Charles Henry Bennett

Blockheads! Adam Pautz, Daniel Stoljar, 2019-02-12 New essays on the philosophy of Ned Block, with substantive and wide-ranging responses by Block. Perhaps more than any other philosopher of mind, Ned Block synthesizes philosophical and scientific approaches to the mind; he is unique in moving back and forth across this divide, doing so with creativity and intensity. Over the course of his career, Block has made groundbreaking contributions to our understanding of intelligence, representation, and consciousness. *Blockheads!* (the title refers to Block's imaginary counterexample to the Turing test—and to the Block-enthusiast contributors) offers eighteen new essays on Block's work along with substantive and wide-ranging replies by Block. The essays and responses not only address Block's past contributions but are rich with new ideas and argument. They importantly clarify many key elements of Block's work, including his pessimism concerning such thought experiments as *Commander Data* and the *Nation of China*; his more general pessimism about intuitions and introspection in the philosophy of mind; the empirical case for an antifunctionalist, biological theory of phenomenal consciousness; the fading qualia problem for a biological theory; the link between phenomenal consciousness and representation (especially spatial representation); and the reducibility of phenomenal representation. Many of the contributors to *Blockheads!* are prominent philosophers themselves, including Tyler Burge, David Chalmers, Frank Jackson, and Hilary Putnam. Contributors Ned Block, Bill Brewer, Richard Brown, Tyler Burge, Marisa Carrasco, David Chalmers, Frank Jackson, Hakwan Lau, Geoffrey Lee, Janet Levin, Joseph Levine, William G. Lycan, Brian P. McLaughlin, Adam Pautz, Hilary Putnam, Sydney Shoemaker, Susanna Siegel, Nicholas Silins, Daniel Stoljar, Michael Tye, Sebastian Watzl

Certitude Adam Begley, 2009-05-12 Sometimes all we have is the courage of our convictions. But

not all convictions are created equal. In fact, some are downright delusional. And once a foolish notion sinks its teeth into the famous or the powerful, look out—the impact can have profound consequences for the rest of us. So it's nothing short of gratifying when our most bullheaded and self-righteous leading lights insist on getting their way only to be proven egregiously embarrassingly wrong. From politicians to pontiffs, movie stars to moguls, and artists to inventors, *Certitude* presents short biographical sketches of notoriously stubborn individuals who were certain they were right—with laughable, disturbing, and often disastrous results. Earning a place among the greatest historical and contemporary bullheads are: •Girolamo Savonarola, the Dominican friar who failed to place his own vanities on the bonfire. •Carry A. Nation, the saloon smasher who didn't have a temperate bone in her teetotaling body. •Arthur Conan Doyle, author of the Sherlock Holmes series, who lacked the deductive reasoning he bestowed on his own creation. •Joseph Stalin, the hard-line Soviet leader who had a soft spot after all. •Madonna, the queen of pop, who isn't just a material girl: She's embraced Kabbalah and the doctrine of reincarnation—in other words, she'll be back! Informative, irreverent, and brilliantly illustrated by the caricaturist Edward Sorel, *Certitude* is a book for our time.

Why is their bird friend upside-down? And can they stop the block-headed war between Big Whoosh's forest folk and Quagmire's swampy Bloblins? Get ready for a tale filled with thrilling escapes, laugh-out-loud moments, clever disguises (some not so successful)...and above all else – the value of friendship! The Awesome Adventures of Will and Randolph When Will receives a mystical amulet, it brings his toy bear Randolph to life! This triggers a cascade of adventures where every book catapults them into peculiar new worlds. With Toy Story-like charm and Mr Benn's magical touch, this series follows their journey as they tackle moral dilemmas with courage and humour. Jeffrey Archer (1940-) is a bestselling British author and former politician, renowned for his captivating novels, short stories, and children's books published in over 97 countries and over 37 languages. His best-known works include 'First Among Equals', 'Kane and Abel' and 'Only Time Will Tell'.

Blockheads, Beagles, and Sweet Babboos Michelle Ann Abate,2023-03-02 Blockheads, Beagles, and Sweet Babboos: New Perspectives on Charles M. Schulz's Peanuts sheds new light on the past

importance, ongoing significance, and future relevance of a comics series that millions adore: Charles M. Schulz's *Peanuts*. More specifically, it examines a fundamental feature of the series: its core cast of characters. In chapters devoted to Charlie Brown, Snoopy, Lucy, Franklin, Pigpen, Woodstock, and Linus, author Michelle Ann Abate explores the figures who made Schulz's strip so successful, so influential, and—above all—so beloved. In so doing, the book gives these iconic figures the in-depth critical attention that they deserve and for which they are long overdue. Abate considers the exceedingly familiar characters from *Peanuts* in markedly unfamiliar ways. Drawing on a wide array of interpretive lenses, *Blockheads*, *Beagles*, and *Sweet Babboos* invites readers to revisit, reexamine, and rethink characters that have been household names for generations. Through this process, the chapters demonstrate not only how Schulz's work remains a subject of acute critical interest more than twenty years after the final strip appeared, but also how it embodies a rich and fertile site of social, cultural, and political meaning.
