**Bradley Gilbert**

**FX Insider** Bradley Gilbert, 2012-08-31 There are plenty of books out there proclaiming to “tell all” or to “reveal the secrets” to foreign exchange (or forex) trading. There are plenty of “gurus” offering advice and suggestions on how to trade the market successfully. But how many of these people have any real industry experience in trading foreign exchange? Not many, I can tell you that right now. I’m Bradley Gilbert, and I worked on the front line for eighteen years at some of the biggest investment banks in the world—and I made over \$70 million in that time. Do I have your attention yet? So, if you really want to make money trading FX, follow me! This book has been written to give you, the retail trader, a real and practical guide to trading the forex markets. Based on my own personal experiences, incorporating the same skills and strategies used by commercial interbank traders and hedge funds, I can help you up your game in the markets. Believe me, running with the “big dogs” is a lot more fun and a lot more rewarding than running against them—and understanding this is a key part to your future success. Once you have completed the book, you’ll feel more like you’re a part of the market instead of a random speculator. Seeing the market through a new set of eyes will help you to take advantage of the many opportunities the market presents day after day, week after week. Good luck and happy trading!

**Beat the Forex Dealer** Agustin Silvani, 2009-08-07 The foreign-exchange market is often referred to as the Slaughterhouse where novice traders go to get 'chopped up'. It is one of egos and money, where millions of dollars are won and lost every day and phones are routinely thrown across hectic trading desks. This palpable excitement has led to the explosion of the retail FX market,

which has unfortunately spawned a new breed of authors and gurus more than happy to provide misleading and often downright fraudulent information by promising traders riches while making forex trading 'easy'. Well I'll let you in on a little secret: there is nothing easy about trading currencies. If you don't believe me then stop by Warren Buffet's office and ask him how he could lose \$850m betting on the dollar or ask George Soros why his short yen bets cost him \$600m not once but twice in 1994. What's wrong with these guys, don't they read FX books? In reality, the average client's trading approach combined with the unscrupulous practices of some brokers make spot FX trading more akin to the games found on the Vegas strip than to anything seen on Wall St. The FX market is littered with the remains of day traders and genius 'systems,' and to survive in the long-run traders have to realize that they are playing a game where the cards are clearly stacked against them. Have you ever had your stop hit at a price that turned out to be the low/high for the day? Bad luck perhaps? Maybe. What if it happens more than once? Do you ever feel like the market is out to get you? Well guess what, in this Zero Sum game it absolutely is. Covering the day-to-day mechanics of the FX market and the unsavoury dealings going on, Beat the Forex Dealer offers traders the market-proven trading techniques needed to side-step dealer traps and develop winning trading methods. Learn from an industry insider the truth behind dirty dealer practices including: stop-hunting, price shading, trading against clients and 'no dealing desk' realities. Detailing the dealer-inspired trading techniques developed by MIGFX Inc, consistently ranked among the world's leading currency trading firms, the book helps turn average traders into winning traders; and in a market with a 90% loss rate winning traders are in fact quite rare!

More than just a simple manual, Beat the Forex Dealer brings to life the excitement of the FX market by delivering insights into some of the greatest trading triumphs and highlighting legendary disasters; all written in an easy to read style. Make no mistake about it there is a lot of money to be made in currency trading, you just have to know where to look. Sidestepping simple dealer traps is one way of improving your daily p&l, but it is surely not the only one. Successful trading comes down to taking care of the details, which means skipping the theoretical stuff and providing only up-to-date, real-life examples while sharing the FX trading tips that have proved so profitable over the years. By stripping away the theory and getting down to the core of trading, you too will find yourself on the way to beating the forex dealer!

At no extra cost, or on-costs, Jim shares with his readers: · His custom indicators for the MT4/MT5 MetaTrader platforms, and more recently TradingView, as a download package at the end of the book. · An invitation to join his Facebook and Telegram Groups which have around 6,000 new as well as experienced Forex Traders contributing, including daily interaction with Jim. · Jim calls his trades live, shares his results and records weekly trade analysis videos on his YouTube channel. · Contact with Jim should you require any clarification on this trading method. Jim, from Queensland Australia, is a full-time Forex Trader and currently resides in Vietnam. This particular book provides a reliable and robust trading method which Jim has refined over many months on both demo and live trading. Jim uses the popular MetaTrader platforms to trade. These are more commonly referred to as MT4 or MT5, and there are many

reputable brokers who offer these platforms. As mentioned above, the method is now also available to be traded on the very popular web-based TradingView platform. Although Jim concentrates solely on Forex trading, there is no reason why you could not trade this method on other financial instruments offered by many brokers. These may include: · Oil · Precious metals · Commodities · Stock indices · Individual stocks · Cryptocurrencies You may not wish to conduct your actual trading off the Metatrader or TradingView platforms, however, as this method relies on the use of Jim's custom indicators which he had specifically built for Metatrader and TradingView, you will need to at least download a free MT4/MT5 or TV demonstration platform to enable you to conduct your trade analysis, and then place your actual trades on your preferred Broker's platform. *Forex Trading Never Disclosed Previously Shocking Secrets Revealed Raking You Millions-Buy Now!* Trader X, 2012-07-30 Wow, have you felt, living under a constant information overload waterfall? This is how it usually starts, you wake up in the morning and check the email in your phone, which leads you to a email with a link of an article, and then the article sends you to a couple more place, sand it never ends. See, I've been there. Book after book, course after course, then up to the latest and greatest webinar and to even better article from A guru. Day, after day, week after week, the cycle is viscous. See, in Forex there is no golden grail, there is no secret path. Everything that there was to be, has already happened.

The only question I have is, whose advice are you following? Are you following experienced traders, that are really trading their systems, or you are following the big heads on TV and the people with the big book. See the material that you are about to read, is a NO BS hard core to the bone content. NO fillers, no 40 pages on the current economic conditions. See, what the big heads are not telling you is that Forex is a huge market, but it is not controlled and centralized. As far as you are concerned Forex is as big as your broker. And if your broker is not a price maker, which is in most of the cases, you are ready to be slaughtered in the daily news events or any other tricks the broker will play on you. See before I continue, you need to know something, you need to stop the chase of the golden calf and anchor on a solid material, like the material presented in this book. I was lucky to learn the ropes from a master in Forex in the beginning of my Forex journey. I would call him Mr X for confidentiality purposes. Mr. X responded to a newbie question in one of the broker forums, revealing the plot of the broker? From then on I knew I had to find this guy and learn what he knows. Unfortunately the broker immediately closed the tread and that trader's free advice was no longer available. I had PM ed the guy and had his email. For me this guy was the only light in the Forex channel of broker lies and gurus fake advice. But see there was a problem? This guy was not your regular guru trader, he has been doing his routine Forex stuff for 25 years and for him trading was nothing more than a mundane chore. He was bringing 25 to 30k a month on a regular bases, and was not excited to hear about me, regardless what I was offering. Eventually he agreed on a phone call and a several meetings. The guy is no longer around, but everything that learned from him is comprised in this book. So you have a choice to take this

material, study it and make it your own and become a successful trader, or keep wandering in the jungle of information overload. Make it easy for yourself, by this book and stop the viscous cycle. I have done all the hard work for you. You are just a couple clicks away from passing over. Take a click of faith. See you on the other side.

**FOREX TRADING: the Completed Fundamental and Technical Analysis** George DUST, 2021-11-02 Being a successful Forex trader is only about 2 things: being a technical and fundamental analyst. If you want to immerse yourself on a perfectly balanced detailed discussion about these 2, this is the ebook you're looking for. Included in the pages are all the major factors that affect the currency market, as well as the financial world in general. In Forex, you can't win if you don't analyze, and with this, you can get the most comprehensive reading material in both technical and fundamental analysis. Though the insights and explanations written here are done with in-depth research and analysis, the author makes no claims of being a financial expert nor of being a money-making guru. Wherever you look on the internet these days, the online portal is so filled with these types of guys always babbling about empty promises - this is not that type of book. What you can read and grasp in the pages that follow are deep scrutiny that pertains to the Forex market, as well as the surrounding factors that make the realm of currency exchange appear the way it does. The 2 main topics to be discussed and elaborated are just the technical and fundamental aspects of Foreign Exchange. Anything that goes beyond the 2 are also touched, but only to a degree that supplements your understanding as a Forex enthusiast. As what's mentioned earlier, Forex is not a get-rich-quick scheme. There are no guarantees of being extremely rich as you read this book. There is a guarantee however, that your finances will improve if you study the in depth discussions stated here and put them into practice.

*Forex Price Action Secrets : Revealed Shocking Underground Secrets and Weird But Profitable Tricks to Easy Instant Forex Millionaire* Trader X, 2015-03-09 You will not find this education at you brokers how to section. Most likely you will not find this information anywhere on this book section on any other book store. I have paid thousands of dollars on exclusive groups and paid forums to collect the information presented in this book. As you can imagine these are the highly guarded secrets of the elite of the FOREX traders, no one gives their living away, unless you pay them a price worth their living. However I have decided to make this information for ridiculously low price, because I am fed up with the brokers and the big banks taking advantage of the regular retail trader. Let me ask you a question? When was the last time you make money with FOREX? Even further more how much money you are willing to lose, until you give up? How long you will continue to give your hard earned money to the broker? Just like you I started 5 years ago with high hopes of quitting my job and leaving the live I deserve with FOREX. My hopes and aspirations were quickly crashed and my dreams went to the dump. First I lost 1000, then 5000, 10k , how much longer I could continue like that, how much longer I could endure the ridicule the jokes of my family and the frown on the face of my wife. It was painful, sitting all day in front of the computer, until you can't see any longer and everything including the platform and your mind become blurry. I know the pain I have been there. This continued for year, until one morning I was ready to quit, I was going to give it a last try and throw that FOREX

staff in the garbage, out the window. I stumbled on a rear tread, which since then has been banned, by the broker that was holding the forum. Luckily the tread continued under the broker's radar for while, and gathered a bunch of comments an support. Finally the tread from the trader X was discontinued. I was in dis pare, that was the only hope and light, I have seen for a long time. I was applying the advice from the trade and things were starting to work for me. Fortunately I was able to PM the trader and begged him to agree on a 20 min conversation on the phone. Trader X was not a guru, not your regular internet promoter mojo. He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The

book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?

He was quietly raking in thousands of dollars a month for years, he was not excited about the next trade, his heart beat was not raising before he pooled the trigger. See, he has been doing this trading staff for so long it has become a boring procedure, rather a morning an afternoon chore, something like putting the garbage out on garbage day. He explained that he learned from the MASTER, I did not proceed to ask him who was the MASTER, since I mainly was concerned with him teaching him every little bit of what he knew about trading. He didn't not agree to spend time teaching me on our first conversation, regardless of how much I offered to pay him. See, for him money was not a issue. Finally on my third approach he agreed to show me what the MASTER had thought him many years ago. What is comprised in the pages of this book will be worth pure gold to you. This book is down to the ground no no sense, real trading knowledge. It gives step by step instructions

with real trade examples. This book is not your regular hog wash advice that you will find from your broker and the other magic bullets and seven step series that you see on this site. This book teaches you how to trade like the pros. Shows you how the big banks and foreign nationals and institution trade. The book opens your eyes to how to piggy back on the big institutional traders and win. Ninety Five percent of the people that trade the Forex market lose money and give up. The market is continually replaced by fresh blood like yourself. Don't become part of the statistics, read this book and get a map to success in FOREX. You can make a success in FOREX if you know what you are doing. Yes you can make a living with FOREX and quit your job. You can achieve your dreams. Buy this book and find out How?

**Forex Strategy** Trader X, 2016-07-10 If you are already making thousands of dollars trading Forex and make a full time extravagant living taking a couple of trades a month, then, please skip this book and go find something else to do. So, on the other side... do you live in a self denial chasing the next best system? STOP... Enough is enough, enough ridicule from your relatives and friends, it's time to show your guts. Face it, think about it, what would you think if you were on the other side looking through the eyes of your family and friends. All you see is a loser, getting ups and downs totally controlled by the next guru they read about. Doode, this gota stop! Trust me, I know you feel the pain. I can kind of still remember it...kind of hard to do when I am sitting on my yacht in the Caribbean sipping from something that comes with umbrella on top. See, it didn't use to be that way, not too long, couple of years ago... but I will tell you about that later in my letter Ha! Forex trading is not all it is cracked up to be, it is a hard game controlled by robots and banks and foreign

sovereign institutions. Keep reading if you know where I am coming from... Things didn't used to be all pink for me either, pain, loss, closed one losing account, opened second one, heard of such and such broker giving a certain deal on lots opened another account, lost all the money, started in the mini, macro, regular lots... Does that sound familiar, try to look from the outside, Forex is for crazy people, crazy winners or crazy losers. Now, if this is your first contact with Forex, I am really sorry you had to hear this small talk. I would rather be the nice guy, rather be the good news bearer, but please, don't kill the messenger, this is the bloody truth in Forex. You may be mad at me at this moment, but soon will come the moment you will thank me . Or you would rather stumble on a nice guru telling you all the lies, and how he can help you open a 10k account with a secret advantage. Or worse... He can even offer to manage your 10k, if you so willingly send him a check for the whole amount. The book you are about to read is the hard learned secrets of the successful traders and brokers and I am putting it all out for you. See I don't really need the 10 bucks, but I am making sure you appreciate the value you are getting. I have made my share trading the market, paid for all the yachts cars and toys and the farm, now it's your turn. I am sick and tired of the pain in the community and all the retail traders like yourself slaughtered by the hefty brokers. It is time to pay back, it is time for me to give back and to make sure the small trader has evened the plates no more secrets and golden grails uncovered. All the knowledge I am presenting in this book, comes from the school of hard knock, expensive paid Forex forums, where real traders hang out, not bothered by the rookies. Things I overheard on the golf course? Tell me about that, one of the guys I used to golf with executed only one trade a month, we used to call him the ONE

TRADE GUY... How ridiculous that is? Hanging around, playing golf all month until a certain currency goes to a such and such monthly level, and pull the trigger to wipe out all the people with red eyes staring at the screens day and night, fighting with their spouses, wasting their lives in front of the broker platforms. I know what you are thinking...this guy is full of it! Well, I am fed up with the usual story that hits every newbie trader like you and I don't want you to have anything to do with it. So, I am giving you a choice: take this book read it, study and devour every single strategy, because is real, out of the trenches uncompromised, winning truth coming from a real trader. Take the leap of faith, you are a couple mouse clicks away from finding the real freedom and trading like a pro. Take the click of faith! See you on the other side!

**Forex Price Action Scalping** Trader X, 2015-04-14 I hope you sitting down, cause I am laughing on the floor at the notion of hearing, one more little talk about the Forex Indicators, and how you can be the next Forex Millionaire using such and such crossing lines See, the reason there are winners and losers in life and Forex as well, is some can see deception coming from a 100 miles away and some refuse to look at the truth. See, I was taken for a sucker, and was brought on a rollercoaster of books, trainings, Forex education like there is no tomorrow... But it took me nearly 3 years, to wake up from the magic little cozy balloon of guru's webinars and the next Big Talking head. During this time of course, I was spending thousands of dollars on books and Forex Robots and all kind of

crap...you know what I am talking about. My family and friends, thought I have lost my mind, spending all this time in front of the screen(you may recognize yourself here) and looking at stupid charts I kind of had become the laughing stock of the company Look, the Forex Head is Alive Eventually it got so bad, that I lost all interest in trading and was ready to quit... One afternoon, I overheard a conversation while at the golf course...yeah I am a snooper. There were two guys, sipping on something that came with a small umbrella on top and one of them was saying something so impressive, that made my ears become as big as an elevator shaft. The guys were speaking of a stock trader, turn to be a Forex trader, that was raking in the vicinity of 20 to 30k a month, from his house computer, doing it with couple trades a month. Listen to this, the guy was not a screen struck maniac like myself, he was not some kind of national television speaker, it turned out he was a member of the same golf club, I was a member too. Now, you can imagine my excitement and hopes came up, I was determined to meet this guy and squeeze every once of knowledge out of him... However, there was a big problem, that trader, I will call him trader X, for familiar reasons, did not go to the bars, was not in the social networks, and was not holding any training and educational courses on how to be the next forex millionaire. He was quietly running the Forex Cash machine of his, had a large family and was spending time in his huge house. Now, I came in with a plan, where I would meet Trader X at one of the Club Events...you know those fund raiser things, Trader X was known for one thing, dumping a large sums of money on different causes that he cared about. I was able to talk Trader X in to giving me a half hour short consult. At the end I offered trader X to pay him for his services, and that's where my frustration became full, Trader X was not

for sale. It didn't matter what I offered...whatever that was, it was all I had, he would not chime in to my idea of training me. Finally after much bugging him, he gave in and we started a regular weekly meetings, but he refused to get any money. He was saying...Boy you are my fun today, all that trading is too boring and makes me sad. I was like, K, if it is that boring, make me sad too you know, let the stashes of cash come down. Eventually I moved to a different city and never heard of Trade X again. What I am about to reveal in this book is the real dirty truth about Forex and how you too can be the next Trader X. Forex trading is not all it is cracked up to be, the real winners are not your daily gurus, I will teach you everything that Trader X Taught me and more. You have a choice, keep going in circles, looking for the Holy Grail of Froex, or move your fingers, make a few mouse clicks and meet me on the other side. Take a click of faith! See you on the other side!
