Nigel Watt

Burundi Nigel Watt, 2008 Little known in the English-speaking world, Burundi is Rwanda's twin, a small Central African country with a complex history of ethnic tension between its Hutu and Tutsi populations that has itself experienced traumatic events, including mass killings of over 200,000 people. The country remained in a state of simmering civil war until 2004, after which Julius Nyerere and Nelson Mandela took turns as mediators in a lengthy, and eventually successful, peace process which has endowed Burundi with new institutions, including a new constitution, that led to the election of a majority Hutu government in 2005. But there are many problems still to solve apart from ethnic tensions, above all the entrenched poverty of most Burundians, which has seen it designated by NGOs as one of the most deprived countries on earth. Nigel Watt's book discusses the troubled political fortunes of this beautiful, yet disturbed country in the heart of Central Africa. He traces the origins of its political crises, sheds light on Burundi's recent history by means of interviews with leading participants and those whose lives have been affected by horrific events, and helps demystify the country's ethnic divisions.

Burundi Kristine Brennan, 2014-09-02 Like its neighbors Rwanda and the Democratic Republic of the Congo, the tiny African country of Burundi has a long history of internal violence. Members of the Hutu and Tutsi tribes have often fought for control of Burundi. In 1993, the country's first democratically elected president, a Hutu, was

voted into office; his assassination a few months later sparked a civil war that resulted in more than 100,000 deaths and a million refugees. In November 2003, a peace agreement was signed that many observers hoped would end the bloodshed in Burundi. But although the peace has held for a decade, the country is still struggling to recover from its history of ethnic violence.

Life after Violence Peter Uvin, 2013-04-04

Burundi has recently emerged from twelve years of devastating civil war. Its economy has been destroyed and hundreds and thousands of people have been killed. In this book, the voices of ordinary Burundians are heard for the first time. Farmers, artisans, traders, mothers, soldiers and students talk about the past and the future, war and peace, their hopes for a better life and their relationships with each other and the state. Young men, in particular, often seen as the cause of violence and war, talk about the difficulties of living up to standards of masculinity in an impoverished and war-torn society. Weaving a rich tapestry, Peter Uvin pitches the ideas and aspirations of people on the ground against the theory and assumptions often made by the international development and peace-building agencies and organisations. In doing this, he illuminates both shared goals and misunderstandings. This groundbreaking book on conflict and society in Africa will have profound repercussions for development across the world.

From Bloodshed to Hope in Burundi Ambassador Robert Krueger, Kathleen Tobin Krueger, 2009-03-06
In 1994, while nations everywhere stood idly by, 800,000 people were slaughtered in eight weeks in Rwanda. Arriving as U.S. Ambassador to neighboring Burundi a few weeks later, Bob Krueger began drawing international attention to the genocide also proceeding in Burundi, where he sought to minimize the killing and to preserve its fledgling democratic government from destruction by its own army. *From Bloodshed to Hope in Burundi* is a compelling eyewitness account of both a horrific and persistent genocide and of the ongoing efforts of many courageous individuals to build a more just society. Krueger and his wife Kathleen graphically document the slaughter occurring all around them, as well as their repeated efforts to get the U.S. government and the international community to take notice and take action. Bob Krueger reconstructs the events of the military coup that precipitated the Burundi genocide and describes his efforts to uncover the truth by digging up graves and interviewing survivors. In straightforward and powerful language, Kathleen Krueger recounts her family's experience living amid civil war, including when she faced down a dozen AK-47-wielding African soldiers to save the life of a household worker. *From Bloodshed to Hope in Burundi* shines a piercing light on a genocide that has gone largely unreported, and identifies those responsible for it. It also offers hope that as the truth emerges and the perpetrators are

brought to account, the people of Burundi will at last achieve peace and reconciliation.

Rwanda and Burundi: A General Introduction

Rehema Gwangu Syabumi, 2019-03-17 This is a general introduction to Rwanda and Burundi, twin nations in the Great Lakes region of East Africa, which are composed of members of the same ethnic groups: Hutu, Tutsi, and Twa. Subjects covered include geography, recent history and how the people live – some of their customs and traditions and how they earn their living among other subjects. The book also covers some of the crises the countries have faced in recent years to provide a more comprehensive picture of life in those countries which have been some of the most traumatised in the history of post-colonial Africa. The book is intended for members of the general public although some of them may find the work too detailed in terms of recent history for general purposes and may feel that it is better suited to those interested in research and academic pursuits relating to these twin nations. It will probably serve both, the general reader and members of the academic community, without being too detailed yet comprehensive enough to be of interest to students in African studies including those who specialise in doing research on the Great Lakes region of East Africa with particular emphasis on Rwanda and Burundi.

Burundi: The Hutu and The Tutsi Cauldron of Conflict and Quest for Dynamic Compromise Godfrey

Mwakikagile,2012-05 This work looks at conflicts between the Hutu and the Tutsi in Burundi. It is also a profile of the Hutu and the Tutsi as a people. They are two social groups which claim separate identities on ethnic or tribal basis although they speak the same language and have the same culture. The work also looks at conflicts in eastern Congo which led to the downfall of President Mobutu Sese Seko of what was then known as Zaire. The author also looks at attempts by regional neighbours to resolve the conflict between the Hutu and Tutsi in Burundi, especially the role played by Tanzania and its former president, Julius Nyerere, who was the chief mediator. Most of Burundi's exports and imports go through Tanzania, giving the country leverage as the main facilitator of the peace process which sometimes has involved economic sanctions against Burundi. The conflict between the Hutu and the Tutsi is one of Africa's intractable problems. It is also one of the oldest in the post-colonial era. The book sheds some light on the complex situation in Burundi and on relations between the two groups. It also provides some insights into what can be done to resolve one of Africa's perennial problems. It can also be helpful to those who are trying to learn about Burundi for the first time. Students of African studies may also find this work to be useful.

Civil Wars in Rwanda and Burundi Godfrey

Mwakikagile, 2013 This is a historical survey and analysis of some of the bloodiest conflicts in modern times. The civil wars in Rwanda and Burundi, twin states in the Great Lakes region of East Africa, are often explained in simplistic terms even by some political pundits as mere tribal wars, rooted in ancient hatred, between the Hutu and the Tutsi. Ethnicity is indeed a factor. But of paramount importance in this conflict between the Hutu and the Tutsi, in both countries, is the struggle for power although with racial overtones, and the exclusion of the Hutu majority from meaningful participation in the political process. Therefore the conflicts are not tribal wars but political statements as well, probably more than anything else; what Tanzanian President Benjamin Mkapa aptly described as military expressions of political intent. In this comprehensive study, the author also addresses one of the most controversial subjects today: conflict resolution in Africa. There are no easy answers, but the author attempts to provide some of them. He covers as much ground as possible, trying to come up with solutions not only to the wars in Africa's Great Lakes region, but in other parts of the continent as well.

Genocide Edward L. Nyankanzi, 1998 3. The Congo Rebellion

Peace and Stability in Rwanda and Burundi

Godfrey Mwakikagile, 2013 THIS work looks at some of the ways to achieve lasting peace and stability in Rwanda and Burundi whose destiny is inextricably linked with the entire Great Lakes

region of East Africa. Conflicts in the two countries affect the entire region, especially their neighbours - Tanzania, Congo, and Uganda - and have ripple effects which go far beyond the region. Therefore all the countries in the region have direct interest in what goes on in Rwanda and Burundi and in the resolution of the conflicts in the twin nations. But resolution of the conflict between the Hutu and the Tutsi in Rwanda and Burundi may require a solution that has never been tried before. It may even require a combination of solutions in order to be resolved permanently. Any solution, however radical, should be tried even if it runs counter to the logic of what African leaders and many other Africans consider to be the proper way to build nations and achieve unity transcending racial, ethnic and regional differences. Resolution of the conflict in Rwanda and Burundi may also provide some insights into the complexities of conflict management, and conflict resolution, in other intra-territorial and regional conflicts and disputes in other parts of the continent.

Historical study of Rwanda and Burundi, with particular reference to social change resulting from the transition from the traditional political and social structures since deconolization - covers the role of Belgium, the role of the Church, the role of China, etc., and examines the intergroup relations between the hutu and tutsi tribal peoples and the refugee problems resulting from the revolution in Rwanda. Preventing Genocide in Burundi Stephen R.

Weissman, 1998 Since 1993, interethnic violence between the 15 to 20 percent Tutsi minority and the 80 to 85 percent Hutu majority in Burundi has taken an estimated 150,000 lives. The continuation of the conflict helps place tens of millions of people at risk in Central Africa and erodes the

international norm against genocide. Despite considerable time and effort, the world's peacemakers have been unable to stop the bloodshed and facilitate a political settlement. An examination of the international response to the crisis furnishes valuable lessons for peacemaking in Burundi and other areas of genocidal conflict. A long-term political settlement that took adequate account of Burundian history and circumstances would have three basic characteristics: (1) a form of democratic power sharing that was more majoritarian than consociational but provided significant protection for minority security and economic interests; (2) measures to address collective fears and memories of genocide by acknowledging past crimes and fixing individual responsibility for them; and (3) impartial outside military forces sufficient to control the Burundian military until it is reformed and ethnically integrated. However, as the democratization and power-sharing movements of the early 1990s indicated, a settlement is unlikely to develop without substantial international pressure and assistance. The lesson of these movements' tragic demise is that outside carrots and sticks must be focused on obtaining the engagement of all important parties, especially the powerful extremists, in compromise political negotiations.

Historical Dictionary of Burundi Ellen K. Eggers, 2006 This third edition of Historical Dictionary of Burundi is an important reference especially due to the lack of information available on the country. It is not only about the

present and the recent past but also about the country's early history, which reveals sources of conflict. This book includes a chronology, a list of acronyms and abbreviations, an introductory essay, appendixes, a bibliography, and several hundred cross-referenced dictionary entries of Burundi's history, politics, economy, society, and culture.--BOOK JACKET.
