Graham Robson

Fiat 131 Abarth Graham Robson,2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?

Fiat 131 Abarth Franco Carmignani,2022-12-06 The entire technical evolution and the competition history of a glorious rally car enclosed in a single volume.

The Complete Book of the World Rally Championship Henry Hope-Frost,John Davenport,2004 For 30 years some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize: the World Rally Championship. Now a multi-million dollar, global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver, plus highlights of all the significant cars.

Ford Escort RS1800 Graham Robson,2008-06-15 The Ford Escort MkII was a worthy successor to the original MkI. It became Ford's most successful rally car and the cars are still winning historic events today. It brought new standards to the sport, inspiring many others to copy it. Contains full details of every 'works' Escort MkII that went rallying, plus driver and personality profiles, and detailed car evolution.

Lancia Delta 4X4/Integrale Graham Robson,2010-08-01 This book explains how the HF 4WD evolved over the years – first into the Integrale with its original 8-valve engine, then the Integrale 16V, and ultimately into the Integrale 16V Evo 1 (or 'Deltona', as it was affectionately known). This compact, five-door Lancia dominated world-class rallying for six years, winning innumerable events, World Championships for Drivers, and World Championships for Manufacturers. Alongside the cars, driving heroes such as Markku Alan, Didier Auriol, Miki Biasion, Juha Kankkunen and Carlos Sainz also became legendary in this period.

Lancia Stratos Graham Robson,2007-02-01 This book describes the birth, development and rallying career of the Lancia Stratos, Europe's very first purpose-built rally car, in the mid/late 1970s, providing a compact and authoritative history of where, when and how it became so important to the sport. Written by a world renowned motoring historian and heavily illustrated, this is a key work of this subject.

Lancia 037 Peter Collins,2008-03-15 The world of rallying was changed forever on January 1st 1982 with the introduction of the new Group B rules. These virtually gave manufacturers carte blanche to design the fastest car they could for world rally special stages, so long as they built at least 200 identical examples. This is the story of Lancia's mid-engined and supercharged rally. The reader is taken from initial thinking about the car and conception, through development to the full history of its rallying lifetime with the help of the car designer and chief engineer, Ing Sergio Limone. Featuring many of Limone's own photographs during development, and interviews with team members. Illustrated with 250 stunning and rare rally action photos.

Fiat 131 Abarth Rally. Ediz. italiana e inglese Beppe Miliani,Mauro Parra,2017

Ford Escort RS Cosworth & World Rally Car Graham Robson,2008-12-15 The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World Rally Car took over in 1997, and also enjoyed years of success.

That simple wish led to an apprenticeship that was to change Bill Cakebread's life forever as the training that Associated Motorcycles Limited provided enabled achievements that he never dreamed possible. This book gives a unique insight to the atmosphere and excitement of working in a motorcycle factory. It is an inspiring story, supported by a host of period photographs and rare documents, which provides a fascinating record of work within the British motorcycle industry in the final years of its decline into oblivion.

Porsche Carrera Johnny Tipler,2014-05-31 Porsche Carrera follows the development and design of the Carrera car dynasty, from the origins of the Carrera line in the 550 and 356 models through the highly tuned race cars of the 1960s to the largely hand-crafted, air-cooled cars of the 1970s and the 1980s. The book features detailed profiles of all Carrera models, including roadgoing and race models, prototypes, special builds and rare cars; in-depth explorations of the engineering and tuning of the cars and buyer's guides for the different models. Also included are a series of interviews with racing drivers such as Sir Stirling Moss, Derek Bell, John Surtees and Gijs van Lennep, and key Carrera figures such as designer Richard Soderberg and Klaus Bischof, head of the Porsche Rolling Museum. Foreword by Jurgen Barth, and over 400 colour photographs, many specially commissioned.

Speed Queens Rachel Harris-Gardiner,2023-04-06 Speed Queens is a history of women in motorsport, from the very beginning in 1897 to the modern era. Tracing the different ways that

women have found into motor racing and rallying, it covers over a century of stories across the world. Each chapter takes a particular event as an introduction to a racer and her contemporaries, taking a different theme each time and moving forward through history. Circuit racing and rallying are both covered. Much more than a collection of profiles and lists of achievements, it explores ideas including sportswomen as performers in the early 20th century, women, death and risk and how the expansion of small car production in the 1960s benefitted female drivers. Some of the best-known female competitors such as Michele Mouton (rallying) and Lella Lombardi (Formula 1) make appearances, but Speed Queens is not just concerned with big names and historic “firsts”. For every woman to be the first to do something on wheels, there were usually several others vying for that honor. In this book, they are given back their place in the story and their relationships to one another examined.
