Armed with strategies and tactics learned over thousands of races, cyclists and cycling fans will learn how to read a race--and see how to win it. Starting breaks, forming alliances, managing a lapped field, setting up a sprint--on every page, Horner and Smith reveal new secrets to faster racing and better results. Smith and Horner dissect common mistakes, guiding riders with lessons learned from decades of racing experience. Reading the Race reveals the veteran's eye view on: Assembling the best possible team Crafting strategies around the team, course, and rivals Reacting instantly to common scenarios Making deals and combines Breaks, echelons, blocking Pack protocol and etiquette Finishing in the prize money or on the podium Winning the group ride Whether you're a new racer, an aspiring pro, a team manager, or even a roadside fan, Reading the Race will elevate your cycling IQ for better

racing.

Filled with colorful pictures, the book encourages young writers to make up a tale of fun and adventure. The story begins when the cyclists line up to begin the race. There are bumps to leap over, curves and rocks to navigate. One cyclist falls. What will happen? Will someone stop to help? Young authors use their imaginations to create this tale. There are questions, after the story ends, which help the writer focus on elements of creating a story, encouraging further exploration. Come join other children
