**King of the Slots** Jack Harpster,2010-05-05 This book offers the first full-length biography of the man often described as one of the most influential and innovative people in the gaming industry over the past 50 years. *King of the Slots: William Si Redd* relates the fascinating, only-in-America success story of one man's improbable rise from the depths of poverty to the heights of international commerce and dazzling wealth. William Silas Si Redd is recognized as one of the most important and influential persons in the gaming industry over the past half century. The company he founded, International Game Technology (IGT), is the world leader in the manufacture of gaming equipment and gaming software features. His video poker is the most popular slot machine since the original debuted in 1899. *King of the Slots* covers the life (1911-2003) and rags-to-riches story of the man who changed the face of the casino gaming industry. Both a business book and a biography, it introduces readers to the nation's leading gaming centers, Apollo-era technology and how it changed gambling, and the race to perfect the first video poker game. It also gives them a chance to meet the characters with whom Redd rubbed shoulders, including Howard Hughes, Mafia capo Raymond Patriarca, Arizona cowboy and pig farmer Jimmie Hughes, gaming legend Bill Harrah, and casino visionary Jay Sarno.

**Bingo Capitalism** Kate Bedford,2019-07-19 Casinos are often used by political economists, and popular commentators, to think critically about capitalism. Bingo - an equal chance numbers game played in many parts of the world - is overlooked in these conversations about gambling and political economy. *Bingo Capitalism* challenges that omission by asking what bingo in England and Wales can teach us about capitalism and the regulation of everyday gambling economies. The book draws on official records of parliamentary debate, case law, regulations and in-depth interviews with both bingo players and workers to offer the first socio-legal account of this globally significant and immensely popular pastime. It explores the legal and political history of bingo and how gender shapes, and is shaped by, diverse state rules on gambling. It also sheds light on the regulation of workers, players, products, places, and technologies. In so doing it adds a vital new dimension to accounts of UK gambling law and regulation. Through *Bingo Capitalism*, Bedford makes a key theoretical contribution to our understanding of the relationship between gambling and political economy, showing the role of the state in supporting and then eclipsing environments where gambling played a key role as mutual aid. In centring the regulatory entanglement between vernacular play forms, self-organised membership activity, and corporate leisure experiences, she offers a fresh vision of gambling law from the everyday perspective of bingo.

**An Innocent in Newfoundland** David McFadden, 2016-12-06 David McFadden travels around Newfoundland. Who knows which was most charmed In An Innocent in Ireland (1995) and An Innocent in Scotland (1999), poet and traveller David McFadden let the spirit of the country - and his own interests - guide his rambles. He has now done the same in Newfoundland. Zigzagging across the province in his rented car, he charts an erratic course, admiring lawn sculpture (in his opinion a new local art), visiting fellow poets and publishers, wandering at dusk among the Viking mounds at L'Anse aux Meadows, rooming with a Salvation Army family in a distant outpost (and discovering a family tragedy), hanging on in a stiff wind to watch birds nesting on a cliff face, and enjoying the social life in countless bars and restaurants. It soon becomes clear that McFadden's love of a good chat is shared widely by the people he meets in Newfoundland and he is wise enough to let them tell their own stories. For, as ever, his interest is in the heart of a place - and not just its scenery. Alert, somewhat eccentric, always ready to amuse and be amused, David McFadden is an ideal travelling companion.

**Contesting the Postwar City** Eric Fure-Slocum, 2013-06-28 Focusing on midcentury Milwaukee, Eric Fure-Slocum charts the remaking of political culture in the industrial city. Professor Fure-Slocum shows how two contending visions of the 1940s city - working-class politics and growth politics - fit together uneasily and were transformed amid a series of social and policy clashes. Contests that pitted the principles of democratic access and distribution against efficiency and productivity included the hard-fought politics of housing and redevelopment, controversies over petty gambling, questions about the role of organized labor in urban life, and battles over municipal fiscal policy and autonomy. These episodes occurred during a time of rapid change in the city's working class, as African-American workers arrived to seek jobs, women temporarily advanced in workplaces, and labor unions grew. At the same time, businesses and property owners sought to reestablish legitimacy in the changing landscape. This study examines these local conflicts, showing how they forged the postwar city and laid a foundation for the neoliberal city.

Casino U.S.A. evaluates all in terms of decor, customer care, food, services, and hotel arrangements, as well as tariffs, accessibility, and gaming regulations. *Changing the Game* Joanne L. Goodwin, 2014-09-08 The growth of Las Vegas that began in the 1940s brought an influx of both women and men looking to work in the expanding hotel and casino industries. In fact, for the next fifty years the proportion of women in the labor force was greater in Las Vegas than the United States as a whole. Joanne L. Goodwin's study captures the shifting boundaries of women's employment in the postwar decades with narratives drawn from the Las Vegas Women Oral History Project. It counters clichéd pictures of women at work in the famed resort city as it explores women's real strategies for economic survival and success. Their experiences anticipated major trends in post-World War II labor history: the national migration of workers during and after the war, the growing proportion of women in the labor force, balancing work with family life, the unionization of service workers, and, above all, the desegregation of the labor force by sex and race. These narratives show women in Las Vegas resisting preassigned roles, seeing their work as a testimony of skill, a measure of independence, and a fulfillment of needs. Overall, these stories of women who lived and worked in Las Vegas in the last half of the twentieth century reveal much about the broader transitions for women in America between 1940 and 1990.
