-Grauer- -Adane- Gunter Preuß,2015-01-06 Ich weiß nicht zu sagen, wie lange ich gestanden und gesehen und gelauscht habe. Die Katzen begannen zu schreien wie ungezogene Kinder. Schräg gegenüber, auf Langheinrichs Schuppendach, gerieten sie sich gegenseitig gehörig ins Fell. Liebestoll, wie sie waren. Da sah ich einen Kater, wie ich ihn mein Lebtag noch nie gesehen hatte. Die Zunge soll mir lahm werden, wenn ich lüge. Er war fast doppelt so groß wie das andere Katzenvolk. Er hatte graues langes Fell und weiße Flecken an Kehle und Brust. Oh, wie er sich auf die Hinterbeine stellte. Und was für einen wilden Gesang er anstimmte. Ja, ein Wilder, ein Räuber war er. Und was für Hiebe er unter seinen Rivalen austeilte. Die schönste Kätzin nahm er sich. Krügel, des Grafen Jäger, war schon lange hinter dem Grauen her. Er fragte uns Leutaer oft, ob wir den Wildkater gesehen hätten. Der Graf bestünde auf sein Fell. Er sei ein Wilderer. Keiner von uns gab dem Krügel einen Hinweis. Der Graue war schlau und vorsichtig. Er lebte versteckt in den Felsen. Das ganze Jahr über sah ihn keiner. Nur im Frühjahr suchte er die Kätzinnen. Dann verlor er wie alle Verliebten jegliche Vernunft. Er wollte kämpfen, war eitel, eifersüchtig und unbeherrscht.

Youth on the Move Asnake Kefale,Fana Gebresenbet,2021-12-01 At a time when policies are increasingly against it, international migration has become the subject of great public and academic attention. This book departs from the dominant approach of studying international migration at macro level, and from the perspective of destination countries. The contributors here seek to do more than 'scratch the surface' of the migration process, by foregrounding the voices and views of Ethiopian youth-potential migrants and returnees-and of their sending communities. The volume focuses on the perspective and agency of these young people, both potential migrants and returnees, to better understand migration decision-making, experiences and outcomes. It brings together rarely documented cases of young men and women from several communities across Ethiopia, migrating to the Gulf and South Africa. Explaining the agency of local actors-prospective migrants, brokers and sending families-Youth on the Move illuminates the pervasive, persistent failure of state attempts to regulate migration. Moreover, it examines the financing of migration and the sharing of remittances, within a culturally situated moral economy. While accounts centered on economics and political violence are important, the contributors demonstrate compellingly that these factors alone cannot provide a full understanding of migration's complexity, nor of its social realities.

Over six hundred coloured illustrations are featured to help visualise and stimulate learning. The test exercises at the end of each chapter (which are also complemented by vivid coloured illustrations), recap selected elements within the chapters and are meant to evaluate the performance of learners after each module. This unique method, regulated in all twenty chapters of the book, is meant to assist learners in the mastery of the language in a more rapid style. It is a very useful method for improving literacy. It is expected to increase the learners' knowledge and ability, thereby enhancing their capability in a world where English has become one of the foremost international and official languages.

Operation Solomon Stephen Spector,2005-03-15 Operation Solomon was one of the most remarkable rescue efforts in modern history, in which more than 14,000 Ethiopian Jews were airlifted to Israel in little more than a day. In this riveting volume, Stephen Spector offers the definitive account of this incredible story, based on over 200 interviews and exclusive access to confidential documents. Written with the pace and immediacy of a novel, here is the dramatic story of the rescue of the dark-skinned Jews of Ethiopia. Spector recounts how 20,000 Jews were willingly lured from their ancestral villages to Addis Ababa, expecting to be taken quickly from there to the Holy Land. Instead, they became pawns in a struggle between the Israeli government and Ethiopia's repressive dictator, who tried to coerce Israel into selling him weapons he needed in a losing war against rebel armies. In the resulting stalemate, the Jewish community was forced to live for nearly a year in squalid hovels, vulnerable to the dangers of the city, including crime and HIV. Worse yet, the imminent collapse of Addis Ababa, with the rebels closing in on the capital, raised the threat of bloody street fighting or even a genocidal attack on the Jews, a small minority in a nation that is primarily Christian and Muslim. Spector describes the tense negotiations among Israelis, Ethiopians, and Americans, which became increasingly urgent as time ran low and the danger mounted. And he highlights the secret deals and sudden setbacks that nearly aborted the mission at the eleventh hour, even as Israeli jets sat on the runway in Ethiopia, waiting to take the Jews to the land for which they had yearned for generations. Recounting the full story for the first time, Operation Solomon is a stirring account of a heroic rescue achieved in the face of daunting odds.

From Tragedy to Triumph Mitchell G. Bard,2002-06-30 From 1984 to 1991, Israel conducted a series of dramatic rescues, bringing thousands of Ethiopian Jews to the state of Israel. Codenamed Operation Sheba, this effort involved various covert means, including large-scale airlifts and exchanges for arms, to save these Jews from intolerable conditions in Ethiopia and the Sudan. But as dramatic and uplifting as this effort was, there are still troubling questions about why it took so many years for Israel to act on behalf its African compatriots. This is the complete story behind the Israeli rescue of the Jews of Ethiopia—how tragedy was turned into triumph. These rescue operations represented the culmination of complex political maneuvering in Israel and illustrated what Israeli resolve can accomplish when Jewish lives are endangered. It was an inspiring effort—as William Safire wrote at the time, thousands of black people are being brought to a country not as slaves, but as citizens. On the other hand, there is much to deplore how long it took for the leaders of Israel to recognize and take action to save this ancient African branch of the Jewish Diaspora, known as the Falasha. The reasons are the result of the complex intersection of Israeli geostrategy, pressure from the American Jewish community, and Ethiopian domestic politics, as well as racism and debates about the Jewishness of the Falasha community.

Credit Risk Management in the Development Bank of Ethiopia. Effects on the Quality of Loan Portfolio Kebede Adane,2020-11-18 Master's Thesis from the year 2020 in the subject Business economics - Banking, Stock Exchanges, Insurance, Accounting, , course: Business Administration, language: English, abstract: The main objective of the thesis is to assess the effect of credit risk management on the quality of loans portfolio in the case of Development Bank of Ethiopia. A sample of 84 respondents was drawn from the employees of the Development Bank of Ethiopia by using purposive sampling technique. Both primary and secondary data were used. Data related to loan portfolio and loan position is obtained from the bank whereas, primary data are collected using structured questionnaires from the employees of the bank. Descriptive and inferential statistics were used to conduct the research and Multiple Regression Analysis was run using SPSS Version 21.0 to analyze the data. With regard to credit risk management practices, the result show that DBE has not satisfactory risk Management practice. Precisely, using score 1 (poor) to 5 (best), all the parameters of risk management practice assessment have a score value below 3.40, i.e. Credit Risk Granting and Portfolio Quality Control (3.40), Credit Risk System and Standard (3.20), Credit Risk and Portfolio Quality Control (3.17), Risk Identification, Measurement and Control (3.03), and Risk Environment (2.98). The Bank's loan portfolio is also more vulnerable to various types of risks, such as to unpredictable risk, predictable, and controllable risks. The bank's NPL ratio was above 15% for the last five years. The regression result also showed that sound credit granting process and the existence of comprehensive risk management system and standards are the significant variables that affect loan portfolio quality of the Bank. Credit risk management practice of the bank has insignificant effect on loan portfolio quality. Both in terms of Non-performing loan and concentration, DBE has poor loan portfolio quality which is due to the bank's poor credit risk management practice. Therefore, there is a need to improve and enhance credit risk management practice of the Bank, especially, by improving the credit granting process to have sound credit risk management, and by updating credit risk management system and standards so as to have strong credit management.

Insurgent Fragmentation in the Horn of Africa Michael Woldemariam,2018-02-15 When insurgent organizations factionalize and fragment, it can profoundly shape a civil war: its intensity, outcome, and duration. In this extended treatment of this complex and important phenomenon, Michael Woldemariam examines why rebel organizations fragment through a unique historical analysis of the Horn of Africa's civil wars. Central to his view is that rebel factionalism is conditioned by battlefield developments. While fragmentation is caused by territorial gains and losses, counter-intuitively territorial stalemate tends to promote rebel cohesion and is a critical basis for cooperation in war. As a rare effort to examine these issues in the context of the Horn of Africa region, based upon extensive fieldwork, this book will interest both scholarly and non-scholarly audiences interested in insurgent groups and conflict dynamics.

Ultra-Processed People Chris van Tulleken,2023-05-09 THE #1 INTERNATIONAL BESTSELLER • LONGLISTED FOR THE BAILLIE GIFFORD PRIZE FOR NONFICTION • The bestselling and eye-opening investigation into the science, economics, history and impact of ultra-processed food. Named a Best Book of the Year by NPR • The Economist • The Times • The New Yorker • Smithsonian • Daily Mail • The Guardian • Financial Times • and more! It's not you, it's the food. How much of our daily caloric intake comes from ingesting substances that, technically speaking, do not meet traditional definitions of "food"? Chances are, if you're eating something that came wrapped in plastic and contains a funky ingredient you don't have in your kitchen, it's most likely—almost definitely—ultra-processed food, or UPF. More than the principal obstacle to "eating right," UPF has been linked to metabolic disease, depression, inflammation, anxiety, and cancer, while the production, distribution, and disposal of UPF and related products globally is known to cause devastating environmental damage. At the same time, UPF represents the dominant, nigh-unavoidable food culture for millions upon millions of eaters. Medical doctor and broadcaster Chris van Tulleken has spent his career trying to reframe the conversation around eating right, balancing the hard (and sometimes shocking) facts about what we're putting into our bodies with empathy for the natural desire to keep eating what we like, have time for, and can afford. As he argues in this book, we are all participants in an experiment we didn't consent to, one to determine how to get us to buy as much ultra-processed food as possible. It's not as simple as stumbling across the right diet trend, finding time to meal plan, or avoiding over-indulging in sugar, fat, or carbs or any other culprit. Nor is it a matter of individual will. It's about learning to live in "the third age of eating"—defined by the overwhelming abundance of ultra-processed eating options—and arming yourself with the simple and not-so-simple facts that will help you make the choices that are right for you.

Structural Bioinformatics: Applications in Preclinical Drug Discovery Process C. Gopi Mohan,2019-01-10 This book reviews the advances and challenges of structure-based drug design in the preclinical drug discovery process, addressing various diseases, including malaria, tuberculosis and cancer. Written by internationally recognized researchers, this edited book discusses how the application of the various in-silico techniques, such as molecular docking, virtual screening, pharmacophore modeling, molecular dynamics simulations, and residue interaction networks offers insights into pharmacologically active novel molecular entities. It presents a clear concept of the molecular mechanism of different drug targets and explores methods to help understand drug resistance. In addition, it includes chapters dedicated to natural-product- derived medicines, combinatorial drug discovery, the CryoEM technique for structure-based drug design and big data in drug discovery. The book offers an invaluable resource for graduate and postgraduate students, as well as for researchers in academic and industrial laboratories working in the areas of chemoinformatics, medicinal and pharmaceutical chemistry and pharmacoinformatics.

Handbook of Regional Conflict Resolution Initiatives in the Global South Jeronimo Delgado-Caicedo,2022-07-28 During the first half of the twentieth century, the international system was largely dominated by the USA and the colonial powers of western Europe. After the two world wars, the political and economic dominance of these states guaranteed them and their allies an almost complete control of world politics. However, as it is the norm in the international system, power structures are not immutable. After the end of the Cold War, rapid changes to the existing international hierarchies took place, as new countries from the so-called "developing world" began to emerge as crucial actors capable of questioning and altering the power dynamics of the world. It is therefore unthinkable to ignore emerging countries such as Russia, the People's Republic of China, India, Brazil or South Africa in the decision-making process in today's world order. In addition, there is a group of smaller, yet increasingly important countries that, while acknowledging their inability radically to change the rules of the international system, are still eager to shift power relations and enhance their influence in the world. Argentina, Colombia, Egypt, Indonesia, Iran, South Korea, Mexico, Nigeria, Pakistan, Saudi Arabia, Turkey and Vietnam are generally recognised as part of this grouping of emerging powers from the Global South. While there is a consensus amongst academics that emerging powers from the Global South must have a stabilising role within their own regions, previous analyses have focused primarily on the impact that emerging powers have had in their own regions' conflict resolution initiatives. This volume, instead, aims to go beyond these analyses and provide new insights regarding the effect that this stabilising role has on the continental and global

positioning of emerging powers. In other words, this book explores the relation between a country's involvement in conflict resolution initiatives and its positioning in the international system. The volume will contribute to this approach using the perspective of academics and practitioners from countries of the Global South, particularly from states that have strengthened - or sometimes weakened - their position in the international hierarchy of power through a leading role in regional conflict resolution initiatives.
