Dictionary of Louisiana French Albert

Valdman, Kevin J. Rottet, Barry Jean Ancelet, Richard Guidry, Thomas A. Klingler, Amanda LaFleur, Tamara Lindner, Michael D. Picone, Dominique Ryon, 2010-09-30

The Dictionary of Louisiana French (DLF) provides the richest inventory of French vocabulary in Louisiana and reflects precisely the speech of the period from 1930 to the present. This dictionary describes the current usage of French-speaking peoples in the five broad regions of South Louisiana: the coastal marshes, the banks of the Mississippi River, the central area, the north, and the western prairie. Data were collected during interviews from at least five persons in each of twenty-four areas in these regions. In addition to the data collected from fieldwork, the dictionary contains material compiled from existing lexical inventories, from texts published after 1930, and from archival recordings. The new authoritative resource, the DLF not only contains the largest number of words and expressions but also provides the most complete information available for each entry. Entries include the word in the conventional French spelling, the pronunciation (including attested variants), the part of speech classification, the English equivalent, and the word's use in common phrases. The DLF features a wealth of illustrative examples derived from fieldwork and textual sources and identification of the parish where the entry was collected or the source from which it was compiled. An English-to-Louisiana French index enables readers to find out how particular notions would be expressed in la Louisiane.

The Jupiter Ace Manual Steven Vickers, 2022-03-31

Launched at the peak of the legendary 1980s microcomputer rivalry, the Jupiter ACE was the most

intriguing machine of them all, marketed by Jupiter Cantab. This company was founded by Richard Altwasser and Stephen Vickers - the key hardware and software designers for the legendary Sinclair ZX Spectrum. This collector's edition of the manual is an almost exact reproduction of the original that accompanied the Jupiter ACE and is brought to you by the current owners of the ACE brand as a celebration of the 40th anniversary of the launch of the special computer that so many people hold dear. The original designers wanted the Jupiter ACE to be a programmers' machine, and although sales were not necessarily stellar, they achieved exactly what they set out to. Now, almost forty years on, you can once again learn not only how to code the Jupiter ACE but also the foundations of the still-useful programming language FORTH.

Bingo Capitalism Kate Bedford, 2019-07-19 Casinos are often used by political economists, and popular commentators, to think critically about capitalism. Bingo - an equal chance numbers game played in many parts of the world - is overlooked in these conversations about gambling and political economy. Bingo Capitalism challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation

of everyday gambling economies. The book draws on official records of parliamentary debate, case law, regulations and in-depth interviews with both bingo players and workers to offer the first socio-legal account of this globally significant and immensely popular pastime. It explores the legal and political history of bingo and how gender shapes, and is shaped by, diverse state rules on gambling. It also sheds light on the regulation of workers, players, products, places, and technologies. In so doing it adds a vital new dimension to accounts of UK gambling law and regulation. Through *Bingo Capitalism*, Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy, showing the role of the state in supporting and then eclipsing environments where gambling played a key role as mutual aid. In centring the regulatory entanglement between vernacular play forms, self-organised membership activity, and corporate leisure experiences, she offers a fresh vision of gambling law from the everyday perspective of bingo.

Assembly Journal Wisconsin. Legislature. Assembly, 1987

Revenge of the Pequots Kim Isaac Eisler, 2002-03-01 The Mashantucket Pequots have had a long and proud

history, enduring for centuries even after colonists and historians believed them to have been exterminated by the British in 1637. By the early 1970s, however, the legacy of their generations rested on the shoulders of a single elderly woman, upon whose death the Pequots' reservation would fall into government hands. Her grandson, Richard Skip Hayward, and other relatives responded to her pleas and kept alive the tribe and its land by coming to live on the reservation. Journalist Kim Isaac Eisler tells in riveting detail how Hayward and others skillfully manipulated laws, court decisions, and political connections to permit the Mashantucket Pequots to found the Foxwoods Resort and Casino in 1992. Located in Ledyard, Connecticut, Foxwoods today is arguably the world's most profitable casino complex, grossing over one billion dollars annually. The Mashantucket Pequots have become staggeringly rich, their tribal membership has swelled, and they are now an influential force in national politics. Their triumph has not been without controversy: Eisler also examines the volatile issue of racial identity among the Pequots and looks at the negative impact of Foxwoods on those who also make their home in the Connecticut woods.

The Theatre of Brian Friel Christopher

Murray, 2014-04-24 Brian Friel is Ireland's foremost living playwright, whose work spans fifty years and has won numerous awards, including three Tonys and a Lifetime Achievement Arts Award. Author of twenty-five plays, and whose work is studied at GCSE and A level (UK), and the Leaving Certificate (Ire), besides at undergraduate level,

he is regarded as a classic in contemporary drama studies. Christopher Murray's *Critical Companion* is the definitive guide to Friel's work, offering both a detailed study of individual plays and an exploration of Friel's dual commitment to tradition and modernity across his oeuvre. Beginning with Friel's 1964 work *Philadelphia, Here I Come!*, Christopher Murray follows a broadly chronological route through the principal plays, including *Aristocrats*, *Faith Healer*, *Translations*, *Dancing at Lughnasa*, *Molly Sweeney* and *The Home Place*. Along the way it considers themes of exile, politics, fathers and sons, belief and ritual, history, memory, gender inequality, and loss, all set against the dialectic of tradition and modernity. It is supplemented by essays from Shaun Richards, David Krause and Csilla Bertha providing varying critical perspectives on the playwright's work.

How to Teach Now William Powell, Ochan Kusuma-Powell, 2011-06-23 In this book, William Powell and Ochan Kusuma-Powell provide a practical map to navigate some of today's most complicated instructional challenges: How do you help all students succeed when every classroom is, in effect, a global classroom? And what does a successful education look like in a world that is growing smaller and flatter every day? Drawing on research and years of experience in international schools, the authors identify five critical keys to personalizing learning for students who have wildly different cultural, linguistic, and academic backgrounds: * Focus on your students as learners through systematic examination of their cultural and linguistic identities, learning styles and preferences, and readiness. * Focus on yourself as a teacher and investigate your own

cultural biases, preferred teaching style and beliefs, and expectations. * Focus on your curriculum to identify transferable concepts that will be valuable and accessible to all students and further their global competence. * Focus on your assessments to ensure cultural sensitivity and improve the quality of the formative data you gather. * Focus on your collegial relationships so that you can effectively enlist the help of fellow educators with different experiences, backgrounds, skills, and perspectives. The way to teach now is to focus on your students both as individuals and as members of a multifaceted, interdependent community. Here, you'll learn how to design and deliver instruction that prepares students not just to meet standards but to live and work together in our complicated, 21st century world.
