**Coffee** Jonathan Morris, 2018-10-15 Most of us can't make it through morning without our cup (or cups) of joe, and we're not alone. Coffee is a global beverage: it's grown commercially on four continents and consumed enthusiastically on all seven—and there is even an Italian espresso machine on the International Space Station. Coffee's journey has taken it from the forests of Ethiopia to the fincas of Latin America, from Ottoman coffee houses to "Third Wave" cafés, and from the simple coffee pot to the capsule machine. In *Coffee: A Global History*, Jonathan Morris explains both how the world acquired a taste for this humble bean, and why the beverage tastes so differently throughout the world. Sifting through the grounds of coffee history, Morris discusses the diverse cast of caffeinated characters who drank coffee, why and where they did so, as well as how it was prepared and what it tasted like. He identifies the regions and ways in which coffee has been grown, who worked the farms and who owned them, and how the beans were processed, traded, and transported. Morris also explores the businesses behind coffee—the brokers, roasters, and machine manufacturers—and dissects the geopolitics linking producers to consumers. Written in a style as invigorating as that first cup of Java, and featuring fantastic recipes, images, stories, and surprising facts, *Coffee* will fascinate foodies, food historians, baristas, and the many people who regard this ancient brew as a staple of modern life.

*Coffee Culture* Catherine M. Tucker, 2017-01-20 *Coffee Culture: Local experiences, Global Connections* explores coffee as (1) a major commodity that shapes the lives of millions of people; (2) a product with a dramatic history; (3) a beverage with multiple meanings and uses (energizer, comfort food, addiction, flavouring, and confection); (4) an inspiration for humor and cultural critique; (5) a crop that can help protect biodiversity yet also threaten the environment; (6) a health risk and a health food; and (7) a focus of alternative trade efforts. This book presents coffee as a commodity that ties the world together, from the coffee producers and pickers who tend the plantations in tropical nations, to the middlemen and processors, to the consumers who drink coffee without ever having to think about how the drink reached their hands.

*The Thinking Space* Leona Rittner, W. Scott Haime, 2016-03-03 The café is not only a place to enjoy a cup of coffee, it is also a space - distinct from its urban environment - in which to reflect and take part in intellectual debate. Since the eighteenth century in Europe, intellectuals and artists have gathered in cafés to exchange ideas, inspirations and information that has driven the cultural agenda for Europe and the world. Without the café, would there have been a Karl Marx or a Jean-Paul Sartre? The café as an institutional site has been the subject of renewed interest amongst scholars in the past decade, and its role in the development of art, ideas and culture has been explored in some detail. However, few have investigated the ways in which cafés create a cultural and intellectual space which brings together multiple influences and intellectual practices and shapes the urban settings of which they are a part. This volume presents an international group of scholars who consider cafés as sites of intellectual discourse from across Europe during the long modern period. Drawing on literary theory, history, cultural studies and urban studies, the contributors explore the ways in which cafés have functioned and evolved at crucial moments in the histories of important cities and countries - notably Paris, Vienna and Italy. Choosing these sites allows readers to understand both the local particularities of each café while also seeing the larger cultural connections between these places. By revealing how the café operated as a unique cultural context within the urban setting, this volume demonstrates how space and ideas are connected. As our global society becomes more focused on creativity and mobility the intellectual cafés of past generations can also serve as inspiration for contemporary and future knowledge workers who will expand and develop this tradition of using and thinking in space.

*In the Café of Lost Youth* Patrick Modiano,2016-03-08 NYRB Classics Original Winner of the Nobel Prize in Literature In the Café of Lost Youth is vintage Patrick Modiano, an absorbing evocation of a particular Paris of the 1950s, shadowy and shady, a secret world of writers, criminals, drinkers, and drifters. The novel, inspired in part by the circle (depicted in the photographs of Ed van der Elsken) of

the notorious and charismatic Guy Debord, centers on the enigmatic, waiflike figure of Louki, who catches everyone's attention even as she eludes possession or comprehension. Through the eyes of four very different narrators, including Louki herself, we contemplate her character and her fate, while Modiano explores the themes of identity, memory, time, and forgetting that are at the heart of his spellbinding and deeply moving art.
