**Art, Money, Parties** Jonathan Harris, 2004-01-01 From the phenomenally successful new Tate Modern to the Dia:Beacon and Liverpool Biennial, contemporary visual art seems more than ever enmeshed in prominent public institutions and new forms of patronage, whether public commissions or corporate sponsorships. In *Art, Money, Parties*, renowned figures from the art world—including artists, dealers, and gallery owners—join scholars to consider these new institutional faces of contemporary art, their influence on art and artists, and how they affect the future of art. The essays in this collection, which originated at a conference organized by Tate Liverpool and the University of Liverpool, offer frequently contentious positions on the role of new institutions and patronage in the world of contemporary art. For example, while Liverpool Biennial director Lewis Biggs delivers a fairly optimistic assessment of the state of contemporary art, scholar Paul Usherwood unleashes a scathing critique of recent public art commissions. From opposing perspectives, gallery owner Sadie Coles reviews the history of her own involvement in the art world during the 1990s, and artist Stewart Home offers a sharply contrasting view of the value of the art produced in that decade. Rather than an attempt to craft a consensus, though, *Art, Money, Parties* is instead an effort to map out the position of—and possibilities for—contemporary art in a period of growing public sponsorship and attention. The vibrant, growing interest in contemporary art—evidenced by the success of the institutions under consideration—makes *Art, Money, Parties* a timely and indispensable contribution to any debate on the present and future of art.

**Crises of Imagination, Crises of Power** Max Haiven, 2014-03-13 Today, when it seems like everything has been privatized, when austerity is too often seen as an economic or political problem that can be solved through better policy, and when the idea of moral values has been commandeered by the right, how can we re-imagine the forces used as weapons against community, solidarity, ecology and life itself? In this stirring call to arms, Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable. Looking at the decline of the public sphere, the corporatization of education, the privatization of creativity, and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements, Haiven provides a powerful argument for creating an anti-capitalist commons. Capitalism is not in crisis, it is the crisis, and moving beyond it is the only key to survival. Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond

it.

**Seeing Politics** Sophie Harman, 2019-07-04 Pushing the boundaries of how we do research, how we communicate research, and what counts as scholarship in world politics.

**Cultures of Financialization** M. Haiven, 2014-10-10 Drawing on a wide range of case studies, Cultures of Financialization argues that, in our age of crisis, the global economy is more invested than ever in culture and the imagination. We must take the idea of 'fictitious capital' seriously as a way to understand the power of finance, and what might be done to stop it.

The Promise of Happiness Justin Cartwright, 2005-12-27 A powerful elegy to the intimacies and idiocies of family, The Promise of Happiness tells the story of an apparently ordinary family on the cusp of an extraordinary moment: the return of the family's prodigal daughter, Juliet. Her release from an upstate New York prison throws the Judds, formerly of London but now scattered, back together. For her father, Juliet's conviction for a theft she may not have committed had proven the disintegration of a dying society. For her mother, it is a source not only of resentment, but bafflement. And for all of the Judds, it is a moment of both intense joy and confusion. As Justin Cartwright's novel opens, Juliet's parents await her release and return to England. Charlie, their capable and successful son, has been charged with collecting her and softening her reentry into the world, his own life unsettled meanwhile by his glamorous girlfriend's pregnancy and his ambivalence towards it. Sophie, the youngest and most rebellious sibling, is in the midst of getting her chaotic life (mostly) under control. And Juliet herself is wounded, the perfect daughter made scapegoat for a victimless crime. With searching perception and gentle humor, Justin Cartwright gradually reveals the inner struggles of the five disparate Judds as they grapple with their conflicting feelings for each other and the moral dilemmas that beset them, bringing them finally together in what is ultimately a celebration of the layers and universal oddness of the love of a family.

**The International Recording Industries** Lee Marshall, 2012-11-12 The recording industry has been a major focus of interest for cultural commentators throughout the twenty-first century. As the first major content industry to have its production and distribution patterns radically disturbed by the internet, the recording industry's content, attitudes and practices have regularly been under the microscope. Much of this discussion, however, is dominated by US and UK perspectives and assumes the 'the recording industry' to be a relatively static, homogeneous, entity. This book attempts to offer a broader, less Anglocentric and more dynamic understanding of the recording industry. Its starting premise is the idea that the recording industry is not one thing but is, rather, a series of recording industries, locally organised and locally focused, both structured by and structuring the international industry. Seven detailed case studies of different national recording industries illustrate this fact, each of them specifically chosen to provide a distinctive insight into the workings of the recording industry. The expert contributions to this book provide the reader with a sense of the history, structure and contemporary dynamics of the recording industry in these specific territories, and counteract the Anglo-American bias of coverage of the music industry. The International Recording Industries will be valuable to students and scholars of sociology, cultural studies, media

studies, cultural economics and popular music studies.

Поколение обманутых физиков. Хроники 80-х Андрей Савельев, 2021-07-10 Выбрав физику как профессию, мы любопытствовали о законах природы и мечтали открыть сокровенные тайны мироздания. Поступая на Физтех, мы считали, что проходим жесткий отбор, чтобы получить на это право. Реальность оказалась совершенно иной. Физика – это просто профессия. Не хуже и не лучше другой. А в 80-х никаких открытий не требовалось. Требовались дармовые инженерные кадры, которые подпирают умирающую экономику. А после 1991 года физики в России не были никому нужны, и наука выживала само по себе – на энтузиазме тех, кто не рискнул или не смог уехать за границу. Олигархии физика не нужна.

Время перерождения Эдуард Дроссель, 2024-04-07 Молодой хакер Семён Косачевский мечтает написать нетленку-бестселлер о похождениях сумасшедшего маньяка. Он злоупотребляет седативными препаратами, из-за которых испытывает регулярные провалы в памяти. Помимо этого, Семён мучительно ищет ответ на вопрос: в каком мире он живёт – в физической реальности или же в искусственном симулякре a-la Матрица? Попав на крючок к двум опасным и влиятельным людям, хакер по их указанию внедряется на некий секретный объект – шарагу, – где творится нечто необъяснимое. Косачевский постепенно раскрывает тайны шараги, совершает неожиданные и пугающие открытия и, как ему кажется, вот-вот переродится в более крутую и совершенную версию себя.
