China's Soviet Dream Yan Li, 2017-09-05 This book examines the introduction of Soviet socialist culture in the People's Republic of China, with a focus on the period of Sino-Soviet friendship in the 1950s. The vast state initiative to transplant Soviet culture into Chinese soil has conventionally been dismissed as a tool of propaganda and political indoctrination. However, this book demonstrates that this transnational engagement not only facilitated China's broader transition to socialist modernity but also generated unintended consequences that outlasted the propaganda. Drawing on archival findings, newspapers, magazines, media productions, and oral interview, the book delves into changes in Chinese popular imagination and everyday aesthetics contingent upon Soviet influence. It proposes a revisionist view of the Soviet impact on China, revealing that Soviet culture offered Chinese people the language and imagery to conceive of their future as a dream about material abundance, self-determination, and the pleasures of leisure and cultural enrichment. Written with a transnational, interdisciplinary, and thematic approach, this book is aimed at scholars and students in the fields of Sino-Soviet relations, international socialism, modern Chinese history, cultural studies, and mass communication. It will also be of interest to researchers seeking to understand the nature, significance, and repercussions of Sino-Soviet cultural engagement.

Expatriate Manager's Adaption and Knowledge Acquisition
Yan Li, 2015-10-24 This book is among the first to theoretically and empirically examine what and how Western expatriate managers learn and develop from their international assignments in China. The book draws on literature associated with expatriate studies, experiential learning theory, and knowledge acquisition to develop an expatriate learning process model. Following on

from this, the study then examines expatriate learning outcomes from four perspectives: learning style transition, adaptive flexibility, global mind-sets and managerial tacit knowledge. It enhances understanding of the cultural differences between Western countries and China as well as the kinds of learning strategies successful expatriates adopt in order to quickly adapt to intercultural business contexts. This book will appeal to international business practitioners and research fellows who are interested in international human resource management.

Cyber-Physical Microgrids Yan Li, 2021-10-20 This textbook provides students with an overview of cyber-physical microgrid networks and an in-depth introduction to photovoltaics, batteries, flywheel, supercapacitor, micro-turbines, wind generation, power-electronic interfaces, modeling and stability analysis of microgrids, and cyber-communication networks and security. The text helps upper-level undergraduate and graduate students gain a foundational understanding of microgrids and renewable energy, and offers an introduction to the frontier of theoretical research and practical applications of cyber-physical systems, paving the way to uncover and understand the operational mechanism of cyber-physical microgrids. The book includes examples and test systems throughout for problem-solving and will be an essential resource for students, researchers, and professionals in power engineering.

Blurt Out Chinese Yan Li, 2010-04-04 After years of teaching Chinese to foreigners in Beijing, Instructor Yan Li has found a way to remove one of the barriers to learning Chinese. By carefully selecting very short sentences that are easy to learn, Yan Li can have anyone speaking Chinese very quickly. Blurt out Chinese, the 100 most useful short Chinese sentences focuses on the most frequently used sentences in daily life. Not only do these sentences allow you to do practical things like shopping and eating out, they also allow you to express your feelings and even to give your opinion. To make sure that these sentences are easy

to learn for everyone, not a single sentence is over 5 words. An audio guide has also been provided to make sure that when you begin to Blurt out Chinese, your pronunciation is great! Never before has Chinese been presented in such a simple, accessible way. The road to Chinese Fluency is now shorter and easier. By eliminating the difficulty barrier, you too can begin to Blurt out Chinese!

Tree of Life Yan Li, 2017-09-14 A boy has always been curious about where he came from and how his life is going to be. His mom hope this small book can give her boy some inspirations, his mom hope his life likes a tree: keep a peaceful mind, has the stronger roots, always be calm even in the storm and enjoy his view. The author Yan Li always love to write about nature and human. A lot of benefits will be received by opening up the nature for our children. Embracing the nature can show children about inner workings of life, and understanding and care for our environment. Children also can learn about love, friendship, self-sacrifice, and tolerance and appreciate small things from exploring nature. In social insect colonies, worker bees devote their whole lives to work as gardeners and protect their hives and larva. The beetles have the greatest physical strength and always are the cleaners for the nature. Nature is also very versatile and diversity. The ostrich can't fly but it can swim, also it can run fast more than a horse. The flea can jump up to 200 times its height. The elephant can smell the water up to 3 miles. For children, these stunning facts are not only funny, but also impressive. Nature can boost children's imagination. The hawk soaring through the sky represents the freedom and potential available for children if they release their fear. Yan Li's story inspires children how to get along with nature, how to protect our nature and to maintain harmony with nature for a peaceful life. Yan li' s book has two version languages: in English and in Chinese. It is also a great choice for the language learners.

Internal Migration and Health in China Yan Li, 2024-05-07

This book focuses on the multifaceted reality of social and health constraints and health services access among migrants in China, by originally exploring the social strata, social networks, and the understanding of health and health services among migrants. Furthermore, this book investigates the health constraints and health services access of rural-urban migrants in the absence of equal social protection by the government. It argues that the main obstacles to access health services are not only the shortage of financial resources among rural-urban migrants, but also lie in the institutional blindness regarding health security provision, rural-urban dualism and the household registration system in China. The book highlights the key function that social networks play in health and health services access among migrants in China, which has rarely been discussed in previous studies. And it also discusses the understanding of health among migrants, and further analyses that although many migrants have not formed proper understanding of the connotation of health and have limited knowledge of health, prime responsibility should not be put on the migrants because their poor understanding of health mainly results from their rural perspective while health and health services access depend on the social-economic environment in which they live and work. This book would be of interest to people in migration studies, social exclusion and social welfare studies and to people interested in rural-urban migration and health in China.

Clothing Biosensory Engineering Yan Li, A S W

Wong, 2006-04-24 Human sensory perception of clothing involves a series of complex interactive processes, including physical responses to external stimuli, neurophysiological processes for decoding stimuli through the biosensory and nervous systems inside the body, neural responses to psychological sensations, and psychological processes for formulating preferences and making adaptive feedback reactions. Clothing biosensory engineering is a systematic and integrative way of translating consumers'

biological and sensory responses, and psychological feelings and preferences about clothing, into the perceptual elements of design. It is a link between scientific experimentation and commercial application to develop economic solutions to practical technical problems. Clothing biosensory engineering quantifies the decision-making processes through which physics, mathematics, neurophysiological and engineering techniques are applied to optimally convert resources to meet various sensory requirements – visual/thermal/mechanical. It includes theoretical and experimental observations, computer simulations, test methods, illustrations and examples of actual product development. Describes the process of Clothing biosensory engineering in detail Quantifies the decision making processes applied to optimally convert resources to meet various sensory requirements Includes theoretical and experimental observations and examples of actual product development

Triply Periodic Minimal Surface Lattices Additively Manufactured by Selective Laser Melting Chunze Yan, Liang Hao, Lei Yang, Ahmed Yussuf Hussein, Philippe G Young, Zhaoqing Li, Yan Li, 2021-06-12 Triply Periodic Minimal Surface Lattices by Selective Laser Melting Additive Manufacturing presents the design, manufacturing, microstructure, mechanical properties and applications of TPMS structures fabricated by selective laser additive manufacturing technology. The title explains these complex and useful structures based on systematic work in the UK and China. Sections introduce structure design methods, assess TPMS structures, explain mathematical their modeling, present the manufacturing, microstructure, mechanical and fatigue properties of metal uniform TPMS structures, discuss manufacturing and mechanical responses for functionally graded TPMS structures, give numerical analysis methods for predicting the mechanics of uniform and functionally graded TPMS structures, and more. Presents the state-of-the art in triply periodic minimal surface (TPMS) structures by surface laser melting (SLM) Describes how to assess manufacturability of TPMS structures by additive manufacturing (AM) Analyzes the mechanical properties of TPMS structures through experimental and numerical methods Details topology optimization for pore size Gives fatigue fracture mechanics for TPMS structures

Inclusive Finance in China Yan Li, Lin Wang, 2021-06-01 This book explores for the first time the world of micro-finance, Chinese startups, and the digitalization of the Chinese economy. Through the cases such as the Ant Financial Services Group,

CFPA Microfinance, micro-financial projects of China Minsheng Bank, Meixing in Nanchong, and more, this book introduces the practical exploration in the recent years from the perspectives of microfinance, financing of small and medium sized enterprises, digital inclusive finance, and credit. From the perspective of management, it especially integrates an enterprise's task, vision, and value into the design of organization process, deeply explores how to realized the double bottom lines of social and financial performances, manifests how microfinance's marginal cost is reduced by digital finance such as data, internet, cloud computing, artificial intelligence and the advantages of digital finance in providing convenient, low-cost, and touchable service, and discusses its huge technological bonus to small-amount, decentralized, and large-quantity microfinance. This book will be of value to journalists, economists and researchers.

The Transcultural Streams of Chinese Canadian

Identities Jessica Tsui-yan Li, 2019-09-30 Highlighting the geopolitical and economic circumstances that have prompted migration from Hong Kong and mainland China to Canada, *The Transcultural Streams of Chinese Canadian Identities* examines the Chinese Canadian community as a simultaneously transcultural, transnational, and domestic social and cultural formation. Essays in this volume argue that Chinese Canadians, a population that has produced significant cultural imprints on Canadian society, must create and constantly redefine their identities as manifested in social science, literary, and historical spheres. These perpetual negotiations reflect social and cultural ideologies and practices and demonstrate Chinese Canadians' recreations of their self-perception, self-expression, and self-projection in relation to others. Contextualized within larger debates on multicultural society and specific Chinese Canadian cultural experiences, this book considers diverse cultural presentations of literary expression, the "model minority" and the influence of gender and profession on success and failure, the

gendered dynamics of migration and the growth of transnational ("astronaut") families in the 1980s, and inter-ethnic boundary crossing. Taking an innovative approach to the ways in which Chinese Canadians adapt to and construct the Canadian multicultural mosaic, *The Transcultural Streams of Chinese Canadian Identities* explores various patterns of Chinese cultural interchanges in Canada and how they intertwine with the community's sense of disengagement and belonging. Contributors include Lily Cho (York), Elena Chou (York), Eric Fong (Chinese University of Hong Kong), Loretta Ho (Toronto), Jack Leong (Toronto), Jessica Tsui-yan Li (York), Lucia Lo (York), Guida Man (York), Kwok-kan Tam (Hang Seng Management College), Eleanor Ty (Wilfrid Laurier), and Henry Yu (British Columbia).

Chinese Women in Love and Marriage Dawn Xiao Yan Li, 2006-11 Written by a cross-cultural relationship professional, *Chinese Women in Love and Marriage* provides a unique insight to Chinese women today. Lots of true stories and testimonials have been used to demonstrate the author's views and suggestions. - What love, marriage and family values are held by Chinese women today? - How do Chinese women differ from other Asian and Western women; - Can love exist between different cultures and backgrounds? - How to judge sincerity and intentions in a relationship; - How to communicate well with someone from a different culture and background; - What does sex mean to Chinese women? - What are the top cultural tips for Chinese dating and marriage? - How to find a Chinese love through the Internet; - What is the best protection against being cheated? And more Dawn's book answers all the questions for anyone serious about a lasting relationship with a Chinese woman. How can you find out answers to questions about culture, etiquette, etc. if you haven't lived there among the people? - Allen Van Halle A practical guide to cross-cultural relationships and an academic reference on Chinese culture.

Winter Pasture Li Juan,2021-02-23 Named one of The Washington Post's Best Travel Books of 2021. Winter Pasture is Li Juan's crowning achievement, shattering the boundaries between nature writing and personal memoir. —Smithsonian Magazine Li Juan spent minus-20-degree nights with nomadic herders in the Chinese steppes. You'll want to join her. —Laura Miller, Slate Deeply moving...full of humor, introspection and glimpses into a vanishing lifestyle. —The New York Times Book Review Winner of the People's Literature Award, WINTER PASTURE has been a bestselling book in China for several years. Li Juan has been widely lauded in the international literary community for her unique contribution to the narrative non-fiction genre. WINTER PASTURE is her crowning achievement, shattering the boundaries between nature writing and personal memoir. Li Juan and her mother own a small convenience store in the Altai Mountains in Northwestern China, where she writes about her life among grasslands and snowy peaks. To her neighbors' surprise, Li decides to join a family of Kazakh herders as they take their 30 boisterous camels, 500 sheep and over 100 cattle and horses to pasture for the winter. The so-called winter pasture occurs in a remote region that stretches from the Ulungur River to the Heavenly Mountains. As she journeys across the vast, seemingly endless sand dunes, she helps herd sheep, rides horses, chases after camels, builds an underground home using

manure, gathers snow for water, and more. With a keen eye for the understated elegance of the natural world, and a healthy dose of self-deprecating humor, Li vividly captures both the extraordinary hardships and the ordinary preoccupations of the day-to-day of the men and women struggling to get by in this desolate landscape. Her companions include Cuma, the often drunk but mostly responsible father; his teenage daughter, Kama, who feels the burden of the world on her shoulders and dreams of going to college; his reticent wife, a paragon of decorum against all odds, who is simply known as sister-in-law. In bringing this faraway world to English language readers here for the first time, Li creates an intimate bond with the rugged people, the remote places and the nomadic lifestyle. In the signature style that made her an international sensation, Li Juan transcends the travel memoir genre to deliver an indelible and immersive reading experience on every page.

Kinematics Of The Brain Activities Mostafa M.

Dini,2012-09-11 Plasticity establishes a permanent connectivity of the synapses in more rigid networks, which when excited, all will communicate together. Elasticity maintains an instant connectivity between neural networks by bringing synapses in a suitable communication distance. The other way of internal communication in brain is through the nerve fibers when two neural network configurations in a far distance can resonate together. The integration of these types of communications is the mean that the brain functions.

Historical Perspectives On East Asian Science, Technology And Medicine Alan Kam Leung Chan, Gregory K Clancey, Hui-chieh Loy,2002-07-24 Historical Perspectives on East Asian Science, Technology, and Medicine brings together over fifty papers by leading contemporary historians from more than a dozen nations.
