**Autonorama** Peter Norton,2021-10-21 In Autonorama: The Illusory Promise of High-Tech Driving, historian Peter Norton argues that driverless cars cannot be the safe, sustainable, and inclusive mobility solutions that tech companies and automakers are promising us. The salesmanship behind the driverless future is distracting us from better ways to get around that we can implement now. Unlike autonomous vehicles, these alternatives are inexpensive, safe, sustainable, and inclusive. Norton takes the reader on an engaging ride--from the GM Futurama exhibit to smart highways and vehicles--to show how we are once again being sold car dependency in the guise of mobility. Autonorama is hopeful, advocating for wise, proven, humane mobility that we can invest in now, without waiting for technology that is forever just out of reach.

**Blood, Sweat, and Fear** Jeremy Milloy,2017-05-26 Going postal. We think of the rogue employee who snaps. But Blood, Sweat, and Fear demonstrates that workplace violence never occurs in isolation. Using violence as a lens, Jeremy Milloy provides fresh and original insights into the everyday workings of capitalism, class conflict, race, and gender in the United States and Canada of the late twentieth century, bringing historical perspective to contemporary debates about North American violence. This explosive book traces the shift from the collective violence of strikes and riots to the individualized violence of assaults and shootings, revealing the historical context of the workplace as battleground.
