Encounters in Video Art in Latin America Elena Shtromberg ,Glenn Phillips,2023-02-14 With insightful essays and interviews, this volume examines how artists have experimented with the medium of video across different regions of Latin America since the 1960s. The emergence of video art in Latin America is marked by multiple points of development, across more than a dozen artistic centers, over a period of more than twenty-five years. When first introduced during the 1960s, video was seen as empowering: the portability of early equipment and the possibility of instant playback allowed artists to challenge and at times subvert the mainstream media. Video art in Latin America was—and still is—closely related to the desire for social change. Themes related to gender, ethnic, and racial identity as well as the consequences of social inequality and ecological disasters have been fundamental to many artists' practices. This compendium explores the history and current state of artistic experimentation with video throughout Latin America. Departing from the relatively small body of existing scholarship in English, much of which focuses on individual countries, this volume approaches the topic thematically, positioning video artworks from different periods and regions throughout Latin America in dialogue with each other. Organized in four broad sections—Encounters, Networks and Archives, Memory and Crisis, and Indigenous Perspectives—the book's essays and interviews encourage readers to examine the medium of video across varied chronologies and geographies.

Elijah - Women's Bible Study Participant Workbook Melissa Spoelstra, 2018-08-07 Go the distance in the life of faith. Life is like a rollercoaster. One day it seems that everything in life is good, and the next day it can feel like everything is falling apart. Then there are those in between days when we're coasting along without much thought to the highs or lows. The prophet Elijah experienced this rollercoaster ride as well. One moment he was hiding out in the wilderness during a famine, being fed by the ravens, and the next he was on the mountaintop where God showed up in a powerful way with fire and then rain. Even Elijah grew weary of all the ups and downs, telling God, "I have had enough" (1 Kings 19:4). He needed spiritual stamina in order to keep on going and fulfill all the plans God had for his life. We do too! In this six-week study grounded in 1 and 2 Kings, we will examine the life of the prophet Elijah, an ordinary man who did extraordinary things for God in the midst of the highs and lows of life. We'll learn some of the spiritual stamina secrets that helped him to hold on and persevere in faith, including practical habits related to making decisions, caring for the soul, accepting his circumstances, mentoring, and finishing well—which was his ultimate legacy. Whether we're currently in a mountaintop season where we're experiencing God's power and blessing, a valley season where we feel like running away, or somewhere in between, Elijah's life will inspire us to go the distance in the life of faith. Best of all, his story will challenge us but not shame us, because we'll discover that Elijah was just as human as we are. He doubted and struggled just as we do, but ultimately, he chose to believe God. As we study his life, we will grow in faith and develop spiritual stamina that will help us not only to survive but actually thrive in every season. Bible Study Features: Examine the life of the prophet Elijah. Learn practical disciplines that give us spiritual stamina for every season in life. Grow in faith and be inspired by an ordinary man who did extraordinary things for God. Be enabled to not just survive but thrive in the midst of the ups and downs of life. The participant workbook, to be used along with the study's DVD, includes five days of lessons for each week, combining study of Scripture with personal reflection, application, and prayer. Other components for the Bible study, available separately, include a Leader Guide, DVD with six sessions of about 25 minutes each, and boxed Leader Kit (an all-inclusive box containing one copy of each of the Bible study's components). A companion Prayer Devotional is

also available.

Proceedings of the 2nd International Student Conference on Linguistics (ISCL 2022) Mirsa Umiyati,I Nyoman Kardana,Aron Meko Mbete,I Gusti Made Sutjaja,Dewa Komang Tantra,Nyoman Sujaya,Ni Wayan Kasni,I Wayan Budiarta,Rika Purnama Sari,2023-03-02 This is an open access book. Linguistics as a field of study discussing languages plays a fundamental role in the life of humans. It affects the human way of thinking in various aspects. In turn, there is a pervasive influence of language on our daily lives. The impact is that the work of linguists is no longer only managing language in one discipline, but relating and interconnecting the linguistics with other fields at a further level. Linguistic studies have now been carried out in various fields including psychology, anthropology, neuroscience, law, philosophy, computer science, communications, and education. Linguistics enthusiasts find practical solutions for their linguistic training in the computer, law, and forensic industries, teaching foreign languages and English as a second language, translation and interpretation, speech pathology, lexicography, and policymaking in government and education. Nowadays, these jobs are, however, no longer operational but encounter many challenges, especially in the global era. The digital revolution has created new avenues for language use and new communication modalities. The existence of technology mediates our linguistic and social interactions. The pervasive influence of technology on human development has the potential to influence language acquisition and change social behavior. In this global era, many challenges in human life arise. Our brave new digital world has caused some discord for language activists – and if harsh text speakers do not feel good, woe ensues our new diet of round-shaped emojis. Our language and our relationship to language have developed to keep pace with cultural changes. Furthermore, since the spread of the COVID-19 pandemic, society has been carrying out communication online through the internet and social. To , society has been accustomed to doing it that way. One of the challenges linguistics studies are facing is the implementation of appropriate language capacity. There are conditions for the use of inaccurate languages according to standardized rules in communication through online media. To solve this, reciprocal interactions are also important for creating a pool of different perspectives among the smart human community. In total, digital technologies are also changing the ways we learn and teach, as well as the ways we compose and research. These changes are occurring throughout the academy, including the humanities — a set of disciplines less associated with technology. In an effort to vanquish the challenges trending in the linguistic study in order to depict the future perspectives on it established in the description above, fresh ideas from the younger generations are needed. For that purpose, the Graduate School of Linguistics, the Postgraduate Program University of Warmadewa in collaboration with other institutes presents an international academic discussion forum in the form of a conference. This event is themed “The 2nd Student Conference on Linguistics: Trends and Future Perspectives in Language study and Language Teaching”. Through the forum students from various parts of the world are expected to share bright and innovative ideas to discover solutions to the problems and challenges faced by linguistics today and in the coming future.
