The Tree Horoscope Daniela Christine Huber,2021-10-05 • Explains how to determine your personal tree of life depending on your date of birth and how this tree reveals your gifts, talents, and life path • Features full-color photos that capture the true spirit of the trees • Details each tree's spiritual meaning, element family, essential qualities, healing effects, gifts and talents, and symbolism Drawing on her intimate knowledge of trees and connections to Celtic traditions, Daniela Christine Huber shares a new interpretation of the tree horoscope calendar--where 22 archetypal trees are associated with different dates throughout the year and just like birth stones or astrological signs can reveal your innate talents and unique life path. Featuring full-color photos that capture the true spirit of the trees as well as in-depth descriptions of the characteristic qualities of the tree personality types, Huber's guide explains how to determine your personal tree of life depending on your date of birth and reveals how this tree stands by your side with its gifts and talents as a faithful friend and companion for a lifetime. The 22 trees of the calendar are Oak, Hazelnut, Rowan, Maple, Walnut, Yew, Chestnut, Ash, Hornbeam, Fig, Birch, Apple, Fir, Elm, Olive, Cypress, Poplar, Cedar, Pine, Willow, Linden, and Beech. Each tree species occurs twice in the annual cycle, except for Oak, Birch, Olive, and Beech, which are specially assigned to the equinoxes and solstices. Each tree description explores the tree's spiritual meaning, element family, essential qualities, healing effects, gifts and talents, and symbolism. The author also includes an everlasting birthday calendar to record the birthdates of your family and friends, and she looks at the birth trees of several famous people. Showing how each of the 22 trees of the tree horoscope holds great power, Huber explains how your birth tree is the guardian of your individual potential and reveals the abilities and talents available to you in your life. Recognizing and developing the gifts that your birth tree reveals can help you dissolve entrenched habits and patterns, regain inner balance, and activate the full potential of your tree horoscope destiny.

Tilly's Tree Patricia Ann Marshall,2014-08-22 Trees are sanctuaries. Whoever knows how to speak to them, whoever knows how to listen to them, can learn the truth. They do not preach learning and precepts, they preach undeterred by particulars, the ancient law of life. --Hermann Hesse Tilly's Tree begins with the birth of a baby girl. To honor her life and teach her to connect with all living things, Grandpa planted a tree. --Excerpt from Tilly's Tree Tilly and her tree grow through life together as Grandpa teaches Tilly to have compassion for all living things. One day, Tilly arrives home to find her Mom waiting to share the sad news that Grandpa passed on. Together, they find comfort under Tilly's tree. After a reflective summer under her tree, Tilly is awakened to the connections between all living things and to her own greater purpose, just as Grandpa had intended. Tilly grows up to become an arborist in a forest where she cares for many trees. She meets a special person in the forest that shares her connection to all living things. They marry under Tilly's tree. Moments before her ceremony: She closed her eyes and saw herself as a child there. She heard Grandpa's voice in the rustling leaves and felt his gentle kiss through the breeze on her cheek. Tilly heard her own laughter swirling through the branches above. She remembered the hours of quiet and stillness and those miraculous moments when she was awakened with an understanding that she was a part of everything that existed in the world. Tilly's heart opened wide from all the love and sacred gifts that had been shared under her special tree. --Excerpt from Tilly's Tree Sometime later, Tilly gives birth to a baby girl, and the story comes full circle to repeat this family's tradition of honoring the birth of a child.

Magic Trees of the Mind Marian Diamond,Janet Hopson,1999-01-01 Cutting edge scientific research has shown that exposure to the right kind of environment during the first years of life actually affects the physical structure of a child's brain, vastly increasing the number of neuron branches—the magic trees of the mind—that help us to learn, think, and remember. At each stage of development, the brain's ability to gain new skills and process information is refined. As a leading researcher at the University of California at Berkeley, Marion Diamond has been a pioneer in this field of research. Now, Diamond and award-winning science writer Janet Hopson present a comprehensive enrichment program designed to help parents prepare their children for a lifetime of learning.

Finding the Mother Tree Suzanne Simard,2021-05-04 INSTANT NATIONAL BESTSELLER NEW YORK TIMES BESTSELLER *WINNER of the 2021 Banff Mountain Book Prize in Mountain Environment and Natural History* *WINNER of the National Outdoor Book Award for Natural History Literature* *SHORTLISTED for the 2022 BC and Yukon Hubert Evans Non-Fiction Book Prize* *SHORTLISTED for the 2022 BC and Yukon Bill Duthie Booksellers’ Choice Award* *SHORTLISTED for the 2021 Science Writers and Communicators of Canada Book Award* A world-leading expert shares her amazing story of discovering the communication that exists between trees, and shares her own story of family and grief. Suzanne Simard is a pioneer on the frontier of plant communication and intelligence; she’s been compared to Rachel Carson, hailed as a scientist who conveys complex, technical ideas in a way that is dazzling and profound. Her work has influenced filmmakers (the Tree of Souls in James Cameron’s Avatar), and her TED talks have been viewed by more than 10 million people worldwide. Now, in her first book, Simard brings us into her world, the intimate world of the trees, in which she brilliantly illuminates the fascinating and vital truths—that trees are not simply the source of timber or pulp but are a complicated, interdependent circle of life; that forests are social, cooperative creatures connected through underground networks by which trees communicate their vitality and vulnerabilities with communal lives not that different from our own. Simard describes up close—in revealing and accessible ways—how trees, living side by side for hundreds of years, have evolved; how they perceive one another, learn and adapt their behaviors, recognize neighbors, and remember the past; how they have agency about their future; how they elicit warnings and mount defenses, compete and cooperate with one another with sophistication: characteristics previously ascribed to human intelligence, traits that are the essence of civil societies. And, at the center of it all, the Mother Trees: the mysterious, powerful forces that connect and sustain the others that surround them. Simard, born and raised in the rain forests of British Columbia, spent her days as a child cataloging the trees from the forest; she came to love and respect them and embarked on a journey of discovery and struggle. Her powerful story is one of love and loss, of observation and change, of risk and reward. And it is a testament to how deeply human scientific inquiry exists beyond data and technology: it’s about understanding who we are and our place in the world. In her book, as in her groundbreaking research, Simard proves the true connectedness of the Mother Tree to the forest, nurturing it in the profound ways that families and humansocieties nurture one another, and how these inseparable bonds enable all our survival.

The Giving Tree Shel Silverstein,2014-02-18 As The Giving Tree turns fifty, this timeless classic is available for the first time ever in ebook format. This digital edition allows young readers and lifelong fans to continue the legacy and love of a classic that will now reach an even wider audience. Once there was a tree...and she loved a little boy. So begins a story of unforgettable perception, beautifully written and illustrated by the gifted and versatile Shel Silverstein. This moving parable for all ages offers a touching interpretation of the gift of giving and a serene acceptance of another's capacity to love in return. Every day the boy would come to the tree to eat her apples, swing from her branches, or slide down her trunk...and the tree was happy. But as the boy grew older he began to want more from the tree, and the tree gave and gave and gave. This is a tender story, touched with sadness, aglow with consolation. Shel Silverstein's incomparable career as a bestselling children's book author and illustrator began with *Lafcadio, the Lion Who Shot Back*. He is also the creator of picture books including *A Giraffe and a Half, Who Wants a Cheap Rhinoceros?*, *The Missing Piece*, *The Missing Piece Meets the Big O*, and the perennial favorite *The Giving Tree*, and of classic poetry collections such as *Where the Sidewalk Ends*, *A Light in the Attic*, *Falling Up*, *Every Thing On It*, *Don't Bump the Glump!*, and *Runny Babbit*. And don't miss the other Shel Silverstein ebooks, *Where the Sidewalk Ends* and *A Light in the Attic*!

Memories of a Birch Tree Daniel Cañas,2022-03-31 Moving to a new city can be a heartbreaking experience, but also an opportunity to grow. This Birch Tree will realize that even in the darkest spots, one can shine brighter than ever. The day they took me out of my home and loaded me onto a truck changed everything. I went from living surrounded by nature, with my brothers, to ending up girdled by towering buildings in a polluted, noisy city. I was homesick. Accepting that change was extremely difficult, but then I started to realize that the city was not that bad after all. A friendly gardener took care of me. He watered my soil, gave me fertilizer, and trimmed my dry branches so that a pair of finches could nest in them. began to feel very useful, as I gave them my shade, my oxygen, and my gently-flavored seeds. I soon understood that hope and love could manifest anywhere in the world, so I decided to put down roots. A story that invites us to see adversities as opportunities, and to trust that changes, despite surprising us, can help us grow.
