**No Word for Welcome** Wendy Louise Call, 2011-06-01 Wendy Call visited the Isthmus of Tehuantepec?the lush sliver of land connecting the Yucatan Peninsula to the rest of Mexico?for the first time in 1997. She found herself in the midst of a storied land, a place Mexicans call their country's?little waist,? a place long known for its strong women, spirited marketplaces, and deep sense of independence. She also landed in the middle of a ferocious battle over plans to industrialize the region, where most people still fish, farm, and work in the forests. In the decade that followed her first visit, Call witnessed farmland being paved for new highways, oil spilling into rivers, and forests burning down. Through it all, local people fought to protect their lands and their livelihoods?and their very lives.ø ø Call?s story, *No Word for Welcome*,

invites readers into the homes, classrooms, storefronts, and fishing boats of the isthmus, as well as the mahogany-paneled high-rise offices of those striving to control the region. With timely and invaluable insights into the development battle, Call shows that the people who have suffered most from economic globalization have some of the clearest ideas about how we can all survive it.

**Colchester, Fortress of the War God** David Radford, Adrian Gascoyne, 2013-07-19 This volume is a critical assessment of the current state of archaeological knowledge of the settlement originally called Camulodunon and now known as Colchester. The town has been the subject of antiquarian interest since the late 16th century and the first modern archaeological excavations occurred in 1845 close to Colchester Castle, the town's most prominent historic site. The earliest significant human occupation recorded from Colchester dates to the late Neolithic, but it was only towards the end of the 1st century BC that an oppidum was established in the area. This was superseded initially by a Roman legionary fortress and then the colonia of Camulodunum on a hilltop bounded on the north and east by the river Colne. There is little evidence for continuing occupation here in the early post-Roman period, but in 917

the town was re-established as a burgh and gradually grew in importance. After the Norman Conquest, a castle was built on the foundations of the ruined Roman Temple of Claudius, and a priory and an abbey were established just to the south of the walled town. Although the town, as elsewhere, was affected by the Dissolution of the Monasteries and the English Civil War it remained essentially medieval in character until the 18th century. During the 19th century this process of change was accelerated by the arrival of the railway, industrialisation and the establishment of the military garrison. Since the 1960s Colchester has been subject to recurring phases of re-development, the most recent having ended only in 2007, which have had a significant impact on the historic environment. Fortunately the town is one of the best studied in the country.
