Poem Collections of Guo Zhao Zhao Guo.2023-05-08 Strategies of the Warring States Liu Xiang, The Zhan Guo Ce, also known in English as the Strategies of the Warring States, is an ancient Chinese text that contains anecdotes of political manipulation and warfare during the Warring States period (5th to 3rd centuries bc).[1] It is an important text of the Warring States Period as it describes the strategies and political views of the School of Diplomacy and reveals the historical and social characteristics of the period. The Zhan Guo Ce recounts the history of the Warring States from the conquest of the Fan clan by the Zhi clan in 490 BC up to the failed assassination of Qin Shi Huang by Gao Jianli in 221 BC. The chapters take the form of anecdotes meant to illustrate various strategies and tricks employed by the Warring States. With the focus thus being more on providing general political insights than on presenting the whole history of the period, there is no stringent year-by-year dating such as that found in the preceding Spring and Autumn Annals. Stories are sorted chronologically by under which ruler they take place, but within the reign of a single king there is no way to tell if the time elapsed between two anecdotes is a day or a year. The book comprises approximately 120,000 words, and is divided into 33 chapters and 497 sections.

<u>Transition and Challenge</u> Zhongwei Zhao,Fei Guo,2007-02-22 With the largest population in the world,

China has experienced significant demographic, social, and economic changes in recent decades. Extraordinary demographic changes took place in China in the second half of the twentieth century having wide-ranging consequences. This book, written by a group of leading experts, examines these profound changes in an effort to understand their long term impact and provide an up-todate account of China's demographic reality. The volume provides a comprehensive and authoritative analysis of a wide range of issues such as China's unprecedented family planning program, the impact of falling birth rates coupled with increasing life expectancy, changes in marriage patterns, and increasing rural-urban migration. Anyone who is interested in China and its recent demographic changes will benefit from the rich materials and thorough analysis provided in this book.

The Political History of the Spring and Autumn Period and the Warring States Period Li Shi, The book is the volume of "The Political History of the Spring and Autumn Period and the Warring States Period" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600-1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070-1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046-256 BC)

supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC - 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644-1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood - the most recent being the Chinese Civil War (1927-1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves

of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.

Records of Zhou Dynasty Sima Guang, Zi Zhi Tong Jian (Chinese: □□□□; English: Comprehensive Mirror in Aid of Governance) is a pioneering reference work in Chinese historiography, published in 1084 in the form of a chronicle. In 1065 AD, Emperor Yingzong of Songordered the great historian Sima Guang (1019-1086 AD) to lead with other scholars such as his chief assistants Liu Shu, Liu Ban and Fan Zuyu,[1] the compilation of a universal history of China. The task took 19 years to be completed, and, in 1084 AD, it was presented to his successor Emperor Shenzong of Song. The Zizhi Tongjian records Chinese history from 403 BC to 959 AD, covering 16 dynasties and spanning across almost 1,400 years, and contains 294 volumes (\square) and about 3 million Chinese characters. The principal text of the Zizhi Tongjian was recorded on 294 Juan, or Volume (Chinese: □), which are scrolls corresponding to a volume, chapter, or section of the work. The text is a chronological narrative of the history of China from the Warring States to the Five Dynasties. Sima Guang left the traditional usage in Chinese historiography. For almost 1,000 years since the Shiji was written, standard Chinese dynastic histories had primarily divided chapters between annals (□) of rulers, and biographies (\sqcap) of officials. In Chinese terms, the book changed the format of histories from biographical style ($\Pi\Pi$ \square) to chronological style ($\square\square\square$), which is better suited for analysis, activism and criticism. According to Wilkinson: It had an enormous influence on later Chinese historical writing, either directly or through its many abbreviations, continuations, and adaptations. The 294 Juan sweep through 11 Chinese historical periods (Warring States, Qin, Western Han, Eastern Han, Three Kingdoms, Jin and the Sixteen Kingdoms, Southern and Northern Dynasties, Sui, Tang, and Five Dynasties). It was one of the largest

historical magna opera in history. The book consisted of 294 chapters, of which the following number describe each respective dynastic era: 1.5 chapters - Zhou (1046-256 BC) 2.3 chapters - Qin (221-207 BC) 3.60 chapters - Han (206 BC-220 AD) 4.10 chapters - Wei (220-265) 5.40 chapters - Jin (265-420) 6.16 chapters - Liu Song (420-479) 7.10 chapters - Qi (479-502) 8.22 chapters - Liang (502-557) 9.10 chapters - Chen (557-589) 10.8 chapters - Sui (589-618 AD) 11.81 chapters - Tang (618-907) 12.6 chapters - Later Liang (907-923) 13.8 chapters - Later Tang (923-936) 14.6 chapters - Later Jin (936-947) 15.4 chapters - Later Han (947-951) 16.5 chapters - Later Zhou (951-960) The book includes volume 1 to 5 covering Zhou Dynasty among a series of books of Zi Zhi Tong Jian.

Han Fei Zi □□□ Han Fei □□□, The Han Feizi (Chinese: □□□) is an ancient Chinese text attributed to foundational

political philosopher, Master Han Fei. It comprises a selection of essays in the Legalist tradition on theories of state power, synthesizing the methodologies of his predecessors. Its 55 chapters, most of which date to the Warring States period mid-3rd century BC, are the only such text to survive intact. Easily one of the most important philosophical classics in ancient China, it touches on administration, diplomacy, war and economics, and is also valuable for its abundance of anecdotes about pre-Qin China. Han Fei's writings were very influential on the future first emperor of China, Qin Shi Huang. After the early demise of the Qin dynasty, Han Fei's philosophy was officially vilified by the following Han Dynasty. Despite its outcast status throughout the history of imperial China, his political theory continued to heavily influence every dynasty thereafter, and the Confucian ideal of a rule without laws was never again realized. Shu Han's chancellor Zhuge Liang demanded emperor Liu Shan read the Han Feizi for learning the way of ruling.

In fact, this book provides us with a wealth of historical knowledge and profound strategies to govern the world. By drawing lessons from the wisdom of the ancients in life, such as prevention of danger, acting on camera, responding at random, changing dangers into barbarians, relieving hardships and so on, we can gain the truth and experience of life, so that the world can become wise, sober and open-minded. The book also chooses a large number of classical stories about self-cultivation, family unity, governing the country and peace of the world, especially elaborating on the strategy and experience of living in the world, which still has certain enlightening significance at present.
