Children's Sermons A to Z Brett Blair,2000-07 Anyone who has done children's sermons will sooner or later hear from someone that I learn more from the children's sermon than I do from the real sermon. And indeed, the truths of scripture are so simple that even a child can understand them. So it's no accident that children's sermons have become a central part of the worship service in many churches. Brett Blair and Tim Carpenter offer a year's worth of object lessons that engage children and impart profound lessons for all ages. Two sermons are provided for each Sunday in Cycle C of the Revised Common Lectionary, one based on the Second Lesson and one based on the Gospel. The messages are structured in two parts: the lesson uses an object to draw out active responses from children, then the application connects that object to the assigned scripture reading. Each message includes a clear statement of its exegetical aim. Bright, innovative, perceptive, creative, grace-filled Brett Blair and Tim Carpenter are all of those and much, much more, and that is reflected beautifully in their new book Children's Sermons A To Z. James W. Moore Pastor, St. Luke's United Methodist Church Houston, Texas Brett Blair is associate pastor of Asbury United Methodist Church in Memphis, Tennessee. He holds the M.Div. degree from Yale University Divinity School and is a cum laude graduate of Oral Roberts University with B.A. and M.A. degrees in New Testament Literature. Tim Carpenter is the pastor at First United Methodist Church in Bolivar, Tennessee. He is a graduate of Memphis Theological Seminary (M.Div.) and the University of Florida (B.A. in political science).

Playbuilding as Arts-Based Research Joe Norris,Kevin Hobbs,Mirror Theatre,2024-04-29 The new edition of Playbuilding as Arts-Based Research details how playbuilding (creating an original performative work with a group) as a methodology has developed in qualitative research over the last 15 years. The second edition substantially updates the award-winning first edition by making connections to current research theories, providing complete scripts with URL links to videos, and including a new section with interviews with colleagues. Chapter 1 provides an in-depth discussion of the epistemological, ontological, axiological, aesthetic, and pedagogic stances that playbuilding takes, applying them to research in general. The value of a playful, trusting atmosphere; choices of style, casting, set, and location in representing the data; and pedagogical theories that guide participatory theatre are highlighted. Chapter 2 discusses how Mirror Theatre generates data, structures dramatic scenes, and conducts live and virtual participatory workshops. Chapter 3 is a thematized account of interviews with 23 colleagues who employ variations of playbuilding that show how playbuilding can be applied in a wide range of contemporary contexts and disciplines. Chapters 4 through 9 describe six projects that address topics of drinking choices and mental health issues on campus, person-centred care, homelessness, the transition to university, and co-op placements. They include both a theme and a style analyses and workshop ideas. Chapter 10, new to this edition, concludes with quantitative and qualitative data from audiences attesting to the efficacy of this approach. This is a fascinating resource for qualitative researchers, applied theatre practitioners, drama teachers, and those interested in social justice, who will appreciate how the book adeptly blends theory and practice, providing exemplars for their own projects.

Improving Productivity with IBM ISPF Productivity Tool V7.1 for z/OS Michael Rotter,Eugenie Alexander,Rodney Almodovar,Balachandran Chandrasekaran,Pearlson Christopher,Steve Coalbran,Mark Leung,Jean Mothersele,Chaitra Narayanaswamy,Kevin Neubert,Richard Pace,Walter Zakorchemny,IBM Redbooks,2013-04-24 This IBM® Redbooks® publication introduces the IBM Interactive System Productivity Facility (ISPF) Productivity Tool (IPT) Version 7, Release 1 for IBM z/OS®. IPT operates as a seamlessly integrated front end to ISPF. Note the following points: IPT functionality is available from any panel, without a need to modify any ISPF Primary Options Menu. All IPT functions are totally integrated. IPT can perform almost any activity within ISPF, or internally invoke the function that can perform the task. IPT combines separately provided ISPF utility functions and new ISPF Productivity Tool features into the Object List (OLIST) and Member Selection List (MSL). The resulting members, datasets, and Object Lists become powerful platforms where you can perform many tasks without navigating to other utilities. IPT relates objects to applications in a similar manner to the way that a PC performs Object Linking and Embedding (OLE). By extending the dataset objects that are used by ISPF to other object classes, IPT lets you specify the object to be processed and the action that is performed (such as EDIT or BROWSE). The facility that is appropriate to the object class for the action that you have requested is invoked automatically. IPT provides extensive search capabilities that are both rapid and intuitive. You can easily search for volumes, datasets, members, and text within members. ISPF Productivity Tool also furnishes automatic drill-down system navigation to examine volumes, datasets, and members. IPT provides a menu-driven facility to display and recover all of the deleted members of a partitioned dataset (PDS) library. IPT extends the ISPF action bar with options that provide access to new functionality so that you do not have to learn new commands or syntax. In addition to the ISPF Point-and-Shoot capabilities, IPT provides new concepts, such as hotbars (user-defined fields that execute commands), field-sensitive areas in MSLs and OLISTs, automatic recognition of a dataset name on any ISPF panel as a parameter to BROWSE, EDIT, or VIEW, or parameters within any Time Sharing Option (TSO) command. IPT

provides integrated and enhanced IBM Software Configuration and Library Manager (SCLM) support within the standard member and dataset lists. SCLM is a source library management component of ISPF that provides change control, multiple source versions, auditing, a built-in make facility, and automatic check-in/sign-out using standard libraries (PDS and partitioned dataset extended (PDSE)). IPT includes built-in interfaces to various IBM and ISV products. IPT includes a new batch utility that provides a seamlessly integrated front end to the IBM IEBCOPY utility. In addition to supporting all IEBCOPY standard functionality, it includes additional major enhancements. This book is intended as a supplement to existing product manuals. It opens with an overview of the main IPT concepts and facilities, and follows with detailed chapters which are each dedicated to a major IPT function. Practical scenarios, accompanied by window captures and coding examples, demonstrate how both experienced ISPF users and those new to the IBM z/OS environment can benefit from the IPT enhanced functionality in each case.

Outlook 2002 from A to Z Stephen L. Nelson,2001 This reference helps users understand Outlook by providing more than 300 key terms and tasks arranged alphabetically. Allowing users to look up information by name rather than by menu command gives users new to Outlook quick and easy access, letting them troubleshoot problems more easily. The small size of the book makes it ideal for mobile workers.

The Cabinet of Imaginary Laws Peter Goodrich,Thanos Zartaloudis,2021-06-28 Returning to the map of the island of utopia, this book provides a contemporary, inventive, addition to the long history of legal fictions and juristic phantasms. Progressive legal and political thinking has for long lacked a positive, let alone a bold imaginary project, an account of what improved institutions and an ameliorated environment would look like. And where better to start than with the non-laws or imaginary legislations of a realm yet to come. The Cabinet of Imaginary Laws is a collection of fictive contributions to the theme of conceiving imaginary laws in the vivid vein of jurisliterary invention. Disparate in style and diverse in genres of writing and performative expression, the celebrated and unknown, venerable and youthful authors write new laws. Thirty-five dissolute scholars, impecunious authors and dyspeptic artists from a variety of fields including law, film, science, history, philosophy, political science, aesthetics, architecture and the classics become, for a brief and inspiring instance, legislators of impossible norms. The collection provides an extra-ordinary range of inspired imaginings of other laws. This momentary community of radial thought conceives of a wild variety of novel critical perspectives. The contributions aim to inspire reflection on the role of imagination in the study and writing of law. Verse, collage, artworks, short stories, harangues, lists, and other pleas, reports and pronouncements revivify the sense of law as the vehicle of poetic justice and as an art that instructs and constructs life. Aimed at an intellectual audience disgruntled with the negativity of critique and the narrowness of the disciplines, this book will appeal especially to theorists, lawyers, scholars and a general public concerned with the future of decaying laws and an increasingly derelict legal system.

The A to Z of You and Me James Hannah,2016-05-03 Beautifully constructed and hugely moving. Deserves to be a smash hit.—Lissa Evans, author of Crooked Heart The A to Z game. For Ivo, it's a way to pass the time, a way to avoid the pain, and a way to think about what really got him here. His hospice nurse suggested it. Think of a body part for each letter, and think of memories connected to each one. And so begins the revealing of his misspent life: the terrible teenage choices, friendships made and cracked, love he'll never get back. He remembers the girl who tried to help him, the friend who wouldn't let her, and the sickness that chases him even now.
