Campusland Scott Johnston,2019-08-13 This high-spirited, richly imagined, and brave novel is a delight to read... Smart and hilarious. — Kirkus Reviews Joyous, fast and funny, Scott Johnston’s *Campusland* is a satiric howl at today’s elite educational institutions—from safe spaces to tribal infighting to the sheer sanctimony. A wickedly delightful novel that may remind you of Tom Wolfe and David Lodge. Her room sucks. Her closet isn’t big enough for two weeks’-worth of outfits, much less her new Rag & Bone for fall. And there’s nothing worth posting. Cruel. To Lulu Harris—It Girl-in-the-Making—her first year at the ultra-competitive Ivy-like Devon University is a dreary impediment. If she’s fabulous and no one sees it, what’s the point? To

Eph Russell, who looks and sounds like an avatar of privilege (shh!—he’s anything but) Devon is heaven. All day to think and read and linger over a Welsh rarebit at The Faculty Club, not to mention teach English 240 where he gets to discuss all his 19th Century favorites, like Mark Twain. If Eph could just get tenure, he could stay forever, but there are landmines everywhere. In his seventh year at Devon, Red Wheeler is the alpha dog on top of Devon’s progressive hierarchy, the most woke guy on campus. But when his position is challenged, Red is forced to take measures. Before first term is halfway finished, Lulu bumbles her social cache with her clubbable upperclass peers, and is forced to reinvent herself. Shedding her designer clothes, she puts on flannel and a brand-new persona: campus victim. For Lulu to claw her way back to the top, she’ll build a pyre and roast anyone in her way. Presiding over this ferment is Milton Strauss, Devon’s feckless president, who spends his days managing perpetually aggrieved students, scheming administrators, jealous professors, billionaire donors, and bumptious frat boys. He just can’t say yes fast enough. And what to do with Martika Malik-Adams? Isn’t her giant salary as vice-president of Diversity & Inclusion enough? All paths converge as privileged, marginalized, and radical students form identity alliances, sacrifice education for outrage, and push varied agendas of political correctness that drags every free thought of higher learning into the lower depths of an entitled underclass. Campusland is a riotous, subversive and fresh read.

Innovative Internet Secrets Doug Knell, 2018-01-11 There are so many secrets packed in here, I have to wonder if the Illuminati will have this author assassinated - Derrick Mennings, Marxist Internet Weekly Digest Written by an engineering expert with comprehensive knowledge of SEO marketing, computers, and the best Belgian beers to drink with them. Preview the book to enter enlightenment. Give Me A Couple Of Hours And I'll Turn You Into An Internet Wizard! There are other internet secrets books and they work as excellent paperweights and have some therapeutic benefits, too: you can use them to put you to sleep. This book is not to be equated with all those boring-as-all-hell books with dubious internet insights and SEO tips. Trust us: what you know about the internet isn't as much as you think you know. Beyond the basics, how clued in are you really about the internet? You probably know more about Bangladesh (which ain't much, right?) than you do about web development, link building, and search engine optimization. The internet may play an integral role in our lives, yet in informal testing, close to 92% of internet users scored no more than basic competence with it. Less than 16% had any legitimate knowledge of SEO marketing. I can hear you from here: Basic competence is good enough for me. Why would I want or need to do more than that? You can use the Google or Bing search engine (but lazily, not with any genuine optimization), get around the Gmail and Hotmail interfaces, buy an airline ticket at Expedia, order a book at Amazon, and post an update at Facebook. Is that mastery when anyone can do that? Complacency never does anyone any favors. If the complacent had won out, we'd still believe the world is flat and airplane flight is impossible. Do you really need to be told that the internet is one of those things you cannot afford to be complacent about? Your livelihood, your identity, your social networks, your ability to distinguish yourself from the competition will all one day be measured by the breadth and depth of your internet skills. Development of the web hasn't stood still. Should your skills? Every single one of these internet secrets will shoot your internet productivity into the stratosphere and leave you head and shoulders above your peers. We're not naive to think you don't know any of these secrets, but we're confident you

don't know about most of them. Any of these 100+ internet insights will more than make up for the book's cost * Keep your computer and other devices protected: the best anti-virus & malware tools internet tools you should install to keep your computer, mobile phone, and tablet from being crippled. * Set up sharable internet networks wherever you happen to be, like standing in front of Buckingham Palace. * Start building your favorite link bookmarks across all internet browsers and platforms. * Avoid internet scams. * Download and view internet videos offline. Video streaming sucks bandwidth from your 4G plan. * Keep your identity safe. * Transfer large files. * Set up online music libraries so you can listen to your music anywhere, anytime. * Shop on the internet for the absolute best prices. * View web sites optimally on any device. * Remember your passwords for any site and situation. * And much, much more. Some of these internet secrets you could discover if you knew where to look, but it would take you months to collect the same knowledge you'll find here. Other internet tools we've picked up from years of experience. You won't find those gems anywhere else. Dump your other SEO books and for-idiots web development guides. You will not find another internet book this practical or enjoyable for any price. The new internet isn't going anywhere, but you should. Let's get going, with us as your guide along this infinitely more diverse Information Superhighway.
