Islamic Capital Markets and Products Simon Archer, Rifaat Ahmed Abdel Karim, 2017-12-26 Ensure Basel III compliance with expert analysis specific to Islamic Finance Islamic Capital Markets and Products provides a thorough examination of Islamic capital markets (ICM), with particular attention to the products that they offer and the legal and regulatory infrastructure within which they operate. Since Islamic banks act as asset managers, attention is paid to the regulatory challenges which they face in the light of Basel III, as regards both eligible capital and liquidity risk management. The authors of the chapters are professionals and practitioners, and write from experience. The editors also contributed to some of the chapters. The markets and products covered include Islamic equities, Islamic investment certificates (Sukuk) which are Shari'ah compliant alternatives to conventional bonds, and Islamic Collective Investment Schemes. The coverage of legal and regulatory issues includes an examination of the implications for ICM of securities laws and regulations and of Basel III, as well as collateralisation issues. Shari'ah compliance aspects, in terms both of the selection criteria for Islamic equities and of the 'purification' of impermissible components of income, are also examined in some detail, as are the implications of Basel III for eligible capital in general and for Shari'ah compliant capital instruments in particular. A similar analysis is also made of the implications of the Basel III requirements for liquidity risk management and high quality liquid assets (HQLA), including Shari'ah compliant HQLA. The book concludes with three case studies, two describing the ICM in Malaysia and Bahrain and a third which describes Sukuk issued as Shari'ah compliant capital instruments, followed by brief concluding remarks by the editors.

The Report: Saudi Arabia 2014 Oxford Business Group, 2014-08-18 Home to an estimated 15.9% of the world's proven oil reserves, Saudi Arabia is the single largest economy in the Middle East and North Africa. According to the Ministry of Finance, real GDP grew by 3.8% to \$746bn in 2013. While oil income is expected to continue to account for the majority of government revenues for the foreseeable future, the non-oil sector has expanded significantly in recent decades growing 9.3% in 2013. Indeed, while some Western countries may be seeing a return to cautious optimism and leading emerging economies are weighing the potential impact on capital flows of tapering in the US Federal Reserve's quantitative easing programme, Saudi Arabia is seeing sustained growth buoyed by high global oil prices and internal investment in its own infrastructure. Some 15 years after Saudi Arabia attended the inaugural meeting of G20 countries, its key economic indicators make it the envy of many other member states. Given the size of Saudi economy within the regional and indeed global market, OBG looks in depth at bilateral trade between ASEAN nations and the GCC.

Strategies of Banks and Other Financial Institutions Rajesh Kumar, 2014-07-16 How and why do strategic perspectives of financial institutions differ by class and region? *Strategies of Banks and Other Financial Institutions: Theories and Cases* is an introduction to global financial institutions that presents both theoretical and actual aspects of markets and institutions. The book encompasses depository and non-depository Institutions; money markets, bond markets, and mortgage markets; stock markets, derivative markets, and foreign exchange markets; mutual funds, insurance, and pension funds; and private equity and hedge funds. It also addresses Islamic financing and consolidation in financial institutions and markets. Featuring up-to-date case studies in its second half, *Strategies of Banks and Other Financial Institutions* proposes a useful theoretical framework and strategic perspectives about risk, regulation, markets, and challenges driving the financial sectors. Describes theories and practices that define classes of institutions and differentiate one financial institution from another Presents short, focused treatments of risk and growth strategies by balancing theories and cases Places Islamic banking and finance into a comprehensive, universal perspective

The Report: Saudi Arabia 2018 , Key initiatives include a privatisation programme which would see the divestment of a number of state-owned giants, such as the partial listing of Aramco, the creation of the world's largest sovereign wealth fund and the increased participation of women in the job market. The Kingdom has played a key role too on the international stage in 2017, becoming the first country to host President Trump, a visit which resulted in renewed trade and investment commitments on both sides. Meanwhile the country's importance as a trading hub continues to grow thanks to both the various infrastructural upgrades that are taking place to its ports and airports, as well as its geographical advantage as a connector of three continents and its proximity to the Red Sea – through which 10% of world trade travels.

Saudi Aramco 2030 Mohamed A. Ramady, 2017-10-30 This book discusses the strategic shift in ownership of Aramco, the Saudi Arabian Oil Company, and its potential impact on Aramco's role in a post- privatized world. Scheduled to become an IPO in 2018, Aramco is on the verge of becoming the largest IPO on the market. As the world's largest oil and gas company, Aramco's impending privatization has important implications for the world's petroleum market. This book, therefore, undertakes an analysis of Aramco, examining its history, its current role in Saudi Arabia's economy, and its future role as an IPO. The chapters highlight the likely outcomes for Aramco in proceeding with its planned IPO and privatization, as well as the various policy options and models available to it by drawing on the privatization of other national oil companies in Norway , Russia,

Brazil, and China. The book also explores the complexities that will be involved in transforming Saudi Aramco to a privatized company—albeit with significant government oversight and control—and addresses key questions on the issues likely to be faced, such as IPO pricing, the listing, domain, and market capacity, and potential stakeholders. As such, this book will be of interest to academic researchers studying energy economics, energy policy, and the political economy of the Middle East, as well as private sector decision makers in energy related fields, international organizations, international oil companies, energy commodity traders, and public sector energy policy makers with interest in Saudi Arabia and Aramco's IPO.

Capitalism and Islam in the Making of Modern Bahrain Rajeswary Ampalavanar Brown,2023-05-25 In recent decades, the culture, society, politics, and economics of Bahrain have been transformed, driving its global ambitions while retaining to a degree the rule of law and cosmopolitanism. *Islam and Capitalism in the Making of Modern Bahrain* examines the transformation of Bahrain from the 1930s, from a regional trading port and then an important oil producer into the financial hub for the Gulf and into a global centre of Islamic finance. It focuses on the changes and tensions that transformation brought to Bahrain's political, legal, economic, religious, and social structures. In this book, Rajeswary Brown explores the rising force of youth populism driven by the persistence of poverty and unemployment, notably among rural Shi'ite communities and unemployed middle-class youth, as well as examining Bahrain's skillful reconciliation of the demands of Islamic faith, expressed in the Sharia, to the requirements of modern financial capitalism. In this, Bahrain's experience can be set against the modern history of much of the rest of the Middle East, most strikingly with respect to the position of Islamic charities, notably in Syria, comparisons of which are fully explored here.

Islamic Asset Management Natalie Schoon,2011-01-27 A guide to Sharia'ah-compliant fund systems for students, industry professionals and investorsWhat's the difference between conventional and Islamic asset management? This book reviews the Islamic asset management industry in detail, including the types of funds offered and their operational procedures, and finds that the differences are surprisingly minimal. Sharia'ah-compliant funds are therefore an attractive alternative for Muslim and non-Muslim investors alike.

Mapping the Risks and Risk Management Practices in Islamic Banking Wael Kamal Eid,Mehmet Asutay,2019-04-29 Deep, insightful analysis of controversial risk management issues in Islamic banking *Mapping the Risks And Risk Management Practices In Islamic Banking* is a comprehensive analysis of the current state of risk management practices within the Islamic banking industry, with recommendations for policy makers, bankers, and industry stakeholders. Going beyond the academic, this book presents the opinions and perceptions of industry financiers and bankers, alongside primary information and data collected by Islamic finance professionals to deconstruct and analyze the sector's current risk management practices. You'll get up to date on the latest attitudes and trends, and delve into the current issues surrounding risk management in Islamic banks. With a

focus on practical applications, this authoritative guide discusses the unique risks facing Islamic banks, from the perspective of a wide range of practitioners. Risk management is one of the biggest, most controversial issues in Islamic finance, yet it remains under-researched. Many uncertainties exist for which the answers are still unclear, yet will play a large role in shaping the industry's future. This book digs deep into current ideas and practices to discover what's being done, what needs to be done, and what needs to stop happening to keep the future of Islamic finance strong. Explore both Islamic and traditional attitudes toward risk Examine current Islamic risk management practices Understand the latest industry issues and trends Consider the diverse range of risks unique to the Islamic banking sector Effective risk management in Islamic banking deserves priority attention. Unless the industry develops its own genuine risk management architecture, it cannot achieve its full potential and the viability needed for a more resilient financial system than the debunked Wall Street model. Mapping the Risks and Risk Management Practices in Islamic Banking provides a deep, authoritative analysis of where the industry is today and where it needs to develop.

The Report: Saudi Arabia 2013 ,

The Business Year: Saudi Arabia 2022/23 , The Business Year conducted more than 200 face-to-face interviews with leading investors, business leaders, and government representatives from all key sectors driving the country's economic growth for this 336-page publication. In partnership with the Federation of the Saudi Chambers, we have created a comprehensive analysis of the trends defining the economy of the Kingdom, focusing on its resilience and the efforts of the government to build a new image and position the country as a leading player both at a regional and international level.

Special Report: The New Era , Throughout this 116-page special report, we tell the story of the birth of a sector through the words of the figures who are busy trying to make it a success, including a number of foreign investors, heads of government authorities, and figures involved in the development of the well-known "gigaprojects" that are placing Saudi Arabia's ambitions prominently into news feeds around the world. "Just the simple act of allowing public performance was the first drop of this big ripple effect," said Ahmad M Alammery, a Saudi DJ better known locally as Baloo, the Chief Creative Officer of MDL-BEAST, an entertainment firm with deep roots in the music business. And it was a sentiment we heard throughout our time in the country. And now the starting gun has been fired, any-thing could happen.

Effectively Integrating Ethical Dimensions into Business Education Charles Wankel,Agata Stachowicz-Stanusch,2011-09-01 Over the last decade, we have been witnessing a dramatic contrast between the CEO as a superhero and CEO as an antihero. The new challenge in business education is to develop responsible global leaders. Relatively little is known, however, about how management educators can prepare future leaders to cope effectively with the challenge of leading with integrity in a multicultural space. This volume is authored by a spectrum of international experts with a diversity of backgrounds and perspectives. It suggests directions that business educators might take to reorient higher education to transcend merely equipping people and organizations to greedily proceed, with dire effects on the preponderance of people, nations, our planet and the future. The book is a collection of ideas and concrete solutions with regards to how morality should be taught in a global economy. In the first part, the editors present reasons why management education for integrity makes up an important challenge in an intercultural environment. This book is an overview of a spectrum of approaches to developing moral character in business students in this epoch of dynamic technologies and globalization. Experts share approaches to sensitizing learners to integrity and its opposite in a wide variety of international cases and examples. The impact of colliding cultural differences on management education will be also parsed. With in-depth discussions of the influence of such factors as gender, ethnicity and academic performance the book looks comparatively at the implications for instructors in various cultural contexts. A wide variety of teaching approaches are explained with lengthy examples including ones leveraging humanities and storytelling.

Money, Markets, and Monarchies Adam Hanieh,2018-09-13 An original and empirically grounded analysis of the Gulf monarchies and their role in shaping the political economy of the Middle East.

The Economic Statecraft of the Gulf Arab States Karen E. Young,2022-12-29 This book is a study of a shift in the politics and finance of development from one centered in the institutions and ideas of the post-World War II global political economy to the emergence of South-South economic ties and the rise of authoritarian or state capitalism as an alternative model of development. This is a study of the economic statecraft of the Gulf Arab states, specifically the deployment of aid, investment, and direct support from some of the wealthiest petrostates of the world to their surrounding sphere of influence within the Middle East, Horn of Africa, and West Asia. These new models of development finance, aid, and intervention include distinct institutional designs and ideological bases. For the United Arab Emirates, Saudi Arabia, and Qatar, the preference for state-led and often state-owned development is a strategic priority in the energy sector, a mechanism for domestic economic growth and consolidation of wealth among leadership and ruling families. Exporting that agenda as a foreign economic policy tool continues all of the domestic benefits, while also affirming broader regional political goals.

Doing Business in the MENA Region Laoucine Kerbache,Wolfgang Amann,Nadine Burquel,2017-10-20 Leadership and management education has relied too heavily on insights from North America and Europe. Based
