Faces around the World Margo DeMello, 2012-02-14 This book provides a comprehensive examination of the human face, providing fascinating information from biological, cultural, and social perspectives. Our faces identify who we are—not only what we look like and what ethnicities we belong to, but they can also identify what religions we practice and what personal ideologies we have. This one-of-a-kind A–Z reference explores the ways we change, beautify, and adorn our faces to create our personalities and identities. In addition to covering the basics such as the anatomical structure and function of parts of the human face, the entries examine how the face is viewed around the world, allowing students to easily draw connections and differences between various cultures around the world. Readers will learn about a wide variety of topics, including identity in different cultures; religious beliefs; folklore; extreme beautification; the evil eye; scarification; facial piercing and facial tattooing masks; social views about beauty including cosmetic surgery and makeup; how gender, class and sexuality play a role in our understanding of the face; and skin, eye, mouth, nose, and ear diseases and disorders. Global Asian American Popular Cultures Shilpa Dave, Leilani Nishime, Tasha Oren, 2016-05-16 Asian Americans have long been the subject and object of popular culture in the U.S. The rapid circulation of cultural flashpoints—such as the American obsession with K-pop sensations, Bollywood dance moves, and sriracha hot sauce—have opened up new ways of understanding how the categories of “Asian” and “Asian American” are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, Global Asian American Popular Cultures highlights new approaches to modern culture, with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings

of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this ground-breaking collection explores the mainstream and the margins of popular culture.

E poi ancora qualche personaggio a mio avviso interessante e qualche curiosità, un po' pop e un po' no, che spero vi aiuteranno a tuffarvi senza indugio nel bianco-rosso-blu della Corea del Sud.

Gender, Media and Modernity in the Asia-Pacific Catherine Driscoll, Meaghan Morris, 2015-10-14 This collection offers a range of cultural studies perspectives on the ways gender and modernity intersect in media produced in the Asia-Pacific region. It spans different ideas about modernity in the region, different approaches to cultural analysis, and different media forms:

from Taiwanese lifestyle television to avant-garde Indian cinema, from the emergence of a Chinese youth culture in online social networks to the alienation of country girls as imagined by Australian soap opera, and from the fantastic politics of migrating bodies in Korean cinema to the masculine mimicry of fighting women in South-East Asian action movies. Together, these essays explore the ways that media both records and helps produce images and experiences of modernity and the integral role gender plays in those processes. This book was originally published as a special issue of Cultural Studies.

Jaysek, Reborn Jung-Wook Ko, 2015-11-25 This is the first coming-of-age novel for youths by the writer, Goh Jeong-uk. The hero, Jaysek is a seventeen-year-old high school student, angry at the world because of family problems and poverty. He is also a fighter, one of the toughest in a violent school gang. But one day, he gets punished for something that wasn't his fault. The uptight principal orders him to community service--no, not volunteer work, but community service--a punishment fit for criminals. Jaysek is to serve at the Hwayeong Welfare Center for the Elderly. Working at the welfare center, Jaysek meets old people with disabilities. Watching them, Jaysek learns persistence and determination, which keep him from despairing no matter how tough the situation. Jaysek is also motivated to change by the sight of Buraqui with his artificial limbs, endlessly fighting his own self to become a better person while teaching people who are in difficult circumstances. His encounter with Bodam motivates him to get rid of his bad habits and brings him to dream of a sound relationship with her. Bodam also helps him learn how to communicate with the world by reading, which in turn gets Jaysek to dream about his life. In particular, the author expressed his wishes for young people to blossom by planting good habits, from small habits like going to bed early and rising early to getting rid of bad habits, and also reading and working to realize one's dream. He also stressed the importance of a sound intimate relationship and elaborates on how important reading is in life through the books *Demian* and *Zorba the Greek* recommended by Bodam.

Writers by Oprah Daily Longlisted for the PEN Open Book Award *The Magical Language of Others* is a powerful and aching love story in letters, from mother to daughter. After living in America for over a decade, Eun Ji Koh's parents return to South Korea for work, leaving fifteen-year-old Eun Ji and her brother behind in California. Overnight, Eun Ji finds herself abandoned and adrift in a world made strange by her mother's absence. Her mother writes letters in Korean over the years seeking forgiveness and love—letters Eun Ji cannot fully understand until she finds them years later hidden in a box. As Eun Ji translates the letters, she looks to history—her grandmother Jun's years as a lovesick wife in Daejeon, the loss and destruction her grandmother Kumiko witnessed during the Jeju Island Massacre—and to poetry, as well as her own lived experience to answer questions inside all of us. Where do the stories of our mothers and grandmothers end and ours begin? How do we find words—in Korean, Japanese, English, or any language—to articulate the profound ways that distance can shape love? *The Magical Language of Others* weaves a profound tale of hard-won selfhood and our deep bonds to family, place, and language, introducing—in Eun Ji Koh—a singular, incandescent voice.

Alex Blackwood is a little bit headstrong, with a dash of chaos and a whole lot of flirt. She knows how to get the girl. Keeping her on the other hand...not so much. Molly Parker has everything in her life totally in control, except for her complete awkwardness with just about anyone besides her mom. She knows she's in love with the impossibly cool Cora Myers. She just...hasn't actually talked to her yet. Alex and Molly don't belong on the same planet, let alone the same college campus. But when Alex, fresh off a bad (but hopefully not permanent) breakup, discovers Molly's hidden crush as their paths cross the night before classes start, they realize they might have a common interest after all. Because maybe if Alex volunteers to help Molly learn how to get her dream girl to fall for her, she can prove to her ex that she's not a selfish flirt. That she's ready for an actual commitment. And while Alex is the last person Molly would ever think she could trust, she can't deny Alex knows what she's doing with girls, unlike her. As the two embark on their five-step plans to get their girls to fall for them, though, they both begin to wonder if maybe they're the ones falling...for each other.

Cyber-Humans Woodrow Barfield, 2015-12-17 It is predicted that robots will surpass human intelligence within the next fifty years. The ever increasing speed of advances in technology and neuroscience, coupled with the creation of super computers and enhanced body parts and artificial limbs, is paving the way for a merger of both human and machine. Devices which were once worn on the body are now being implanted into the body, and as a result, a class of true cyborgs, who are displaying a range of skills beyond those of normal humans-beings, are being created. There are cyborgs which can see colour by hearing sound, others have the ability to detect magnetic fields, some are equipped with telephoto lenses to aid their vision or implanted computers to monitor their heart, and some use thought to communicate with a computer or to manipulate a robotic arm. This is not science-fiction, these are developments that are really happening now, and will continue to develop in the future. However, a range of legal and policy questions has arisen alongside this rise of artificial intelligence. *Cyber-Humans* provides a deep and unique perspective on the technological future of humanity, and describes how law and policy will be particularly relevant in creating a fair and equal society and protecting the liberties of different life forms which will emerge in the 21st century. Dr Woodrow (Woody) Barfield previously headed up the Sensory Engineering Laboratory, holding the position of Industrial and Systems Engineering Professor at the University of Washington. His research revolves around the design and use of wearable computers and augmented reality systems and holds both JD and LL.M degrees in intellectual property law and policy. He has published over 350 articles and major presentations in the areas of computer science, engineering and law. He currently lives in Chapel Hill, NC, USA.

Economic Miracle Market South Korea Dieter K. Schneidewind, 2016-03-07 This book explores the historical and economic development of South Korea, its culture, as well as the benefits, opportunities and challenges that German companies have faced in their cooperation with South Korean enterprises. More specifically, it juxtaposes economic-miracle markets such as Japan and West Germany, which rose from the ashes after the Second World War with the help of a century of bustling industrial age, with South Korea, which developed from virtually nothing. The book also addresses why South Korea's history, geography, society, culture and economic capabilities remain widely unknown and unnoticed among westerners, despite South Korean companies being among the global market leaders in a number of industries, particularly in the automobile and hardware segments. Written from the point of view of a seasoned business expert on the country, Economic Miracle Market South Korea is essential reading for business and economics research academics looking to improve their knowledge of this relatively unknown "success story", as well as for practitioners in industry looking to optimize their dealings with South Korean business partners.
