Michael Jordan, Inc. David L. Andrews,2001-08-09 Michael Jordan, Inc. seeks to make sense of a celebrated figure whose public existence illuminates a late capitalist order defined by the convergence of corporate and media interests. Using Michael Jordan as a vehicle for viewing the broader social, economic, political, and technological concerns that frame contemporary culture, the contributors focus on celebrity economy, corporate culture, identity politics, and the global marketplace—foundational pillars of contemporary cultural existence. They provide an introduction to late capitalism's pervasive and invasive cult of celebrity, examine the innovative corporate connections (particularly Jordan's association with Nike) largely responsible for Jordan's aggressively commodified being, excavate the cultural

politics imbued within the racialized and sexualized nature of Jordan's identity, and demonstrate the global reach and influence that has accompanied the concerted commodification of Jordan by transnational corporations. This anthology represents both an intellectual expression of, and a political commitment to, the fact that Michael Jordan matters.

Strategic Foresight Sarah Lai-Yin Cheah, 2020-03-09 Strategic foresight is discipline that organizations adopt to gather, interpret, manage information about the future environment they plan to operate in. This book introduces the concept of strategic foresight and advocates a holistic and systemic foresight approach comprising five phases that are suitable for organizations in the public and private sectors. Using real-life cases as practical examples, the book demonstrates how organizations can apply a range of foresight methods and resources across the phases from intelligence to implementation. The book offers an opportunity to learn by all key stakeholders. It enhances the understanding of the National Research Organization's Foresight exercise (as the complex social phenomenon) in its context. The case study of the National Research Organisation provides lessons and insights that

can improve both the theoretical and practical implementation of the Foresight Exercise. Dr Mlungisi Cele Acting Head: National Advisory Council on Innovation Department of Science and Technology, Republic of South Africa Foresight methodologies have been widely spreading among business and research organizations worldwide during the last decades. The weakest point of many forward-looking activities so far was the lack of their practical use. The books shows, on a number of cases, how a Foresight study, being wisely designed and implemented, can become a useful navigation tool for increasing competitiveness in the fast changing environment. Dr Alexander Sokolov Professor, HSE National Research University, Russia Director, Institute for Statistical Studies and Economics of Knowledge / International Research and Educational Foresight Centre Very useful tool to describe how organizations assess the future and formulate strategic plans using a systemic foresight methodology Ibon Zugasti Managing Director in PROSPEKTIKER and Chair of the Millennium Project Node in Spain A comprehensive source of knowledge on complex issues of technology foresight process, from conception to commercialization of key technologies, made easy to understand and useful for aspiring futurists seeking to learn

more about the matters at hand. Dr Surachai Sathitkunararat
Executive Director, APEC Center for Technology Foresight (APEC
CTF) Assistant to the President Office of National Higher
Education, Science, Research and Innovation Policy Council
(NXPO) Thailand This book provides a very good coverage of the
end-to-end methodology for technology-based innovation through
the use of diverse and relevant business use cases. Very often,
books on this theme only expound the approaches. Sarah goes
beyond in sharing the pitfalls and challenges during the different
stages of the systemic foresight methodology so that readers can
learn and avoid the mistakes that other companies made. The
emphasis on open innovation and intellectual property
management is valuable as many organizations fail to deliver the
vision due to insufficient attention on these two aspects. A must
read if you wish to master strategic foresight. Dr Terence Hung
Chief, Future Intelligence Technologies Rolls-Royce Singapore Pte
Ltd Why do people want to know the future? People want to use
budget efficiently or don't want to waste time? Aside from those
who see the future, like fortune tellers, how do we make the
future? Foresight is known as a method of creating the future in a
way that many people has been using. So how is it different

between Forecast and Foresight? This book will help answer that.
Dr Kuniko Urashima Deputy Director of Foresight Center National

Throwaway Players Gay Culverhouse, 2011-08-30 The NFL insists players know they're playing a dangerous game, but players never see the deteriorated mental capacities of their former heroes. *Throwaway Players* is former Tampa Bay Buccaneers president Gay Culverhouse's story of the broken bodies and lost souls of the men who have left the locker room and what remains after the cheering subsides. Focused on making money rather than the well-being of their players, this is the dark side of football the NFL doesn't want fans to see. Additionally, high schools, colleges, and independent sports organizations have little oversight when choosing player's equipment. This breeds a new generation of kids suffering from multiple concussions and damaged lives. *Throwaway Players* offers guidance to parents navigating the world of competitive sports as well as advocacy and resources for athletes often left in the dark about appropriate procedures for treating

injuries, especially head traumas. Throwaway Players is essential reading for any parent, athlete, and sports fan. Gay Culverhouse testified before Congress on football head injuries and successfully changed the policy of including an independent neurologist on the sidelines of every NFL game. Gay's work with former players has appeared in The New York Times, Sarasota Herald Tribune, St. Petersburg Times, The Tampa Tribune, Time magazine, and many more. She has appeared on several radio shows, including PBS and ESPN, and is featured in three documentaries that are in post-production (with CNN, ESPN, and an independent filmmaker). In November 2009 Gay formed The Gay Culverhouse Players' Outreach Program, Inc., a nonprofit organization to further the work nationally for retired players.
