The Annotated Mona Lisa Carol Strickland, John Boswell, 2007-10 Like music, art is a universal language. Although looking at works of art is a pleasurable enough experience, to appreciate them fully requires certain skills and knowledge. --Carol Strickland, from the introduction to *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* * This heavily illustrated crash course in art history is revised and updated. This second edition of Carol Strickland's *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* offers an illustrated tutorial of prehistoric to post-modern art from cave paintings to video art installations to digital and Internet media. * Featuring succinct page-length essays, instructive sidebars, and more than 300 photographs, *The Annotated Mona Lisa: A Crash Course in Art History from Prehistoric to Post-Modern* takes art history out of the realm of dreary textbooks, demystifies jargon and theory, and makes art accessible—even at a cursory reading. * From Stonehenge to the Guggenheim and from Holbein to Warhol, more than 25,000 years of art is distilled into five sections covering a little more than 200 pages.

Friends Eric Carle, 2015-02-24 From the creator of the all-time classic *VERY HUNGRY CATERPILLAR* comes a sweetly resonant story about the power of friendship—now available for little hands When a best friend moves away, it can be painful for the child who is left behind. But the spunky boy in this upbeat story makes up his mind to find his missing playmate. *Friends* tells a story alive with love and perseverance, brightened with vibrant art and Eric Carle's trademark fostering of imagination. Praise for *Friends*: “This story of love and determination is illustrated with Carle's extraordinary signature artwork. For anyone

who would cross rivers and scale mountains for a beloved friend, this warmhearted story will create an emotional response. Young readers will learn the value of friendship and its many challenges.” —School Library Journal “Often dynamic and quite beautiful . . . A picture-book tribute to the strength of childhood friendships.” —Booklist

Celebration, U.S.A. Douglas Frantz, Catherine Collins, 2000-09-01 A prize-winning reporter, his wife, and their two kids describe life in Disney's vision of the future. In 1997, six months after the first residents had moved into Celebration, Florida-Disney's town of the future with its distinctly retro link to a longed-for past-Doug and Cathy and their two kids closed on their new home and settled down to participate in (and observe) this new venture. Their report from the trenches will surprise both Disney haters and Disney fans. What is it like to start a new community-not a suburb or subdivision, but a town, intended to be a self-supporting community with the best of the new technologies (including the very latest in teaching techniques) and the most cherished elements in American towns that existed before the automobile turned everything into a mall? For almost two years the family lived this experiment firsthand. Their report is vivid, funny, and painful-and it tells us as much about ourselves and our hopes and dreams as it does about the daily reality of building a community from the ground up.

Florynce "Flo" Kennedy Sherie M.

Randolph,2018-02-01 Often photographed in a cowboy hat with her middle finger held defiantly in the air, Florynce Flo Kennedy (1916–2000) left a vibrant legacy as a leader of the Black Power and feminist movements. In the first biography of Kennedy, Sherie M. Randolph traces the life and political influence of this strikingly bold and controversial radical activist. Rather than simply reacting to the predominantly white feminist movement, Kennedy brought the lessons of Black Power to white feminism and built bridges in the struggles against racism and sexism. Randolph narrates Kennedy's progressive upbringing, her pathbreaking graduation from Columbia Law School, and her long career as a media-savvy activist, showing how Kennedy rose to founding roles in organizations such as the National Black Feminist Organization and the National Organization for Women, allying herself with both white and black activists such as Adam Clayton Powell, H. Rap Brown, Betty Friedan, and Shirley Chisholm. Making use of an extensive and previously uncollected archive, Randolph demonstrates profound connections within the histories of the new left, civil rights, Black Power, and feminism, showing that black feminism was pivotal in shaping postwar U.S. liberation movements.

New York Star, 1922

The Strongest Men on Earth Graeme

Kent, 2012-10-03 They claimed to be the mightiest men in the world. For twenty-five years, before the outbreak of the First World War, professional strongmen were the pop idols of their day. Performing apparently incredible feats of strength, they strutted across stages and topped the bills everywhere, earning thousands of pounds a week. Fans included royalty, heads of state, politicians and leading figures in the literary and artistic worlds, as well as hundreds of thousands of ordinary men and women, all revelling in the antics of these larger-than-life characters. Seeking to outdo each other in death-defying deeds, the strongmen's performances were thrilling and dangerous: lifting elephants, horses, pianos and their players; breaking chains with their biceps; supporting thirty men on a plank suspended on their shoulders. Some strongmen succeeded beyond their wildest dreams. Eugen Sandow, a great self-publicist, was appointed physical culture adviser to King George V. His great rival, the bombastic Charles Sampson, toured the world with his blatant cheating and rigged strongman displays until one day the elephant he claimed to be lifting remained suspended in mid-air. Georg Hackenschmidt, the Russian Lion, was so popular that Theodore Roosevelt himself declared wistfully that he would rather be 'Hack' than President of the USA. In *The Strongest Men on Earth*, Graeme Kent vividly brings to life the world of strongmen (and women), and shares the stories that defined a sporting and show-business era.

Color Me Flo Flo Kennedy,2017-03-18 For the first time, lawyer, feminist, and civil rights advocate Florynce Kennedy tells the complete story of her life from being one of the first Black women to graduate from Colombia Law School to representing Billie Holiday and Charlie Parker. Raised in Kansas City in the 1920s, Flo Kennedy was one of five sisters, the daughter of a father who held off the Ku Klux Klan with a shotgun and a mother who taught them to hold out for the best. After graduating from Colombia Law School, Kennedy went on to be a delegate to the Black Power conferences, then took up the battle against sexism and racism by founding the Media Workshop, the Feminist Party, and the Coalition Against Racism and Sexism. She also became a member of the legal team that was instrumental in liberalizing the New York State abortion laws and was a coauthor of Abortion Rap. Flo Kennedy mastered guerilla warfare tactics on the picket line and in the streets and suites of New York. With the words that resonated and entertained TV audiences for years, Kennedy has returned with a memoir that flawlessly presents her case to readers.

The 79th Fighter Group Over Tunisia, Sicily, and Italy in World War II Don Woerpel,2001 This book is about the men of the 79th Fighter Group on the forgotten Mediterranean front in World War II. It tells who they were, what they did, and because it is set in the broader

context of the entire conflict in that theater is shows how the war on the ground influenced their war in the air. The 79th spent much of its tour with the RAF's Desert Air Force in Tunisia, Sicily, and the other side of Italy - providing readers with an inside look at battles generally not well known to the American public - and also took part in the battle for Rome and the invasion of southern France. It racked up an enviable record. It destroyed hundreds of ground targets, led all Allied fighters in victories over both Pantelleria and Anzio, gave three destroyers the deep six, and was the only fighter group to sink an aircraft carrier.

Imagine Math 6 Michele Emmer,Marco

Abate,2018-11-15 Imagine mathematics, imagine with the help of mathematics, imagine new worlds, new geometries, new forms. Imagine building mathematical models that make it possible to manage our world better, imagine combining music, art, poetry, literature, architecture and cinema with mathematics. Imagine the unpredictable and sometimes counterintuitive applications of mathematics in all areas of human endeavour. Imagination and mathematics, imagination and culture, culture and mathematics. This sixth volume in the series begins with a homage to the architect Zaha Hadid, who died on March

31st, 2016, a few weeks before the opening of a large exhibition of her works in Palazzo Franchetti in Venice, where all the Mathematics and Culture conferences have taken place in the last years. A large section of the book is dedicated to literature, narrative and mathematics including a contribution from Simon Singh. It discusses the role of media in mathematics, including museums of science, journals and movies. Mathematics and applications, including blood circulation and preventing crimes using earthquakes, is also addressed, while a section on mathematics and art examines the role of math in design. A large selection presents photos of mathematicians and mathematical objects by Vincent Moncorge. Discussing all topics in a way that is rigorous but captivating, detailed but full of evocations, it offers an all-embracing look at the world of mathematics and culture.
