (JBA), four research collaborators and the secretariat (director of the JBA) have contributed to this book. They have taken up issues related to challenges and opportunities for the broadcasting industry based on their respective areas of awareness of the problems, including policies for broadcasting, fake news, disaster responses, viewer trust in television programs, competition with Internet-based services, and the business model for broadcasting.

The Global Music Industry Arthur Bernstein,Naoki Sekine,Dick Weissman,2013-09-13 For everyone in the music industry—record labels, managers, music publishers, and the performers themselves—it is important to understand the world music marketplace and how it functions. Yet remarkably little has been written about the music business outside of the U.S. *The Global Music Industry: Three Perspectives* gives a concise overview of the issues facing everyone in the international music industry. Designed for an introductory course on music business, the book begins with an introduction to the field around the world, then focuses on global issues by region, from bootlegging and copyright to censorship and government support. It will be a standard resource for students, professionals, and musicians.

Recentering Globalization Koichi Iwabuchi,2002-11-08 Globalization is usually thought of as the

worldwide spread of Western—particularly American—popular culture. Yet if one nation stands out in the dissemination of pop culture in East and Southeast Asia, it is Japan. Pokémon, anime, pop music, television dramas such as Tokyo Love Story and Long Vacation—the export of Japanese media and culture is big business. In *Recentring Globalization*, Koichi Iwabuchi explores how Japanese popular culture circulates in Asia. He situates the rise of Japan's cultural power in light of decentering globalization processes and demonstrates how Japan's extensive cultural interactions with the other parts of Asia complicate its sense of being in but above or similar but superior to the region. Iwabuchi has conducted extensive interviews with producers, promoters, and consumers of popular culture in Japan and East Asia. Drawing upon this research, he analyzes Japan's localizing strategy of repackaging Western pop culture for Asian consumption and the ways Japanese popular culture arouses regional cultural resonances. He considers how transnational cultural flows are experienced differently in various geographic areas by looking at bilateral cultural flows in East Asia. He shows how Japanese popular music and television dramas are promoted and understood in Taiwan, Hong Kong, and Singapore, and how Asian popular culture (especially Hong Kong's) is received in Japan. Rich in empirical detail and theoretical insight, *Recentring Globalization* is a significant contribution to thinking about cultural globalization and transnationalism, particularly in the context of East Asian cultural studies.

Songs from the Edge of Japan: Music-making in Yaeyama and Okinawa Matt Gillan, 2016-04-01
Since the early 1990s, Okinawan music has experienced an extraordinary boom in popularity throughout Japan. Musicians from this island prefecture in the very south of Japan have found success as performers and recording artists, and have been featured in a number of hit films and television dramas. In particular, the Yaeyama region in the south of Okinawa has long been known as a region rich in performing arts, and Yaeyaman musicians such as BEGIN, Daiku Tetsuhiro, and Natsukawa Rimi have been at the forefront of the recent Okinawan music boom. This popularity of Okinawan music represents only the surface of a diverse and thriving musical culture within modern-day Yaeyama. Traditional music continues to be an important component of traditional ritual and social life in the islands, while Yaeyama's unique geographical and cultural position at the very edge of Japan have produced varied discourses surrounding issues such as tradition versus modernity, preservation, and cultural identity. *Songs from the Edge of Japan* explores some of the reasons for the high profile

of Yaeyaman music in recent years, both inside and outside Yaeyama. Drawing on extensive ethnographic fieldwork carried out since 2000, the book uses interviews, articles from the popular media, musical and lyrical analysis of field and commercial recordings, as well as the author's experiences as a performer of Yaeyaman and Okinawan music, to paint a picture of what it means to perform Yaeyaman music in the 21st century.

Strategic Management John A. Pearce, Richard Braden Robinson, 2003 Contemporary research in strategic management, with an emphasis on conceptual tools and skills created by scholars and practitioners in the field are evident throughout this 11-chapter book. Pearce and Robinson's Strategic Management, retains its high level of academic credibility and its market-leading emphasis on Strategic Practice. It continues to have strong support from longtime adopters and growing support in schools with a desire to provide straightforward treatment of strategic management with a practical, systematic approach. The 8th edition will continue its strategic alliance with Business Week, which will be seen in cases, illustration capsules, and woven into the text. The text and cases will include numerous Business Week short cases and a wide assortment of traditional, longer strategic management cases. Pearce and Robinson will continue to use a unique pedagogical model created by the authors to provide logic and structure to its treatment of strategic management which in turn makes the material more easily organized by the instructor and learned by the student.
