**The Everything Hard Cider Book** Drew Beechum,2013-09-18 Easy to brew, easy to customize, and enormously delicious! Looking for a crisp, clean, and scrumptious alternative to beer? On a gluten-free diet or allergic to the grains used in brewing beer? Want to experience the pride that comes when your friends crack open one of your bottles and exclaim, You made this? Then welcome to the world of hard cider. Suddenly it's everywhere--it's on the menu in pubs and restaurants, and there's a dizzying array of ciders available in stores. And some cider lovers, just like craft beer drinkers, are looking for ways to create their own brew. The Everything Hard Cider Book takes you step by step into the fermentation and bottling process, with tips on finding the proper equipment, sourcing ingredients, varying flavors, and creating unique packaging. You'll also find advice on advanced techniques, like evaluating the finished product, varying recipes for your own taste, and even growing fruit for cider. And with thirty-five essential and adaptable recipes for apple and other fruit ciders, you'll find everything you need to make your own distinctive and delicious beverages.

*Tasting Cider* Erin James,CIDERCRAFT Magazine,2017-07-25 This complete guide to North America's oldest beverage celebrates hard cider's rich history and its modern makers, as well as its deliciously diverse possibilities. Flavor profiles and tasting guidelines highlight 100 selections of cider — including single varietal, dessert, hopped, and barrel-aged — plus perry, cider's pear-based cousin. A perfect addition to any meal, cider pairings are featured in 30 food recipes, from Brussels sprouts salad to salmon chowder, brined quail, and poached pear frangipane. An additional 30 cocktail recipes include creative combinations such as Maple Basil Ciderita and Pear-fect Rye Fizz.

*American Cider* Dan Pucci,Craig Cavallo,2021-03-02 “Not just a thorough guide to the history of apples and cider in this country but also an inspiring survey of the orchardists and cidermakers devoting their lives to sustainable agriculture through apples.”—Alice Waters “Pucci and Cavallo are thorough and enthusiastic chroniclers, who celebrate cider's pomologists and pioneers with infectious curiosity and passion.”—Bianca Bosker, New York Times bestselling author of *Cork Dork* Cider today runs the gamut from sweet to dry, smooth to funky, made from apples and sometimes joined by other fruits—and even hopped like beer. In *American Cider*, aficionados Dan Pucci and Craig Cavallo give a new wave of consumers the tools to taste, talk about, and choose their ciders, along with stories of the many local heroes saving apple culture and producing new varieties. Like wine made from well-known grapes, ciders differ based on the apples they're made from and where and how those apples were grown. Combining the tasting tools of wine and beer, the authors illuminate the possibilities of this light, flavorful, naturally gluten-free beverage. And cider is more than just its taste—it's also historic, as the nation's first popular alcoholic beverage, made from apples brought across the Atlantic from England. Pucci and Cavallo use a region-by-region approach to illustrate how cider and the apples that make it came to be, from the well-known tale of Johnny Appleseed—which isn't quite what we thought—to the more surprising effects of industrial development and government policies that benefited white men. *American Cider* is a guide to enjoying cider, but even more so, it is a guide to being part of a community of consumers, farmers, and fermenters making the nation's oldest beverage its newest must-try drink.

**The Burroughs Cider Mill** Serge G. Mihaly Jr.,2011-10-06 The Burroughs Cider Mill explains the birth and development of a long forgotten Trumbull landmark. Built in 1884 by Stephen Burroughs, the family run mill produced cider and other apple related products until 1972. Take a trip down one of Trumbull, Connecticut's memory lanes and revisit a time of peaceful afternoon and lazy Sundays who knows, you might find yourself sipping some of the beverage by the end of the book.

**The Simplicity of Cider** Amy E. Reichert,2017-05-16 Focused and unassuming fifth generation cider-maker Sanna Lund has one desire: to live a simple, quiet life on her family's apple orchard in Door County, Wisconsin. Although her business is struggling, Sanna remains fiercely devoted to the orchard, despite her brother's attempts to convince their aging father to sell the land. Single dad Isaac Banks has spent years trying to shield his son Sebastian from his troubled mother. Fleeing heartbreak at home, Isaac packed up their lives and the two headed out on an adventure, driving across the country. Chance--or fate--led them straight to Sanna's orchard. Isaac's helping hands are much appreciated at the apple farm, even more when Sanna's father is injured in an accident. As Sanna's formerly simple life becomes increasingly complicated, she finds solace in unexpected places--friendship with young Sebastian and something more deliciously complex with Isaac--until an outside threat infiltrates the farm.--

*The Cider Revival* Jason Wilson,2019-09-03 “From unraveling the history of the apple to exploring the intricacies of flavor, [Wilson] reveals the love and labor that goes into a timeless beverage.” —Bianca Bosker, New York Times bestselling author of *Cork Dork* Cider is the quintessential American beverage. Drank by early settlers and founding fathers, it was ubiquitous and pervasive, but following Prohibition when orchards were destroyed and neglected, cider all but disappeared. In *The Cider Revival*, Jason Wilson chronicles what is happening now, an extraordinary rebirth that is less than a decade old. Following the seasons through the autumn harvest, winter fermentation, spring bottling, and summer festival and orchard work, Wilson travels around New York and New England, with forays to the Midwest, the West Coast, and Europe. He meets the new heroes of cider: orchardists who are rediscovering long lost apple varieties, cider makers who have the attention to craftsmanship of natural wine makers, and beverage professionals who see cider as poised to explode in popularity. What emerges is a deeply rewarding story, an exploration of cider's identity and future, and its cultural and environmental significance. A blend of history and travelogue, *The Cider Revival* is a toast to a complex drink. “Cider is America's great forgotten beverage. Jason Wilson's lively, anecdote-filled, passionate paean to what he says should properly be considered ‘apple win’ will go a long way toward giving this immensely varied and complex libation the recognition and appreciation it deserves.” —Colman Andrews, cofounder of *Saveur* and author of *The British Table*

Making and Preserving Apple Cider United States. Agricultural Research Service, James Frederick Robinson, 1977

**Uncultivated** Andy Brennan, 2019-06-17 Today, food is being reconsidered. It's a front-and-center topic in everything from politics to art, from science to economics. We know now that leaving food to government and industry specialists was one of the twentieth century's greatest mistakes. The question is where do we go from here. Author Andy Brennan describes uncultivation as a process: It involves exploring the wild; recognizing that much of nature is omitted from our conventional ways of seeing and doing things (our cultivations); and realizing the advantages to embracing what we've somehow forgotten or ignored. For most of us this process can be difficult, like swimming against the strong current of our modern culture. The hero of this book is the wild apple. *Uncultivated* follows Brennan's twenty-four-year history with naturalized trees and shows how they have guided him toward successes in agriculture, in the art of cider making, and in creating a small-farm business. The book contains useful information relevant to those particular fields, but is designed to connect the wild to a far greater audience, skillfully blending cultural criticism with a food activist's agenda. Apples rank among the most manipulated crops in the world, because not only do farmers want perfect fruit, they also assume the health of the tree depends on human intervention. Yet wild trees live all around us, and left to their own devices, they achieve different forms of success that modernity fails to apprehend. Andy Brennan learned of the health and taste advantages of such trees, and by emulating nature in his orchard (and in his cider) he has also enjoyed environmental and financial benefits. None of this would be possible by following today's prevailing winds of apple cultivation. In all fields, our cultural perspective is limited by a parallel proclivity. It's not just agriculture: we all must fight tendencies toward specialization, efficiency, linear thought, and predetermined growth. We have cultivated those tendencies at the exclusion of nature's full range. If *Uncultivated* is about faith in nature, and the power it has to deliver us from our own mistakes, then wild apple trees have already shown us the way.

**The Cold Storage of Apple Cider** H. C. Gore, 2017-08-25 This book contains a classic study on the cold storage of apple cider by H.C. Gore. With detailed graphs, tables, and analyses, this volume will appeal to those with an interest in the history and development of brewing techniques. Contents include: *The Cold Storage of Apple Cider*, *The Fruit used for the Experiment*, *Preparation of the Cider*, *Organoleptic Tests*, *Chemical Analysis*, *Discussion*, and *Summary*. Many vintage books such as this are increasingly scarce and expensive. We are republishing this volume now in an affordable, modern edition complete with a specially commissioned new introduction brewing beer.

The Fly Creek Cider Mill Cookbook Brenda Palmer Michaels, Bill Michaels, 2016-06-14 Fly Creek Cider Mill and Orchard is one of New York State's oldest working cider mills. Owned by authors Brenda and Bill Michaels, the mill sits on the banks of Fly Creek near historic Cooperstown, where for more than 150 years visitors have come to watch as apples are pressed into fresh cider. Released to commemorate the 160th anniversary of the mill, *The Fly Creek Cider Mill Cookbook* captures the history of this treasured operation through stories, photography, and more than 100 apple- and cider-based recipes. These recipes range from sauces and drinks to breads and soups to starters and main courses. Each recipe has been selected with the home cook in mind. Contributed by mill employees and friends, each dish has been vetted by James Beard Award-winning cookbook author Judith Choate, who is a friend of the Michaels family. When Hosea Williams opened the mill in the mid-1800s, settlers from around the region abandoned making labor-intensive, homemade cider in favor of milling their apples at Fly Creek. While waiting for the fruit to be turned into cider, community members amused themselves by watching the newfangled machinery, picnicking, and gossiping with friends and family—a scene not so different from the mill's workings today. More than 175,000 people visit the mill each year to experience a time-honored tradition that expresses the essence of another era. This book will appeal not only to home cooks in search of some nostalgic goodness but also to those who are interested in the history of a resilient American enterprise and the farm-to-table food movement.
