Seizing the Enigma David Kahn,2012-02-02 “An absorbing and thoroughly well documented account” of WWII naval intelligence and the Allied hunt for the Nazi code machine known as the Enigma (Warship). From the start of World War II to mid-1943, British and American naval forces fought a desperate battle against German submarine wolfpacks. And the Allies might have lost the struggle at sea without an astounding intelligence coup. Here, the author brings to life the race to break the German U-boat codes. As the Battle of the Atlantic raged, Hitler’s U-boats reigned. To combat the growing crisis, ingenious amateurs joined the nucleus of dedicated professionals at Bletchley Park to unlock the continually changing German naval codes. Their mission: to read the U-boat messages of Hitler’s cipher device, the Enigma. They first found success with the capture of U-110,—which yielded the Enigma machine itself and a trove of secret documents. Then the weather ship Lauenburg seized near the Arctic ice pack provided code settings for an entire month. Finally, two sailors rescued a German weather cipher that enabled the team at Bletchley to solve the Enigma after a year-long blackout. In “a highly recommended account with a wealth of materials” *Seizing the Enigma* tells the story of a determined corps of people who helped turn the tide of the war (Naval Historical Foundation).

**Guantánamo Diary** Mohamedou Ould Slahi,2017-10-17 The acclaimed national bestseller, the first and only diary written by a Guantánamo detainee during his imprisonment, now with previously censored material restored. When GUANTÁNAMO DIARY was first published—heavily redacted by the U.S. government—in 2015, Mohamedou Ould Slahi was still imprisoned at the detainee camp in Guantánamo Bay, Cuba, despite a federal court ruling ordering his release, and it was unclear when or if he would ever see freedom. In October 2016, he was finally released and reunited with his family. During his 14-year imprisonment, the United States never charged him with a crime. Now for the first time, he is able to tell his story in full, with previously censored material restored. This searing diary is not merely a vivid record of a miscarriage of justice, but a deeply personal memoir—terrifying, darkly humorous, and surprisingly gracious. GUANTÁNAMO DIARY is a document of immense emotional power and historical importance.

Shadow of the Xel'naga Gabriel Mesta,2002-01-19 Far in the future, 60,000 light-years from Earth, a loose confederacy of Terran exiles are locked in battle with the enigmatic Protoss and the ruthless Zerg Swarm. Each species struggles to ensure its own survival among the stars in a war that will herald the beginning of mankind's greatest chapter -- or foretell its violent, bloody end. Bhekar Ro: a bleak, backwater world on the fringe of the Terran Dominion, where every day is a struggle to survive for its handful of human colonists. It is a veritable wasteland -- one speck of dust among many in the vast, dark sea of space. But when the most violent storm in recent memory unearths an unfathomable alien artifact, Bhekar Ro becomes the greatest prize in the Terran Sector -- the Holy Grail of the Zerg, the Protoss, and Humanity alike -- as forces from the three great powers converge to claim the lost secrets of the most powerful species the universe has ever known. *shadow of the xel'naga* An original tale of space warfare novels set in the world of the bestselling computer game!

**American Spartan** Ann Scott Tyson,2014-03-25 Lawrence of Arabia meets Sebastian Junger's War in this unique, incendiary, and dramatic true story of heroism and heartbreak in Afghanistan written by a Pulitzer Prize-nominated war correspondent. Army Special Forces Major Jim Gant changed the face of America’s war effort in Afghanistan. A decorated Green Beret who spent years in Afghanistan and Iraq training indigenous fighters, Gant argued for embedding autonomous units with tribes across Afghanistan to earn the Afghans’ trust and transform them into a reliable ally with whom we could defeat the Taliban and counter al-Qaeda networks. The military's top brass, including General David Petraeus, commander of U.S. Forces in Afghanistan, approved, and Gant was tasked with implementing his controversial strategy. Veteran war correspondent Ann Scott Tyson first spoke with Gant when he was awarded the Silver Star in 2007. Tyson soon came to share Gant’s vision, so she accompanied him to Afghanistan, risking her life to embed with the tribes and chronicle their experience. And then they fell in love. Illustrated with dozens of photographs, *American Spartan* is their remarkable story—one of the most riveting, emotional narratives of wartime ever published.

**Machinations of the Space Princess (Monochrome)** James Desborough,2018-06-29 *Machinations of the Space Princess* is a Science-Fantasy role-playing game. That means it's very much about style over substance, mixing science-fiction, magic and psionics in a game world that owes much more to *Metal Hurlant* and *Star Wars* than it does to 2001 or *Bova's Grand Tour*. This is a game of strangeness and fun, of space pirates and beautiful alien princesses, of living planets and robot hordes, of blasters at noon. This is... Sexy, sleazy, swords and sci-fi! A full game combining old and new school thinking, packed with GM and player advice and with simple tools for creating your own monsters, adversaries, weapons, armour, ships and alien races.

**Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

*Weary Warriors* Pamela Moss,Michael J. Prince,2014-06-01 As seen in military documents, medical journals, novels, films, television shows, and memoirs, soldiers’ invisible wounds are not innate cracks in individual psyches that break under the stress of war. Instead, the generation of weary warriors is caught up in wider social and political networks and institutions—families, activist groups, government bureaucracies, welfare state programs—mediated through a military hierarchy, psychiatry rooted in mind-body sciences, and various cultural constructs of masculinity. This book offers a history of military psychiatry from the American Civil War to the latest Afghanistan conflict. The authors trace the effects of power and knowledge in relation to the emotional and psychological trauma that shapes soldiers’ bodies, minds, and souls, developing an extensive account of the emergence, diagnosis, and treatment of soldiers’ invisible wounds.

**Gordon Welchman** Joel Greenberg,2014-02-24 “Enigma’s ‘forgotten genius’ . . . [the] story of Alan Turing’s spymaster boss who led the team that cracked Hitler’s WWII codes” (Daily Mail). The Official Secrets Act and the passing of time have prevented the Bletchley Park story from being told by many of its key participants. Here at last is a book that allows some of them to speak for the first time. Gordon Welchman was one of the Park’s most important figures. Like Alan Turing, his pioneering work was fundamental to the success of Bletchley Park and helped pave the way for the birth of the digital age. Yet, his story is largely unknown to many. His book, *The Hut Six Story*, was the first to reveal not only how they broke the codes, but how it was done on an industrial scale. Its publication created such a stir in GCHQ and the NSA that Welchman was forbidden to discuss the book or his wartime work with the media. In order to finally set the record straight, Bletchley Park historian and tour guide Joel Greenberg has drawn on Welchman’s personal papers and correspondence with wartime colleagues that lay undisturbed in his son’s loft for many years. Packed with fascinating new insights, including Welchman’s thoughts on key Bletchley figures and the development of the bombe machine, this is essential reading for anyone interested in the clandestine activities at Bletchley Park. “A magnificent biography which finally provides recognition to one of Bletchley’s and Britain’s lost heroes.” —Michael Smith “Reveals a man equally as fascinating equally as important as Turing, and tells us even more about what went on in this most secret of establishments during the war years.” —Books Monthly

**The Fire Next Door** Ted Galen Carpenter,2012-10-09 Since the Mexican government initiated a military offensive against its country’s powerful

drug cartels in December 2006, some 50,000 people have perished and the drugs continue to flow. In *The Fire Next Door*, Ted Galen Carpenter boldly conveys the growing horror overtaking Mexico and makes the case that the only effective strategy for the United States is to abandon its failed drug prohibition policy, thus depriving drug cartels of financial resources.

*Mirrors of Destruction* Omer Bartov,2000-08-24 *Mirrors of Destruction* examines the relationship between total war, state-organized genocide, and the emergence of modern identity. Here, Omer Bartov demonstrates that in the twentieth century there have been intimate links between military conflict, mass murder of civilian populations, and the definition and categorization of groups and individuals. These connections were most clearly manifested in the Holocaust, as the Nazis attempted to exterminate European Jewry under cover of a brutal war and with the stated goal of creating a racially pure Aryan population and Germanic empire. The Holocaust, however, can only be understood within the context of the century's predilection for applying massive and systematic methods of destruction to resolve conflicts over identity. To provide the context for the Final Solution, Bartov examines the changing relationships between Jews and non-Jews in France and Germany from the outbreak of World War I to the present. Rather than presenting a comprehensive history, or a narrative from a single perspective, Bartov views the past century through four interrelated prisms. He begins with an analysis of the glorification of war and violence, from its modern birth in the trenches of World War I to its horrifying culmination in the presentation of genocide by the SS as a glorious undertaking. He then examines the pacifist reaction in interwar France to show how it contributed to a climate of collaboration with dictatorship and mass murder. The book goes on to argue that much of the discourse on identity throughout the century has had to do with identifying and eliminating society's elusive enemies or enemies from within. Bartov concludes with an investigation of modern apocalyptic visions, showing how they have both encouraged mass destructions and opened a way for the reconstruction of individual and collective identities after a catastrophe. Written with verve, *Mirrors of Destruction* is rich in interpretations and theoretical tools and provides a new framework for understanding a central trait of modern history.

Adopted Reality Laura Dennis,2012-06-05 In a September 11 memoir unlike any you have read, this thrilling, psychological adventure brilliantly follows the ups and downs of bipolar. After Laura reunites with her birth mom, a series of life changes spiral out-of-control. When a beloved uncle dies in the Twin Towers, the tension that has been building explodes. **My Opposition** Friedrich Kellner,2018-01-25 This is a truly unique account of Nazi Germany at war and of one man's struggle against totalitarianism. A mid-level official in a provincial town, Friedrich Kellner kept a secret diary from 1939 to 1945, risking his life to record Germany's path to dictatorship and genocide and to protest his countrymen's complicity in the regime's brutalities. Just one month into the war he is aware that Jews are marked for extermination and later records how soldiers on leave spoke openly about the mass murder of Jews and the murder of POWs; he also documents the Gestapo's merciless rule at home from euthanasia campaigns against the handicapped and mentally ill to the execution of anyone found listening to foreign broadcasts. This essential testimony of everyday life under the Third Reich is accompanied by a foreword by Alan Steinweis and the remarkable story of how the diary was brought to light by Robert Scott Kellner, Friedrich's grandson.

*The Fall of Heaven* Andrew Scott Cooper,2016-08-02 An immersive, gripping account of the rise and fall of Iran's glamorous Pahlavi dynasty, written with the cooperation of the late Shah's widow, Empress Farah, Iranian revolutionaries and US officials from the Carter administration In this remarkably human portrait of one of the twentieth century's most complicated personalities, Mohammad Reza Pahlavi, Andrew Scott Cooper traces the Shah's life from childhood through his ascension to the throne in 1941. He draws the turbulence of the post-war era during which the Shah survived assassination attempts and coup plots to build a modern, pro-Western state and launch Iran onto the world stage as one of the world's top five powers. Readers get the story of the Shah's political career alongside the story of his courtship and marriage to Farah Diba, who became a power in her own right, the beloved family they created, and an exclusive look at life inside the palace during the Iranian Revolution. Cooper's investigative account ultimately delivers the fall of the Pahlavi dynasty through the eyes of those who were there: leading Iranian revolutionaries; President Jimmy Carter and White House officials; US Ambassador William Sullivan and his staff in the American embassy in Tehran; American families caught up in the drama; even Empress Farah herself, and the rest of the Iranian Imperial family. Intimate and sweeping at once, *The Fall of Heaven* recreates in stunning detail the dramatic and final days of one of the world's most legendary ruling families, the unseating of which helped set the stage for the current state of the Middle East.

Telesthesia McKenzie Wark,2012-09-04 The telegraph, telephone, and television, not to mention the Internet and mobile telephony, are all forms of communication that move information faster than the speed at which objects move. Both labor and capital and armies and commodities once moved at the same speed as the information organizing them. Over the last two centuries, social space has developed a strange folded quality, where physical space comes more and more to be doubled by a space of the movement of information. Telesthesia, or perception at a distance, comes increasingly to characterize how we see and hear and know the world. How does the evolution of different communication forms affect how we can perceive and act? How can the underlying infrastructure of communication forms be detected in the events of everyday life? These are the central questions animating this book. McKenzie Wark first explores relations between metropolitan and peripheral cultures – or postcolonial relations – with close attention to the texture of events that can happen when perception is mediated. He then examines what were once called postmodern experiences, and how relations of communication create new kinds of class relations and experiences of everyday life, from 9/11 to Occupy Wall Street.
