**The Cutting-Off Way** Wayne E. Lee,2023-08-10 Incorporating archeology, anthropology, cartography, and Indigenous studies into military history, Wayne E. Lee has argued throughout his distinguished career that wars and warfare cannot be understood by a focus that rests solely on logistics, strategy, and operations. Fighting forces bring their own cultural traditions and values onto the battlefield. In this volume, Lee employs his cutting-off way of war (COWW) paradigm to recast Indigenous warfare in a framework of the lived realities of Native people rather than with regard to European and settler military strategies and practices. Indigenous people lacked deep reserves of population or systems of coercive military recruitment and as such were wary of heavy casualties. Instead, Indigenous warriors sought to surprise their targets, and the size of the target varied with the size of the attacking force. A small war party might cut off individuals found getting water, wood, or out hunting, while a larger party might attempt to attack a whole town. Once revealed by its attack, the invading war party would flee before the defenders' reinforcements from nearby towns could organize. Sieges or battles were rare and fought mainly to save face or reputation. After discussing the COWW paradigm, including a deep look at Native logistics and their associated strategic flexibility, Lee demonstrates how the system worked and evolved in five subsequent chapters that detail intra-tribal and Indigenous-colonial warfare from pre-contact through the American Revolution.

**In/visible Sight** Angela Wanhalla,2015-12-24 In/visible Sight is a fascinating exploration of a little-known part of our history: the lives of part-Māori, part-Pākehā New Zealanders in the nineteenth century. Focussing on interracial intimacy between Ngāi Tahu and Pākehā settlers, it explores how intermarriage played a key role in shaping colonial encounters. As Ngāi Tahu sought to fight the alienation of their land and protect their natural resources, marriage practices and kinship networks became an increasingly important way to control interaction with Pākehā. The book also explores the contradictions and ambiguities of mixed-descent lives, offering new insights into New Zealand's colonial past.

**RF-101 Voodoo Units in Combat** Peter E. Davies,2019-03-21 McDonnell's F-101 Voodoo series was in many ways the most interesting of the 'Century Series' fighter programmes of the 1950s, partly because the type's design and intended mission changed radically during a 40-year career. Originally designed as a fighter-bomber, it was converted to be a reconnaissance aircraft, serving alongside the U-2 and RF-8 Crusaders during the Cuban Missile Crisis and the Vietnam War. Although it gained a reputation as a difficult aircraft to handle, the jet's supersonic speed and newly-developed camera suite enabled it to conduct vital low-altitude photo-reconnaissance missions over heavily-defended target areas. In combat, the RF 101 was usually 'first in-last out' for strike missions. This made it a ready target, with a solo aircraft flying straight and level to gather target photo evidence at low-altitude offering enemy gunners plenty of opportunity to shoot the Voodoo down. This study tells the combat stories of this extraordinary aircraft, highlighting the difficulty of the missions on which it was sent and the courage of its pilots.

*A Pearl in Peril* Christina Luke,2019-03-07 Known as the Pearl of the Mediterranean, Izmir invokes a city and countryside blessed with good fortune; it is known to many as the homeland of Ephesus, Bergama, and Sardis. Yet, Turkey's third largest city has an especially vexed past. The Greek pursuit of the Megali Idea leveraged Classical history for 19th century political gains, and in so doing also foreshadowed the Asia Minor Catastrophe. Princeton University's work at Sardis played into the duplicitous agendas of western archaeologists, learned societies, and diplomats seeking to structure heritage policy and international regulations in their favor, from the 1919 Paris Peace Conference to the League of Nations. A Pearl in Peril reveals the voices of those on the ground. It also explores how Howard Crosby Butler, William Hepburn Buckler, and William Berry penetrated the inner circle of world leaders, including Woodrow Wilson, Lloyd George, and Eleftherios Venizelos. On the smoldering ashes of Anatolia's scorched earth, foreign intervention continued apace with plans for large-scale development. A Pearl in Peril tackles the untold story of Julian Huxley's admiration of the US Tennessee Valley Authority's principals of persuasion in the context of the industrial landscapes and pursuit of modernity in the Aegean. The promise of UNESCO, too, brought diplomacy dollars deployed to foster mutual understanding through preservation programs at Sardis. Yet, from this same pot of money came support for open intelligence at the international fairs held in Izmir's Kültürpark, a turnkey battleground of the Cold War. Ironically, it was UNESCO's colossal Abu Simbel project in Egypt that led the US to abandon their preservation initiatives in Turkey. Five decades on, groves of organic olives, marble quarries and gold mines not only threaten the erasure of sacred landscapes, but also ensure the livelihood of local communities. Ultimately, A Pearl in Peril offers a bold assessment of diplomatic practice, perspectives of contemporary heritage, and the challenges of unprecedented expansion of city and countryside.

**Manuals Combined: WARRIOR TRAINING CENTER Air Assault School Handbook, 101st Airborne Division (Air Assault) The Sabalauski Air Assault School Handbook & 101st Airborne Division (Air Assault) Gold Book** , Air Assault is a combat insertion unit using helicopters to transport and insert soldiers into battle, provide medical evacuation, provide close air support, provide resupply operations. It is usually a company or bat-talion sized element. The term Air Assault derives from two types of operations known as Air Mobility and Vertical Envelopment. Air Mobility Operations were de-veloped by the German Army during WWII in the 1930’s. The US Army soon adopted this method of offensive operations in 1941 using wooden gliders. The glider was assisted into the air by being towed by a larger aircraft and then released. The pilot had to navigate the large glider loaded with a team of infantry soldiers to the landing zone behind enemy lines, at night and attempt to land safely. Once the pilot landed the glider, he would join the mission as another infantry soldier with the team that he flew in. Although the gliders and techniques used were advanced for that time period they did pose some disadvantages. Once the aircraft was landed safely that team of soldiers were cut off from allied troops. Pilots had to be cross trained with infantry tactics so he could operate as both roles. The air mobility glider was abandoned after WWII after the invention of the helicopter. PREFACE 1 November 2011 1. The Sabalauski Air Assault School (TSAAS) is a FORSCOM TDA unit that trains leaders and Soldiers assigned to the 101st Airborne Division (Air Assault), as well as other Army units and armed services in several courses. By conducting the Air Assault and Pathfinder Courses The Sabalauski Air Assault

School develops technically proficient and confident Soldiers capable of safely executing immediate and sustained air assault operations. The school also trains and qualifies military Rappel Masters, Fast Rope Masters and SPIES Masters in the application of infiltration and extraction techniques. The school provides quality basic airborne refresher and jumpmaster refresher training to airborne capable units. Finally, the school provides command and control of the 101st Airborne Division (Air Assault), Screaming Eagle Parachute Team. 2. This handbook is designed to facilitate the mission of the school, serving as a baseline of information for the Air Assault Course. It is not a substitute for applicable Army regulations, field manuals, training circulars, or technical manuals, but it is designed to complement the guidance in these publications in the area of air assault operations. The 101st Airborne Division (Air Assault) disclaims any responsibility for incidents occurring while applying these procedures. 3. The proponent for this handbook is the Commander of The Sabalauski Air Assault School. This 2011 update provides users with the latest doctrinal information regarding Air Assault Operations. Users of this publication are encouraged to recommend improvements or changes in writing to ACoF S, G3/5/7/DPTM; ATTN: AFZB-K-GT-AA, Fort Campbell, KY 42223-5000. The 101st Airborne Division (Air Assault) has a long and rich heritage. As the world’s only functional Air Assault Division, the 101st Airborne has pioneered the development of Air Assault tactics, techniques and procedures (TTPs). These tactics were quantifiably demonstrated in 1991 during Operation Desert Storm and most recently during Operation Enduring Freedom and Operation Iraqi Freedom. We are currently at war with dangerous and adaptive terrorist forces in complex environments. In response, the Division continually refines its TTPs, exploiting our unique capabilities to defeat our nation’s enemies. This reference publication, The Gold Book June 2014, re-establishes the baseline for the planning and execution of Air Assault operations.

*Books As Weapons* John B. Hench, 2016-10-15 Only weeks after the D-Day invasion of June 6, 1944, a surprising cargo—crates of books—joined the flood of troop reinforcements, weapons and ammunition, food, and medicine onto Normandy beaches. The books were destined for French bookshops, to be followed by millions more American books (in translation but also in English) ultimately distributed throughout Europe and the rest of the world. The British were doing similar work, which was uneasily coordinated with that of the Americans within the Psychological Warfare Division of General Eisenhower's Supreme Headquarters, Allied Expeditionary Force, under General Eisenhower's command. *Books As Weapons* tells the little-known story of the vital partnership between American book publishers and the U.S. government to put carefully selected recent books highlighting American history and values into the hands of civilians liberated from Axis forces. The government desired to use books to help disintoxicate the minds of these people from the Nazi and Japanese propaganda and censorship machines and to win their friendship. This objective dovetailed perfectly with U.S. publishers' ambitions to find new profits in international markets, which had been dominated by Britain, France, and Germany before their book trades were devastated by the war. Key figures on both the trade and government sides of the program considered books the most enduring propaganda of all and thus effective weapons in the war of ideas, both during the war and afterward, when the Soviet Union flexed its military might and demonstrated its propaganda savvy. Seldom have books been charged with greater responsibility or imbued with more significance. John B. Hench leavens this fully international account of the programs with fascinating vignettes set in the war rooms of Washington and London, publishers' offices throughout the world, and the jeeps in which information officers drove over bomb-rutted roads to bring the books to people who were hungering for them. *Books as Weapons* provides context for continuing debates about the relationship between government and private enterprise and the image of the United States abroad. To see an interview with John Hench conducted by C-SPAN at the 2010 annual conference of the Organization of American Historians, visit: <http://www.c-spanvideo.org/program/id/222522>.

Auraria E. Merton Coulter, 2009-09-01 The first gold rush in American history occurred in north Georgia; it preceded the mining booms in the West by almost two decades. Published in 1956, *Auraria* tells the story of the mining town at the center of Georgia's gold frenzy. *Auraria*, which reached its zenith in the 1830s, eventually faded into a ghost town by the twentieth century. E. Merton Coulter gives readers more than a local study by placing *Auraria*'s fascinating story in the context of larger regional and national developments.

The 101st Airborne in Normandy, June 1944 Yves Buffetaut, 2017-08-19 “A condensed ‘Band of Brothers’ with profiles of Richard Winters and Easy company as well as the German and American Generals . . . 5 stars” (Army Rumour Service). 101st Airborne Division was activated in August 1942 in Louisiana, and its first combat mission was Operation Overlord. On D-Day—June 6, 1944—101st and 82nd Airborne dropped onto the Cotentin Peninsula hours before the landings, tasked with capturing bridges and positions, taking out German strongpoints and batteries, and securing the exits from Utah and Omaha Beaches. Things did not initially go smoothly for 101st Airborne, with cloud and antiaircraft fire disrupting the drops. Casualties were high in some areas due to heavy pre-registered German fire. Nevertheless, the paratroopers fought on, and they did manage to secure the crucial beach exits, even if they only achieved a tenuous hold on some other positions. A few days later, 101st Airborne was tasked with attacking the German-held city of Carentan as part of the consolidation of the US beachheads and establishment of a defensive line against the anticipated German counteroffensive. The 101st forced its way into Carentan on June 10 and 11. The Germans withdrew the following day, and a counteroffensive was put down by elements of the 2nd Armored Division. This fully illustrated book details the planning of the airborne element of D-Day and the execution of the plans until the troops were withdrawn to prepare for the next big airborne operation, Market Garden. “Always good to read a detailed account of one division’s contribution to Operation Overlord. The detail is exceptional and fascinating.” —Books Monthly
