How I Met My Monster Amanda Noll,2019-11-03 One night, when Ethan reaches under his bed for a toy truck, he finds this note instead: Monsters! Meet here for final test. Ethan is sure his parents are trying to trick him into staying under the covers, until he sees five colorful sets of eyes blinking at him from beneath the bed. Soon, a colorful parade of quirky, squeaky little monsters compete to become Ethan's monster. But only the little green monster, Gabe, has the perfect blend of stomach-rumbling and snorting needed to get Ethan into bed and keep him there so he falls asleep—which as everyone knows, is the real reason for monsters under beds. With its perfect balance of giggles and shivers, this silly-spooky prequel to the award-winning I Need My Monster and Hey, That's MY Monster! will keep young readers entertained.

Helping Children Find Their Voices Kate Freeman,2022-03-31 Designed to be used either independently or alongside the 'Words Together' storybooks, Helping Children Find Their Voices is a guide for parents and practitioners supporting children in the early stages of learning to talk, specifically to understand and use two-word sentences. Written in a friendly and reassuring tone, the book untangles questions and concerns that many parents and practitioners share around language development, such as whether children are reaching important milestones, whether they benefit from screen-time and dummies, and what to do if there might be a problem. Key features of this book include: • Chapters that can either be followed consecutively, offering tips on how to encourage first words and the combining of words into two-word sentences, or dipped in-and-out of according to the individual child's level of development • Practical information and advice rooted in theory, giving parents and practitioners the confidence and background knowledge to support communication • Activities that can be integrated into everyday interactions, giving children the opportunity to hear simple sentence structures that they can progress towards in their own speech. Also available as part of a set, with four colourful picture books, this guide is an ideal resource for early years practitioners, parents, and those working with children who have delayed speech and language development.

Helping Children Find God Helen Oppenheimer,1995-12-01 A realistic, straight-forward approach to exploring one's faith and doubts, and talking with the next generation about important spiritual issues. A child's spiritual pilgrimage begins from the earliest moments of life and is shaped by the significant adults in the child's ever-expanding world. Yet often adults have an inadequate or unclear understanding of their faith, and are unsure how to impart their own Christian beliefs to their children in a credible and meaningful way. Oppenheimer offers guidance for adults who seek ways, for themselves and for their children, to live with the questions with a faithful openness and deep sincerity. She presents the possibilities for adults to become as little children in their faith, without naivete, and for children to grow in wisdom and stature, without the need for dogmatic certainties. An encouraging book for those who face the challenge of living out the Christian commitment--of maintaining the balance of being true to Christ while being true to one's self and one's children.

Why Do I Have To? Laurie Leventhal-Belfer,2008-07-15 'If you want a child with Asperger's syndrome to comply with a social or family rule, it is very important to explain the logical reason to comply. Laurie's book provides the logic for compliance that will be invaluable for parents and teachers. I know this book will become regular bed time reading and be used many times at home and at school.' - Professor Tony Attwood 'Dr. Laurie clearly understands how children with limited flexibility and difficulty coping think and respond. She has used her clinical experience to teach us how to help these children succeed. Dr. Laurie has provided a format, similar to Social Stories (TM), for reducing stress in daily life and for minimizing conflict stemming from unwritten or everyday rules. While there is no one solution for every child, the stories can be easily adapted for each child. She encourages children to be participants in determining solutions to their problems by providing simple, not simplistic, methods that work.' -Teri Wiss, M.A., O.T.R./L., Director of Development is CHILD'S PLAY! Why do I have to go to school before the show that I am watching is over? Why do I have to wear shoes and a jacket when I go outside? Rules like these can be really frustrating - but they don't have to be! Why do I have to? looks at a set of everyday situations that provide challenges for children at home, with their friends, and at school. Laurie Leventhal-Belfer empathizes with children's wish to do things their way, explains clearly why their way does not work, and provides a list of practical suggestions for how to cope with these challenges and avoid feelings of frustration. This is the ideal book for children who have difficulty coping with the expectations of daily living, as well as for their parents and the professionals who work with them.

First Find Your Child a Good Mother Paul Riesman,1992 Through a systematic comparison of the life circumstances, child-rearing practices, and personalities of the FulBe and their former slaves, the RiimaayBe, this book develops an alternative theory of the way personality is formed in the

Fulani society of West Africa. Riesman discusses the different characters, economies, and life plans of adult men and women of both groups, focusing on their ideas about the value of relatives. He further presents detailed observations of child-rearing practices, and concludes that the FulBe and RiimaayBe do not differ in these practices. Contrasting Fulani and Western notions of parenting, he suggests that child-rearing practices are themselves irrelevant to the formation of adult personality, but that a people's ideas about the meaning of life, social relations, and the development of character are very important. Finally, Riesman outlines a sociocultural theory of personality and its formation, and uses this theory to make sense of the differences between FulBe and RiimaayBe.

Why Is My Child in Charge? Claire Lerner, 2021-09-02 Solve typical toddler challenges with eight key mindshifts that will help you parent with clarity, calmness and self-control. Through stories from her practice, Claire Lerner shows parents how making critical mindshifts—seeing their children's behaviors through a new lens —empowers parents to solve their most vexing childrearing challenges. This process puts parents back in the driver's seat, where they belong and where their children need them to be. These real life stories provide a roadmap for how to tune into the root causes of children's behavior and how to create and implement strategies that are tailored to the unique needs of each child and family. Through these stories, Claire provides a treasure trove of practical solutions that are based in science and which work in real life. *Why Is My Child In Charge?* picks up where other books have left parents hanging. Most parenting books offer solutions that sound good on paper but don't work in practice. They are aspirational rather than achievable, or they offer one-size-fits-all approaches that don't meet the needs of an individual child. They can compound parents' feelings of frustration and thus, can be counterproductive. Case by case, Claire unpacks the individualized process she guides parents through to solve the most common challenges such as throwing tantrums in public; delaying bedtime for hours; refusing to participate in family mealtimes; and resisting potty training. Employing a relatable story-telling approach, Claire elucidates: The faulty mindsets that pose obstacles to parents seeing the situation more objectively The essential mindshifts that enable parents to quickly identify the root causes of the problem The development of an action plan tailored to each unique child and family *Why is My Child in Charge?* is like having a child development specialist in your home. It shows how you can develop “win-win” strategies that translate into adaptable, happy kids and calm, connected and in-control parents. It will help you be the parent you want to be.
