**Faith Beyond Reason** A. W. Tozer, 2009-11-18 Faith Beyond Reason, a book by A.W. Tozer, is a compilation of sermons on the book of John. It is within this series of sermons that you will find A.W. Tozer addressing the whole truth that all things are possible with God. Tozer takes us in Faith Beyond Reason to a new understanding of our spiritual birth and human conscience and addresses our enlightened spirit, inner knowledge and the resurrection. IT is these truths that sustain us in our Christian walk. Faith Beyond Reason comes to us with insights of faith and Tozer takes an in depth look and what it stands on. In Tozer's typical fashion and style, he explores the things that are beyond or frail human understanding. Faith Beyond Reason will leave you with a new and empowering sense of the faith while subtly revealing the power of God in our lives. The question every Christian must ask as they prepare to walk with God is, do they really believe that the God they worship will move heaven and earth for them if they truly trust in Him? The whole premise of this book is that with God nothing is impossible especially when it comes to His children. We must act with faith and do what is needed.

Ancient Philosophy of the Self Pauliina Remes, Juha Sihvola, 2008-08-26 Pauliina Remes and Juha

Sihvola In the course of history, philosophers have given an impressive variety of answers to the question, “What is self?” Some of them have even argued that there is no such thing at all. This volume explores the various ways in which selfhood was approached and conceptualised in antiquity. How did the ancients understand what it is that I am, fundamentally, as an acting and affected subject, interpreting the world around me, being distinct from others like and unlike me? The authors highlight the attempts in ancient philosophical sources to grasp the evasive character of the specifically human presence in the world. They also describe how the ancient philosophers understood human agents as capable of causing changes and being affected in and by the world. Attention will be paid to the various ways in which the ancients conceived of human beings as subjects of reasoning and action, as well as responsible individuals in the moral sphere and in their relations to other people. The themes of persistence, identity, self-examination and self-improvement recur in many of these essays. The articles of the collection combine systematic and historical approaches to ancient sources that range from Socrates to Plotinus and Augustine.
