

**AOL. Com**

**Mistie**

Aol.com Kara Swisher, 1999 In 1996, Kara Swisher, then a reporter at The Washington Post, was granted unprecedented access to one of the hottest and most closely watched companies in the world, America Online, Inc. In aol.com, Swisher has written a book that captures the secrets of how AOL beat the competition and became the world's biggest online company. Swisher also reveals the company's behind-the-scenes dealings with Microsoft cofounders Bill Gates and Paul Allen, CompuServe, Prodigy, Netscape, and the Christian Right. Throughout its existence, AOL has repeatedly been written off by the media and the high-tech world. Bill Gates threatened to buy it or bury it. Deep-pocketed competitors such as CompuServe and Prodigy thought little of their smaller rival. And AOL made matters worse by committing a series of public-relations and technical blunders that became front page news and enraged its subscribers. But the company--a cyber-cockroach--refused to die. Now, with over eleven million subscribers, AOL is the undisputed leader in the online world, vitally positioned at the nexus of big business, high tech, advertising, and new media. In telling the story of AOL, Swisher also conveys the fascinating history of the online business, which has its origins in the dreams of an eccentric and little-known entrepreneur named Bill Von Meister, whose grand ideas and big spending spawned the fledgling company that would become AOL. But it fell to a young marketing executive named Steve Case to build AOL while fending off an onslaught of wealthier competitors and suitors. Ultimately, as Swisher vividly illustrates, AOL gained supremacy because Case possessed the best vision for his company, establishing AOL as a vibrant virtual community rather than an online shopping center or business tool. Included in that community is an array of enthusiasts, activists, and deviants who at times clash in battles over freedom of expression and family values, a flash point best illustrated here by AOL's fight against the Communications Decency Act. Re-creating all of the major

moments in AOL's frenzied history, aol.com is a fascinating and important inside story about the birth of a new medium, the enterprising innovators who are leading it, and the way it is changing our culture.

**AOL For Dummies** John Kaufeld, 2004-01-30 A traditional bestseller, AOL For Dummies is the only regularly updated reference book on the market for beginning AOL users. Covers the essentials of signing up for AOL, getting around the AOL channels, using AOL's e-mail and instant messaging, and exploring the Web browser. Highlights the changes that users of previous versions will encounter with AOL 9.0. Includes coverage of new high-speed services.

*Summary: AOL.com* BusinessNews Publishing, 2013-02-15 The must-read summary of Kara Swisher's book: AOL.com: How Steve Case Beat Bill Gates, Nailed the Netheads and Made Millions in the War for the Web. This complete summary of the ideas from Kara Swisher's book AOL.com tells the story of Bill Von Meister and Steve Case and how they created AOL. In this book, the author explains how the company was built on the shaky foundations of the declining gaming industry, working fiercely against all odds and the technical slip ups which put them out of favor. But there was one thing they did exceedingly well, thanks to the guidance of their marketing executive Steve Case. AOL focused on communications, community and clarity – three areas which would enhance their users' online environments and their interaction with each other. This summary concludes with a useful list of the factors that led to AOL's success, as well as providing an insight into the challenges that it faces in the current market. Added-value of this summary: • Save time • Understand key concepts • Expand your knowledge To learn more, read AOL.com and discover the story behind this breakthrough company.

*There Must Be a Pony in Here Somewhere* Kara

Swisher, 2003-10-14 "AOL had found itself at the edge of disaster so frequently that one of its first executives, a brassy Vietnam veteran and restaurateur named Jim Kimsey, had taken the punch line of an old joke popularized by Ronald Reagan and made it into an unlikely mantra for the company. It concerned a very optimistic young boy who happened upon a huge pile of horse manure and began digging excitedly. When someone asked him what he was doing covered in muck, the foolish boy answered brightly, 'There must be a pony in here somewhere!'" —From the Prologue

If you're wondering what happened after "a company without assets acquired a company without a clue," as Kara Swisher wryly writes, it's time to crack open this trenchant book about the doomed merger of America Online and Time Warner. On a quest to discover how the deal of the century became the messiest merger in history, Swisher delivers a rollicking narrative and a keen analysis of this debacle that is a must-read for anyone who wants to understand what it all means for the digital future. Packed with new revelations and on-the-record interviews with key players, it is the first detailed examination of the merger's aftermath and also looks forward to what is coming next. It certainly has not been a pretty picture so far—with \$100 billion in losses, a sinking stock price, employees in revolt, and lawsuits galore. As Swisher writes, "It is hard not to feel a bit queasy about the whole sorry mess. . . . It felt a bit like I was watching someone fall down a flight of stairs in slow motion, and every bump and thump made me wince. It made me reassess old ideas and wonder what I had gotten wrong. And it left me deeply confused as to what had happened and, more important, what was coming next." For Swisher, finding the answers to what went awry is important because she remains a staunch believer in the digital future—maybe not in the AOL Time Warner merger, but in the essential idea at the heart of it that someday the distinction of old and new media will no longer exist. Borrowing from Winston Churchill, Swisher calls it "the end of the

beginning” of the digital revolution. “By that, I mean that it is from the ashes of this bust that the really important companies of the next era will emerge. And that evolution will, I believe, be shaped by what happened—and what is happening now—at AOL Time Warner.” To figure it all out, Swisher takes her reader on a journey that begins with a portrait of two wildly different corporate cultures and businesses that somehow came to believe, in the crucible of the red-hot Internet era, that they could successfully join forces and achieve unprecedented growth and success. When the merger was announced in early 2000, the irresistible combination was hailed as the new paradigm and its executives—Steve Case, Jerry Levin, Bob Pittman—as popular icons of the future. But after the boom so spectacularly turned to bust and the visions of New Media Supremacy lay in ruins, Swisher searches for clues about where the merger went wrong and who is to blame. More important, she looks to the future of both AOL Time Warner and the Internet as she seeks to answer the key question that the noise of the disaster has all but drowned out. Will the demise of the AOL Time Warner merger be the final and inevitable chapter of the dot-com debacle or will it herald a new paradigm altogether? This book, then, is a primer for the time to come, using the story of the AOL Time Warner merger as the vehicle to show the troubled journey into the future.

The guide also includes a directory of the best Internet and Web destinations available through AOL.

**Stealing Time** Alec Klein,2003-05-30 In January 2000, America Online and Time Warner announced the largest merger in U.S. history, a deal that would create the biggest media company in the world. It was celebrated as the marriage of new media and old media, a potent combination of the nation's No. 1 Internet company and the country's leading entertainment giant, the owner of such internationally renowned brands as Warner Bros., HBO, CNN, and Time magazine. But only three years later, nearly all the top executives behind the merger had resigned, the company had lost tens of billions of dollars in market value, and the U.S. government had begun two investigations into its business dealings. How did the deal of the century become an epic disaster? Alec Klein has covered AOL Time Warner for The Washington Post since the merger. His reporting on the company led to investigations by the Justice Department and the Securities and Exchange Commission. In *Stealing Time*, he takes readers behind the scenes to show how a clash of cultures set the stage for a spectacular corporate collapse. AOL's Steve Case knew it was only a matter of time before the Internet bubble of the late 1990s would burst, grounding his high-flying company. His solution: Buy another company to keep his own aloft. Meanwhile, Time Warner's Jerry Levin was enamored of new technology but frustrated by his inability to push his far-flung media empire into the Internet age.

AOL and Time Warner seemed like a perfect match. But the government forced the two companies to make concessions, and during the yearlong negotiations technology stocks tumbled. AOL executives lorded it over their Time Warner counterparts, who felt they were being acquired by brash, young interlopers with inflated dollars. The AOL way was fast, loose, and aggressive, and Time Warner executives -- schooled in more genteel business practices -- rebelled. In the midst of clashing cultures and conflicting management styles, AOL's business slowed and then stalled. Worse yet, AOL came under government scrutiny, and when the company conducted its own internal investigation, it admitted that it had improperly booked at least \$190 million in revenue. The Time Warner rebellion gathered momentum. This is a riveting story of ambition, hubris, and greed set amid the boom-and-bust years of the technology bubble. It is filled with outsized personalities -- Steve Case, Jerry Levin, Bob Pittman, Ted Turner, and many more. Based on hundreds of confidential company documents and interviews with key players in this unfolding drama, *Stealing Time* is a fascinating tale of the swift rise and even swifter fall of AOL Time Warner.

*America Online? For Dummies?* John Kaufeld, 2000-11-15  
*America Online For Dummies* is recognized as the best-selling beginning reference on the market on AOL. This edition, updated for the latest AOL features, contains all the great info on using AOL that is the hallmark of the book, including guidance for getting on the service, navigating AOL channels, using AOL e-mail, browsing the Web via AOL, communicating with other Internet and AOL users, applying AOL to your job or hobby, and customizing the service to make it work best for you. ## AOL. Com Introduction

In today's digital age, the availability of AOL. Com books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or

eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, AOL. Com books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources

provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing AOL. Com books

and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for AOL. Com books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization

dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for

students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, AOL. Com books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With

platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of AOL. Com books and manuals for download and embark on your journey of knowledge?

## **FAQs About AOL. Com Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms

offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. AOL. Com is one of the best book in our library for free trial. We provide copy of

AOL. Com in digital format, so the resources that you find are reliable. There are also many Ebooks of related with AOL. Com. Where to download AOL. Com online for free? Are you looking for AOL. Com PDF? This is definitely going to save you time and cash in something you should think about.
