iPhone & Ipad- Ios 7 Speedy Publishing,2014-08-13 A study guide on an iPhone or iPad helps one study in two ways. The first is by serving in the same way as a traditional book or other study aid. One can make notes within it, flip through virtual pages, and read it progressively in the same way that textbooks would be used. It also provides one with additional portability. An iPhone or iPad can be more easily carried by a person throughout their day. By doing so, it's easy to simply take the iOS 7 device out when one has a little extra free time in which to study.

Advanced Practice Nursing, Fifth Edition Dr. Michalene Jansen, PhD, RN,C, GNP-BC, NP-C,2015-04-10 The fifth edition of this topflight text on nurse practitioner role development is completely updated and expanded to encompass the full sphere of current practice roles. These include interprofessional, global health, and leadership roles and such practice issues as credentialing, prescriptive authority, and liabilities. The book encompasses the diverse expertise of contributors from a wide variety of practice settings and reflects the competencies identified by key stakeholder organizations such as the ANA, NONPF, NACNS, AANA, ACNM, and AACN. With a focus on everyday realities of APRN practice in a rapidly changing health care environment, it delivers essential information on the multifaceted role of APRNs as they transition into practice and professional arenas. The fifth edition reflects the expanding roles of the DNP and CNL and provides more detail on the transition of APRN master's and doctoral students-particularly NPs, CNSs, CNMs, and CRNAs-into practice. It discusses the impact of the Patient Protection and Affordable Care Act on health care delivery and emphasizes the APRN role in influencing health policy. New chapters address global health and differentiated roles for the APRN and APRN leadership in interprofessional teams. The text provides new information on practice issues such as credentialing, prescriptive authority, and liabilities, along with updated web resources. Additionally, the fifth edition includes an enhanced discussion of educational requirements and differentiation from certification and expanded coverage of professional issues and research-based practice (including quantitative and qualitative methodologies). The book continues to provide essential information on advanced clinical decision making, reimbursement, ethical issues, technology, and employment strategies for the APRN. New to the Fifth Edition: A chapter on global health and differentiated roles for APRNs A chapter on APRN leadership in interprofessional teams Current information on practice issues including credentialing, prescriptive authority, and liabilities Updated web resources Enhanced discussion of educational requirements and differentiation from certification Added content about DNP and CNL roles and leadership functions Expanded coverage of professional issues and evidence-based practice Information on influencing health policy Content on integrating informatics in practice Online teaching tools that include PowerPoint slides and an instructor's manual

Database Systems for Advanced Applications An Liu,Yoshiharu Ishikawa,Tieyun Qian,Sarana Nutanong,Muhammad Aamir Cheema,2015-07-29 DASFAA is an annual international database conference, located in the Asia-Pacific region,which show cases state-of-the-art R & D activities in databases-terms and their applications. It provides a forum for technical presentations and discussions among database researchers, developers and users from academia, business and industry. DASFAA 2015 the 20th in the series, was held during April 20-23, 2015 in Hanoi, Vietnam. In this year, we carefully selected two workshops, each focusing on specific research issues that contribute to the main themes of the DASFAA conference. This volume contains the final versions of papers accepted for the two workshops: Second International Workshop on Semantic Computing and Personalization (SeCoP 2015); Second International Workshop on Big Data Management and Service (BDMS 2015); and a Poster Session. [All the workshops were selected via a public call-for-proposals process. The workshop organizers put a tremendous amount of effort into soliciting and - lecting papers with a balance of high quality, new ideas and new applications. We asked all workshops to follow a rigid paper selection process, including the procedure to ensure that any Program Committee members are excluded from the paper review process of any paper they are involved with. A requirement about the overall paper acceptance rate of no more than 50% was also imposed

on all the workshops.]

Point-of-Care Technologies Enabling Next-Generation Healthcare Monitoring and Management Sandeep Kumar Vashist, John H.T. Luong, 2019-02-20 This book describes the emerging point-of-care (POC) technologies that are paving the way to the next generation healthcare monitoring and management. It provides the readers with comprehensive, up-to-date information about the emerging technologies, such as smartphone-based mobile healthcare technologies, smart devices, commercial personalized POC technologies, paper-based immunoassays (IAs), lab-on-a-chip (LOC)-based IAs, and multiplex IAs. The book also provides guided insights into the POC diabetes management software and smart applications, and the statistical determination of various bioanalytical parameters. Additionally, the authors discuss the future trends in POC technologies and personalized and integrated healthcare solutions for chronic diseases, such as diabetes, stress, obesity, and cardiovascular disorders. Each POC technology is described comprehensively and analyzed critically with its characteristic features, bioanalytical principles, applications, advantages, limitations, and future trends. This book would be a very useful resource and teaching aid for professionals working in the field of POC technologies, in vitro diagnostics (IVD), mobile healthcare, Big Data, smart technology, software, smart applications, biomedical engineering, biosensors, personalized healthcare, and other disciplines.

Handbook of Medical and Healthcare Technologies Borko Furht, Ankur Agarwal, 2013-11-20 This book equips readers to understand a complex range of healthcare products that are used to diagnose, monitor, and treat diseases or medical conditions affecting humans. The first part of the book presents medical technologies such as medical information retrieval, tissue engineering techniques, 3D medical imaging, nanotechnology innovations in medicine, medical wireless sensor networks, and knowledge mining techniques in medicine. The second half of the book focuses on healthcare technologies including prediction hospital readmission risk, modeling e-health framework, personal Web in healthcare, security issues for medical records, and personalized services in healthcare. The contributors are leading world researchers who share their innovations, making this handbook the definitive resource on these topics. Handbook of Medical and Healthcare Technologies is intended for a wide audience including academicians, designers, developers, researchers and advanced-level students. It is also valuable for business managers, entrepreneurs, and investors within the medical and healthcare industries.

Nursing Informatics for the Advanced Practice Nurse Susan McBride, PhD, RN-BC, CPHIMS, Mari Tietze, PhD, RN-BC, FHIMSS, 2015-12-03 Designed specifically for graduate-level nursing informatics courses, this is the first text to focus on using technology with an interprofessional team to improve patient care and safety. It delivers an expansive and innovative approach to devising practical methods of optimizing technology to foster quality of patient care and support population health initiatives. Based on the requirements of the DNP Essential IV Core Competency for Informatics and aligning with federal policy health initiatives, the book describes models of information technology the authors have successfully used in health IT, as well as data and analytics used in business, for-profit industry, and not-for-profit health care association settings, which they have adapted for nursing practice in order to foster optimal patient outcomes. The authors espouse a hybrid approach to teaching with a merged competency and concept-based curriculum. With an emphasis on the benefits of an interprofessional team, the book describes the most effective approaches to health care delivery using health information technology. It describes a nursing informatics model that is comprised of three core domains: point-of-care technology, data management and analytics, and patient safety and quality. The book also includes information on point-of-care applications, population health, data management and integrity, and privacy and security. New and emerging technologies explored include genomics, nanotechnology, artificial intelligence, and data mining. Case studies and critical thinking exercises support the concept-based curriculum and facilitate out-of-the-box thinking. Supplemental materials for instructors include PowerPoint slides and a test bank. While targeted primarily for the nursing arena, the text is also of value in medicine, health information management, occupational therapy, and physical therapy. Key

Features: Addresses DNP Essential IV Core Competency for Informatics Focuses specifically on using nursing informatics expertise to improve population health, quality, and safety Advocates an interprofessional team approach to optimizing health IT in all practice settings Stimulates critical thinking skills that can be applied to all aspects of IT health care delivery Discusses newest approaches to interprofessional education for IT health care delivery

Advanced Topics in Multimedia Research Sagarmay Deb, 2012-02-17 As multimedia has become a very important technology, significantly improving people's lives, this book provides an up-to-date scenario of various fields of research being carried out in the area. The book covers topics including web-based co-operative learning, effective distance learning through multimedia, quality control of multimedia on the internet, recovery of damaged images, Network-on-Chip (NoC) as a global communication vehicle, and Network GPS for road conditions (such as traffic and checkpoints). We believe that the book will help researchers in the field to proceed further in their research on multimedia.

Indirect Care Handbook for Advanced Nursing Roles Patti Rager Zuzelo, 2018-08-27 Indirect Care Handbook for Advanced Nursing Roles: Beyond the Bedside addresses the indirect care responsibilities that confront nurses in a variety of advanced practice roles

Nursing Informatics for the Advanced Practice Nurse, Second Edition Susan McBride, PhD, RN-BC, CPHIMS, Mari Tietze, PhD, RN-BC, FHIMSS, 2018-09-28 A “must have” text for all healthcare professionals practicing in the digital age of healthcare. Nursing Informatics for the Advanced Practice Nurse, Second Edition, delivers a practical array of tools and information to show how advanced practice nurses can maximize patient safety, quality of care, and cost savings through the use of technology. Since the first edition of this text, health information technology has only expanded. With increased capability and complexity, the current technology landscape presents new challenges and opportunities for interprofessional teams. Nurses, who are already trained to use the analytic process to assess, analyze, and intervene, are in a unique position to use this same process to lead teams in addressing healthcare delivery challenges with data. The only informatics text written specifically for advanced practice nurses, Nursing Informatics for the Advanced Practice Nurse, Second Edition, takes an expansive, open, and innovative approach to thinking about technology. Every chapter is highly practical, filled with case studies and exercises that demonstrate how the content presented relates to the contemporary healthcare environment. Where applicable, concepts are aligned with the six domains within the Quality and Safety Education in Nursing (QSEN) approach and are tied to national goals and initiatives. Featuring chapters written by physicians, epidemiologists, engineers, dietitians, and health services researchers, the format of this text reflects its core principle that it takes a team to fully realize the benefit of technology for patients and healthcare consumers. What's New Several chapters present new material to support teams' optimization of electronic health records Updated national standards and initiatives Increased focus and new information on usability, interoperability and workflow redesign throughout, based on latest evidence Explores challenges and solutions of electronic clinical quality measures (eCQMs), a major initiative in healthcare informatics; Medicare and Medicaid Services use eCQMs to judge quality of care, and how dynamics change rapidly in today's environment Key Features Presents national standards and healthcare initiatives Provides in-depth case studies for better understanding of informatics in practice Addresses the DNP Essentials, including II: Organization and system leadership for quality improvement and systems thinking, IV: Core Competency for Informatics, and Interprofessional Collaboration for Improving Patient and Population health outcomes Includes end-of-chapter exercises and questions for students Instructor's Guide and PowerPoint slides for instructors Aligned with QSEN graduate-level competencies

Telehealth Innovations in Remote Healthcare Services Delivery A.J. Maeder, C. Higa, M.E.L. van den Berg, 2021-04-29 The need to promote academic activities in telehealth remains a high priority as the discipline expands into new areas of healthcare. Response during 2020 to the COVID-19 pandemic has provided an excellent example of the rapid diversification and impact attainable with telehealth, and may kindle a new momentum for accelerated service design and adoption processes in the future. This book, *Telehealth Innovations in Remote Healthcare Services*

Delivery, is the tenth in the Global Telehealth series. Due to the prevailing COVID-19 pandemic and the restrictions placed on academic gatherings, the organizers issued a general call for contributions, with the intention of attracting a wide cross-section of contributions reflecting the breadth of different aspects of telehealth internationally. The resulting collection offers snapshots of research projects and studies of service experience from five continents, with an emphasis on delivering benefits in regional settings in keeping with the theme of the book's title. Articles range from descriptions of telehealth networks and clinical-service instances such as cardiac health, mental health and pathology, several in Pacific-rim settings, to more generic papers on the evolution of such services, as well as commentaries on innovative considerations for telehealth such as the emergence of the concept of virtual care, the suitability of health apps, and the status of eHealth readiness in the developing world. This book is a valuable contribution to the body of knowledge on current telehealth research interests and trends, and will be of interest to all those working in the field.

Ubiquitous Positioning and Mobile Location-Based Services in Smart Phones Chen, Ruizhi, 2012-06-30 Many smart phone users reap the benefits of location-based services. While tracking users' positions using their smart phone is an issue of concern for some, others who use Foursquare or rely on their Android GPS view location-based services as a necessity. *Ubiquitous Positioning and Mobile Location-Based Services in Smart Phones* explores new research in smart phones with an emphasis on positioning solutions in smart phones, smart phone-based navigation applications, mobile geographical information systems, and related standards.

A Namaste Care Activity Book Nicola Kendall, 2021-07-21 I open the garden gate, which creaks on old, worn hinges. The rose garden is peaceful but not silent. Bird song and the buzz of bees provide nature's melody. Somewhere in the distance, gentle music is playing and it relaxes me. Namaste Care offers compassionate care to people with advanced dementia through sensory input, comfort and pleasure, combining music, therapeutic touch, colour, food and scents. With ready-to-use structured sensory stories that are specially designed for people with advanced dementia, A Namaste Care Activity Book invites you to enhance your care through storytelling and sensory stimuli. Early chapters give an overview of the approach, exploring the effects of sensory stimulation in improving quality of life. With contributions from professionals across the field, chapters describe ways to engage the different senses, including aromatherapy, food and memory and therapeutic use of lighting. These are followed by a selection of themed stories, with ideas for sensory activities to support each one. In addition to guides for Namaste Care sessions, the book provides a starting point for writing your own stories tailored to the person for whom you are caring. Inspiring creativity and confidence in delivering Namaste Care, the activities provide valuable guidance in caring for and improving the lives of people with advanced dementia.
