1001 Inventions Salim T. S. Al-Hassani, 2012 Modern society owes a tremendous amount to the Muslim world for the many groundbreaking scientific and technological advances that were pioneered during the Golden Age of Muslim civilization between the 7th and 17th centuries. Every time you drink coffee, eat a three-course meal, get a whiff of your favorite perfume, take shelter in an earthquake-resistant structure, get a broken bone set or solve an algebra problem, it is in part due to the discoveries of Muslim civilization.

How Jesus Became Christian Barrie Wilson, 2010-07-16 In How Jesus Became Christian, Barrie Wilson asks How did a young rabbi become the god of a religion he wouldn't recognize, one which was established through the use of calculated anti-Semitism? Colourfully recreating the world of Jesus Christ, Wilson brings the answer to life by looking at the rivalry between the Jesus movement, informed by the teachings of Matthew and adhering to Torah worship, and the Christ movement, headed by Paul, which shunned Torah. Wilson suggests that Paul's movement was not rooted in the teachings and sayings of the historical Jesus, but solely in Paul's mystical vision of Christ, a man Paul actually never met. He then shows how Paul established the new religion through anti-Semitic propaganda, which ultimately crushed the Jesus Movement. Sure to be controversial, this is an exciting, well-written popular religious history that cuts to the heart of the differences between Christianity and Judaism, to the origins of one of the world's great religions and, ultimately, to the question of who Jesus Christ really was – a Jew or a Christian.
