## **Black Submariners in the United States Navy,**

**1940-1975** Glenn A. Knoblock, 2011-04-04 For as long as an American naval force has existed, black sailors have served it with bravery, distinction, and little or no recognition. They have since earned praise for service in the American Revolution, the War of 1812, and the Civil War, and more recently, they were integral to the development of the U.S. Submarine Service. Their roles limited by segregation, black submariners nonetheless were a key element of the "Silent Service" throughout World War II. With desegregation came expanded opportunities, and black submariners witnessed the birth and evolution of the nuclear-powered submarine, and some of the tensest moments of the Cold War. These men paved the way for those who followed—their contributions deserve recognition, and their stories deserve to be told. This exploration of the role of African American submariners chronicles their service from World War II through the Cold War era. An historical overview of black sailors and the evolution of the Steward's Branch, to which black sailors were eventually restricted, precede descriptions of becoming a steward and a submariner, and of life as a submariner during World War II. An account of black submariners in post-war service during desegregation, the development of the nuclear submarine, and throughout the Cold War follows. Oral histories of more than fifty black submariners who served in World War II and post-war form the heart of the book. Photographs of the men profiled, including wartime photographs, complement the text. Appendices outline the naval steward rating system, list all black submarine stewards serving in World War II, top stewards by number of war patrols, and those lost or killed during wartime service. Rear Admiral Melvin G. Williams, Jr., submarine fleet commander and son of one of the men profiled, provides a foreword.

Black Officer, White Navy Reuben Keith Green, 2017-09-25

Black Officer, White Navy is likely the first memoir of a Black naval officer who rose from high school dropout to unrestricted line officer in the post-Vietnam War era. The author's unique career path and insightful analysis of both his personal experiences and those of others in the military give a clear picture of what was happening both within and outside the Navy, and how the forces of discrimination and institutional denial and damage control efforts can make a career in the military fraught with obstacles, as well as opportunities, for a well-qualified minority of any gender, race, or ethnic origin. Recent events and the impact of the commander in chief's statements and actions, which have a direct impact on the thinking and behavior of persons in uniform, make this a timely addition to any military member's library. It is full of potential case study material for any military instructional or group facilitation activity, as well as providing an historical overview of what it was like to be a minority sailor or officer between 1975 and the mid-1990's. Any sailor in uniform, regardless of pay grade or commissioned status, can both benefit and learn lessons from this work. Families can use this work to prepare their own loved ones or to help them try to understand the often lingering consequences of their loved one's military service.

**Blue & Gold and Black** Robert J. Schneller, 2008 During the twentieth century, the U.S. Naval Academy evolved from a racist institution to one that ranked equal opportunity among its fundamental tenets. This transformation was not without its social cost, however, and black midshipmen bore the brunt of it. Blue & Gold and Black is the history of integration of African Americans into the Naval Academy. The book examines how civil rights advocates' demands for equal opportunity shaped the Naval Academy's evolution. Author Robert J. Schneller Jr. analyzes how changes in the Academy's policies and culture affected the lives of black midshipmen, as well as how black midshipmen effected change in the Academy's policies and culture. Most institutional

history is written from the top down, while most social history is written from the bottom up. Based on the documentary record as well as on the memories of hundreds of midshipmen and naval officers, *Blue & Gold and Black* includes both perspectives. By examining both the institution and the individual, a much more accurate picture emerges of how racial integration occurred at the Naval Academy. Schneller takes a biographical approach to social history. Through written correspondence, responses to questionnaires, memoirs, and oral histories, African American midshipmen recount their experiences in their own words. Rather than setting adrift their humanity and individuality in oceans of statistics, Schneller uses their first-hand recollections to provide insights into the Academy's culture that cannot be gained from official records. Covering the Jim Crow era, the civil rights movement, and the empowerment of African Americans from the late 1960s through the end of the twentieth century, *Blue & Gold and Black* traces the transformation of an institution that produces men and women who lead not only the Navy, but also the nation.

**The Golden Thirteen** Dan Goldberg, 2020-05-19 The story of the 13 courageous black men who integrated the officer corps of the US Navy during World War II—leading desegregation efforts across America and anticipating the civil rights movement Through oral histories and original interviews with surviving family members, Dan Goldberg brings 13 forgotten heroes away from the margins of history and into the spotlight. He reveals the opposition these men faced: the racist pseudo-science, the regular condescension, the repeated epithets, the verbal abuse and even violence. Despite these immense challenges, the Golden Thirteen persisted—understanding the power of integration, the opportunities for black Americans if they succeeded, and the consequences if they failed. Until 1942, black men in the Navy

could hold jobs only as cleaners and cooks. The Navy reluctantly decided to select the first black men to undergo officer training in 1944, after enormous pressure from ordinary citizens and civil rights leaders. These men, segregated and sworn to secrecy, worked harder than they ever had in their lives and ultimately passed their exams with the highest average of any class in Navy history. In March 1944, these sailors became officers, the first black men to wear the gold stripes. Yet even then, their fight wasn't over: white men refused to salute them, refused to eat at their table, and refused to accept that black men could be superior to them in rank. Still, the Golden Thirteen persevered, determined to hold their heads high and set an example that would inspire generations to come. In the vein of Hidden Figures, The Golden Thirteen reveals the contributions of heroes who were previously lost to history.

Black Sailor, White Navy John Darrell Sherwood, 2007-11 John Darrell Sherwood has mined the archives of the U.S. Navy and conducted scores of interviews with Vietnam veterans - both black and white - and other military personnel to reveal the full extent of racial unrest in the Navy during the Vietnam War era, as well as the Navy's attempts to control it. During the second half of the Vietnam War, the Navy witnessed some of the worst incidents of racial strife ever experienced by the American military. Sherwood introduces us to fierce encounters on American warships and bases, ranging from sit-down strikes to major race riots - in particular, the incidents on the USS Kitty Hawk, the USS Hassayampa, and the USS Constellation. Sherwood seeks out the cause of this racial turbulence, and asks if the Navy's subsequent reforms led to any resolution.

**The Golden Thirteen** Paul Stillwell, 2013-08-20 In January 1944 sixteen black enlisted men gathered at the Great Lakes Naval Training Station in Illinois to begin a cram course that would turn them into the U.S. Navy's first African-American officers on active duty. The men believed they could set back the course of

racial justice if they failed and banded together so all would succeed. Despite the demanding pace, all sixteen passed the course. Twelve were commissioned as ensigns and a thirteenth was made a warrant officer. Years later these pioneers came to be known as the Golden Thirteen, but at the outset they were treated more as pariahs than pioneers. Often denied the privileges and respect routinely accorded white naval officers, they were given menial assignments unworthy of their abilities and training. Yet despite this discrimination, these inspirational young men broke new ground and opened the door for generations to come. In 1986, oral historian Paul Stillwell began recording the memories of the eight surviving members of the Golden Thirteen. Later he interviewed three white officers who served with and supported the efforts of the men during World War II. This book collects the stories of those eleven men. Introduced by Colin L. Powell, they tell in dramatic fashion what it was like to be a black American.

**Black Men and Blue Water** Chester A. Wright, 2009 It was a warm summer afternoon when Bill and his little sister Nell headed out with their fishing poles and snacks for the little pond in the meadow. Be home in time for supper, Mother called as she waved goodbye. Later that afternoon while sitting beneath a shade tree eating their snacks, they spied off in the distance a rusted old steam engine with a caboose attached behind. On exploring it further, they encounter unexpected events that prevent them from ever making it home in time for supper. Enjoy this mixture of adventure, fantasy, suspense and Christian morals all in one as you follow Bill and Nell through their adventures into the unknown.

**African American Men and Opportunity in the Navy** Arthur L. Dunklin, 2014-11-21 The United States military is often presented as a model of equal-opportunity employment. In this work, the author examines and challenges this assertion with respect to the Navy. Dunklin studies Navy claims of meritocracy and training processes, profiles the careers of eight senior enlisted African American servicemen, and examines barriers to African

American inclusion. First-hand accounts and interviews provide insight into the coping mechanisms and struggles of African Americans in the Navy. The author concludes by offering suggestions to improve the Navy equal opportunity environment.

*Brown Water, Black Berets* Thomas J Cutler, 2012-04-15 The men of the U.S. Navy's brown-water force played a vital but often overlooked role in the Vietnam War. Known for their black berets and limitless courage, they maneuvered their aging, makeshift craft along shallow coastal waters and twisting inland waterways to search out the enemy. In this moving tribute to their contributions and sacrifices, Tom Cutler records their dramatic story as only a participant could. His own Vietnam experience enables him to add a striking human dimension to the account. The terror of firefights along the jungle-lined rivers, the rigors of camp life, and the sudden perils of guerrilla warfare are conveyed with authenticity. At the same time, the author's training as a historian allows him to objectively describe the scope of the navy's operations and evaluate their effectiveness. Winner of the Navy League's Alfred Thayer Mahan Award for Literary Achievement in 1988 when the book was first published, Cutler is credited with having written the definitive history of the brown-water sailors, an effort that has helped readers better understand the nature of U.S. involvement in the war.

The Saga of Black Navy Veterans of World War II James Sedalia Peters, 1996 James Peters provides to both the amateur and professional historian, an excellent study of the early struggles of African American WWII veterans prior to and after the desegregation of the navy. Excellent detail is provided and supported by first hand accounts, including appendices transcribing minutes of the reunion of the veterans as well as anecdotes from the author, who enlisted in the U.S. Navy in 1942.

**Trailblazer** Samuel Lee Gravely, Paul Stillwell, 2010 ' A Navy pioneer, Vice Adm. Samuel Gravely was the first African American to be commissioned a flag officer in the U.S. Navy, the first to

command a Navy ship in the twentieth century, and the first to command a U.S. numbered fleet. In this memoir, co-authored by the noted naval historian Paul Stillwell, Gravely describes his life from his boyhood in Richmond, Virginia, through his officer service on board a World War II submarine chaser, to later tours of duty at sea and ashore. Denied housing and even jailed for impersonating an officer, he recounts efforts to overcome both cultural and institutional obstacles posed by racism as he rose through the ranks. In 2009, the Navy named the guided missile destroyer Gravely in his honor.' (Naval Institute Press website)

**Into the Tiger's Jaw** Frank E Petersen, Alfred J

Phelps, 2012-07-30 Like many 18-year-olds who sign up to serve with the U.S. Navy, Petersen was looking for adventure when he enlisted. The difference between him and the average kid of 1950, when he enlisted, was that Petersen was African American. At the time military opportunities were limited for blacks, so it was remarkable that Petersen, revealed here as an intense go-getter, was admitted to the highly competitive naval aviation cadet program. He would go on to become the first African American pilot, then flag officer, then three-star general in the deeply conservative Marine Corps. Assisted by veteran biographer Phelps, Petersen relates his personal and career trajectory from wide-eyed kid to seasoned combatant. Although the presentation at times is overly detailed, with recollections of Petersen's acquaintances sprinkled liberally throughout. This work offers valuable insight into the evolution of both the military and the society at large through the experience of one man and his family. It's hard not to wince when Petersen describes being stopped for impersonating a military officer at a time when blacks in the service were presumed to be enlisted men. Other anecdotes are more benign, such as the time a puzzled young Korean woman tried to wipe the color from his face. To Petersen's credit, he includes much commentary from his first wife, Ellie, who is candid about the toll of being married to an ambitious pioneer. Through her, readers

see the mettle of that rare breed of social groundbreakers. — Publishers Weekly

**Black Officer, White Navy** Reuben Keith Green, 2024-06-18  
In *Black Officer, White Navy*, Lieutenant Commander Reuben Keith Green shares a compelling and enthralling account of how, as a Black man in the post-Vietnam War era, he navigated his unique career path from high school dropout to unrestricted line officer in the US Navy. Weaving history with personal narrative, Green's engaging, raw, and insightful storytelling style provides an insider's analysis of what was happening within the navy, ultimately exposing systemic racism throughout the US military. Using the power of the pen, he offers uninhibited accounts of sometimes life-threatening confrontations that resulted from personal and institutional racial bias, describing what it was like to sail second class in the navy. Green, who retired as a decorated surface-warfare officer in the mid-1990s, presents an eye-opening account of the challenges, discrimination, and resistance he faced while serving in the military. Through it all, Green's characteristic sense of humor and honesty shine as he tells one hell of a sea story.

**Flying Black Ponies** Kit Lavell, 2009-09-01  
The tragic, the comic, the terrifying, the poignant are all part of the story of the Black Pony pilots who distinguished themselves in the Mekong Delta during the Vietnam War. Flying their turboprop Broncos down and dirty, low and slow, they killed more of the enemy and

saved more allied lives with close-air support than all the other naval squadrons combined during the three years they saw action. Author Kit Lavell was part of this squadron of black sheep given a chance to make something of themselves flying these dangerous missions. The U.S. Navy's only land-based attack squadron, Light Attack Squadron Four (VAL-4) flew support missions for the counter insurgency forces, SEALs, and allied units in borrowed, propeller-driven OV-10s. For fixed-wing aircraft they were dangerous, unorthodox missions, a fact readers quickly come to appreciate.
