Lost Galveston Brian M. Davis,2010 For nearly 200 years, a permanent settlement at the mouth of Galveston Bay has welcomed pirates, sailors, immigrants, and visitors from around the world. As Galveston grew, its buildings were visible signs of the city's prosperity and the talent of its craftsmen. For many, this city was a gateway to America and an inspiration of what other communities in Texas and the Southwest would become. Although Galveston has thousands of historic buildings remaining, many have been lost to the elements and development over the years. Buildings such as the ones found within these pages define the character of our city and its culture.

African Americans of Galveston Tommie D.

Boudreaux,Alice M. Gatson,2013-09-18 In the 19th century, Galveston shores were a gateway for

immigrants to Texas and destinations beyond. Slaves, the forced immigrants, were brought to Galveston as property for sale. The largest slave trade operation in Galveston was implemented by Jean Laffite, a pirate. His slave trade business began around 1818. However, for the most part, slaves entering the port of Galveston were destined for other Texas cities and other states. Images of America: African Americans of Galveston presents the community life and accomplishments of Galveston slaves, the descendants of slaves, and descendants of those who migrated to Galveston after the Civil War. The book celebrates Galveston's African American culture from the 1840s to the 1960s.

Empty Mansions Bill Dedman,Paul Clark Newell, Jr.,2014-04-22 #1 NEW YORK TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Janet Maslin, The New York Times • St. Louis Post-Dispatch When Pulitzer Prize-winning journalist Bill Dedman noticed in 2009 a grand home for sale, unoccupied for nearly sixty years, he stumbled through a surprising portal into American history. *Empty Mansions* is a rich mystery of wealth and loss, connecting the Gilded Age opulence of the nineteenth century with a twenty-first-century battle over a \$300 million inheritance. At its heart is a reclusive heiress named Huguette Clark, a woman so secretive that, at the time of her death at age 104, no new photograph of her had been seen in decades. Though she owned palatial homes in California, New York, and Connecticut, why had she lived for twenty years in a simple hospital room, despite being in excellent health? Why were her valuables being sold off? Was she in control of her fortune, or controlled by those managing her money? Dedman has collaborated with Huguette Clark's cousin, Paul Clark Newell, Jr., one of the few relatives to have frequent

conversations with her. Dedman and Newell tell a fairy tale in reverse: the bright, talented daughter, born into a family of extreme wealth and privilege, who secrets herself away from the outside world. Huguette was the daughter of self-made copper industrialist W. A. Clark, nearly as rich as Rockefeller in his day, a controversial senator, railroad builder, and founder of Las Vegas. She grew up in the largest house in New York City, a remarkable dwelling with 121 rooms for a family of four. She owned paintings by Degas and Renoir, a world-renowned Stradivarius violin, a vast collection of antique dolls. But wanting more than treasures, she devoted her wealth to buying gifts for friends and strangers alike, to quietly pursuing her own work as an artist, and to guarding the privacy she valued above all else. The Clark family story spans nearly all of American history in three generations, from a log cabin in Pennsylvania to mining camps in the Montana gold rush, from backdoor politics in Washington to a distress call from an elegant Fifth Avenue apartment. The same Huguette who was touched by the terror attacks of 9/11 held a ticket nine decades earlier for a first-class stateroom on the second voyage of the Titanic. Empty Mansions reveals a complex portrait of the mysterious Huguette and her intimate circle. We meet her extravagant father, her publicity-shy mother, her star-crossed sister, her French boyfriend, her nurse who received more than \$30 million in gifts, and the relatives fighting to inherit Huguette's copper fortune. Richly illustrated with more than seventy photographs,

Empty Mansions is an enthralling story of an eccentric of the highest order, a last jewel of the Gilded Age who lived life on her own terms.

Lost Restaurants of Galveston's African American Community Galveston Historical Foundation with Greg Samford, Tommie Boudreaux, Alice Gatson and Ella Lewis, 2021 People of African descent were some of Galveston's earliest residents, and although they came to the island enslaved, they retained mastery of their culinary traditions. As Galveston's port prospered and became the Wall Street of the South, better job opportunities were available for African Americans who lived in Galveston and for those who migrated to the island city after emancipation, with owner-operated restaurants being one of the most popular enterprises. Staples like Fease's Jambalaya Café, Rose's Confectionery and the Squeeze Inn anchored the island community and elevated its cuisine. From Gus Allen's business savvy to Eliza Gipson's oxtail artistry, the Galveston Historical Foundation's African American Heritage Committee has gathered together the stories and recipes that preserve this culinary history for the enjoyment and enrichment of generations, and kitchens, to come.

Across the Deep Blue Sea Odd Sverre Lovoll, 2015 Across the Deep Blue Sea investigates a chapter in Norwegian immigration history that has never been fully told before. Odd S. Lovoll relates how Quebec, Montreal, and other port cities in Canada became the gateway for Norwegian emigrants to North America, replacing New York as the main destination from 1850 until the late 1860s. During

those years, 94 percent of Norwegian emigrants landed in Canada. After the introduction of free trade, Norwegian sailing ships engaged in the lucrative timber trade between Canada and the British Isles. Ships carried timber one way across the Atlantic and emigrants on the way west. For the vast majority landing in Canadian port cities, Canada became a corridor to their final destinations in the Upper Midwest, primarily Wisconsin and Minnesota. Lovoll explains the establishment and failure of Norwegian colonies in Quebec Province and pays due attention to the tragic fate of the Gaspé settlement. A personal story of the emigrant experience passed down as family lore is retold here, supported by extensive research. The journey south and settlement in the Upper Midwest completes a highly human narrative of the travails, endurance, failures, and successes of people who sought a better life in a new land. Odd S. Lovoll, professor emeritus of history at St. Olaf College and recipient of the Fritt Ords Honnør for his work on Norwegian immigration, is the author of numerous books, including *Norwegians on the Prairie* and *Norwegian Newspapers in America*--

Telex Iran Gilles Peress, Ghulām Ḥusayn Sā'idī, 1997 *Telex* : Iran is an extraordinarily personal document of a public event. The photographs Gilles Peress took over a five-week period during the 1979/80 seizure of the American embassy in Tehran form neither a study nor an analysis. Jesse and Sunny are soon to discover that there is a fine line between virtue and vice. Hellbangers Hb BONET ET AL, Pep Bonet, Rob Halford, 2021-09-13 The Hellbangers are the enfants terribles of a sleepy, diamonds rich country. Photographer Pep Bonet (1974, Mallorca) has been following Overthrust, a heavy metal band from Botswana, Africa, and shows us a growing, exciting and thoroughly organic heavy metal community. Ten years ago, one group existed. Today there are more than ten - and their fans are growing every year. The inhabitants of Botswana portrayed in this book are tattooed, loudly and proudly dress in leather, and play heavy death metal music. Imagine the DIY ingenuity of their 'costume creation' involving harvested animal skulls and other natural elements. With names like Demon and Gunsmoke, it would be easy though to think they are thugs, but We try to be examples. Rock is a wild thing, but also something for the heart, says Gunsmoke, the

heavy metal head. Here too, the lyrics of the songs are very critical towards societies, just like their western peers. Metal in Botswana is rebellious movement against authorities. This is the story of what looks at first to be an unlikely union, yet one which powerfully illustrates how music, how heavy metal music, has become a positively unifying force in an unlikely part of the world. With text contributions written by Pep Bonet and Steffan Chirazi, and a foreword by Rob Halford from Judas Priest.

The Lives of Images, Vol I: Repetition, Reproduction, and Circulation Stanley Wolukau-Wanambwa, 2021-06 The Lives of Images, edited by Stanley Wolukau-Wanambwa, is a set of contemporary thematic readers designed for educators, students, practicing photographers, and others interested in the ways images function within a wide set of cultural practices. The series tracks the many movements and lives of images--their tendency to accumulate, circulate, and transform through different geographies, cultures, processes, institutions, states, uses, and times. Volume I of the series, Repetition, Reproduction, and Circulation, addresses the multiple life cycles of the image--its modes of dispersion, reception, consumption, and aggregation--and the significance of technological reproduction for contemporary forms of social, cultural, and political life. The image is considered both a tool for liberation and a means of repression within the evolving structures of modern life. The essays consider the implications of the nature and effect of the reproducible image on the categories, shapes, and

aims of contemporary art and society. Further grounded by two interviews with practitioners in the field, Repetition, Reproduction, and Circulation promises to be an accessible, rigorous, and timely resource for all students, educators, and practitioners of photography.
