**Light Defense - Practical Guide On How To Use A Tactical Flashlight For Self Defense** Haim Zeherman,2021-05-08 We live in a world of violence, where crime has become a national disaster for many countries. To survive in modern society, one cannot be passive and must be prepared for everything, in order to protect themselves and their loved ones. Carrying a self-defense weapon as an EDC tool could be the difference between life and death. But finding the right weapon means striking the balance between effectiveness, dealing with restricting laws, and practical real-life applications. When used effectively, the tactical flashlight is a fantastic self-defense weapon that you can carry everywhere, especially where weapons like guns, knives, and mac spray are illegal. It combines the power to blind an attacker with the ability to hit hard and cause significant but non-lethal damage, that will stop any assault. Law enforcement officers, military, and security professionals alike appreciate this small, legal, and discreet self-defense tool. Unfortunately, however, very little has been written about the tactical flashlight as a standalone self-defense weapon, leaving it shrouded in mystery. The purpose of this one-of-a-kind book is to provide ordinary people - men, women, and children - regardless of their gender, size, or skill, with easy, straight-forward, and practical self-defense knowledge, to be able to defend themselves efficiently against any attacker and violent situation on the street, work, or home, in a relatively short period of time. Contents include: Principles of self-defense Psychological preparation Awareness & Avoidance Human body vital points & Natural weapons Why should you consider a flashlight How to choose the best tactical flashlight Carrying & Using the flashlight effectively Functional training methods And much more!

**Flashlight Night** Matt Forrest Esenwine,2017-09-19 Flashlight Night is an ode to the power of imagination and the wonder of books. Three children use a flashlight to light a path around their backyard at night; in the flashlight's beam another world looms. Our heroes encounter spooky woods, a fearsome tiger, a time-forgotten tomb, an Egyptian god, a sword-fighting pirate, and a giant squid. With ingenuity, they vanquish all, then return to their tree house-braver, closer, and wiser than before-to read the books that inspired their adventure.

Flashlight Fighting Phil Elmore,2006-04-01 A simple 6-inch flashlight is an extremely potent self-defense weapon if wielded properly and is among the few useful items one may carry that has yet to be legislated into liability. Guns are strictly controlled in some areas; knives are subject to as many if not more laws, some of them so vague that they defy interpretation. Collapsible batons, billy clubs, mace and pepper sprays are often illegal, but few, if any, regulations concern the possession of the common pocket torch. About now you're probably thinking that you're in deep trouble if the only weapon you've got is a battery-powered flashlight, but anyone who knows how to use a palm stick knows just how effective even a short length of rigid material can be. Thrust into the body's soft targets, joints and other vital areas, it can debilitate and even kill an attacker.
